*"Entered at the Post Office at New York, N. Y., as second-class matter."*

Vol. LXXI. MAY 16, 1903. No. 1835.

ONE certainly gets the impression from the current business news that the tide of business prosperity is not slowly but surely ebbing. In many respects the situation is still very strong. Such typical railway systems as the New York Central and the Baltimore & Ohio continue to show extraordinary increases in earnings. The enormous demand for iron and steel continues almost unabated. General business is very prosperous. It is not easy to find unequivocal facts pointing toward a smaller volume of business or a lower range of prices. At the same time, we repeat, one gets the impression that the business of the country has come to a turn in the curve. At the present moment iron and steel are in good demand and are scarce. The recent concessions in prices seem to be the result of foreign competition. Nevertheless production is rapidly overtaking consumption, and it is probable that further concessions will follow. This will not be altogether a bad thing because the high prices of all iron and steel products have been a great strain upon business, and are now leading to a suspension or abandonment of many improvement plans. Whether these projects will be resumed after the lowering of prices, will depend a good deal upon the state of the public confidence at that time—which in turn will depend upon the course of business between now and then. The immediate dangers to business prosperity consist chiefly of labor troubles, and the uncertain position of the crops. A serious lengthy disturbance in the New York building trades would have a grave reaction upon business everywhere, and would tend to make many business men contract their operations. As to crops, the winter wheat is, of course, all right; but the later crops are endangered by late planting. Moreover the effect of the present drought all over the East will be to make the hay crop small and poor in quality. The Stock Market has distinctly lost tone of late. More liquidation is undoubtedly in progress and that by very strong interests. Should the crop news continue to be bad it is very probable that the present sagging market would continue throughout the rest of the year. It by no means follows, however, that a smaller volume of general business and lower prices will be accompanied by a steady decline in security values. The financial position of the more important railroads, and of many of the industrial corporations is very strong. They have been making large expenditures out of income for permanent improvements, and in most cases they are earning handsome surpluses over dividends declared. They could consequently stand very severe losses in gross earnings without diminishing their distributions to stockholders. The underlying business situation is consequently very strong; and it would take a very severe fit of business depression to affect the income producing power of this class of securities. Moreover, while the present speculative temper continues, values are likely to be diminished more than there is any real justification for, so that under some really favorable piece of news, such for instance, as better summer crop prospects, the market might well recover with a bound. For the present, however, things look the other way.

WHILE it would be useless to deny the seriousness of the issue now being raised between the skilled union laborers of this city and their employers in the building trades, it would on the other hand, be mischievous to exaggerate the trouble. At the present time, apart from strikes or lockouts in certain of the special trades, the center of disturbance is the lockout of the building material drivers. In this fight the contractors are standing behind the building material dealers, because they realize that their interests are as vitally engaged in the issue which has been raised, as are the interests of the building material men. The consequence is that lumber and bricks are not being delivered, and a large part of the construction work in the city is [illegible]

widespread and most embarrassing; but the losses and delay that it entails must be suffered patiently, because the unionizing of the drivers would enable the Building Trades Council to bring about a similar condition of things whenever it pleased. The very extent of the existing embarrassment, that is, is a measure of the seriousness of the issue which has been raised. But this issue, while serious, is also perfectly definite. The building material dealers want to preserve the freedom which they now possess, to employ non-union men; the union leaders wish to deprive them of that freedom. While the effect of the disagreement is felt on almost every job in the city, no general question has as yet been faced. It is possible that the whole dispute will be ended at any time by the return of the men and the abandonment of the attempt to unionize them, and if the labor leaders are wise they will withdraw from a fight, which from their point of view, has the disastrous effect of uniting their employers. The unions have been increasing constantly in power and influence, because they are more completely organized than their employers, and could enforce their demands by means of sympathetic strikes, but if they compel the material dealers and contractors to adopt an equally comprehensive organization, they will lose much of the present advantage of their position.

UNFORTUNATELY, however, men who are unaccustomed to the use of power, generally abuse it. In the first half of this century, the employers certainly abused the power, which they had over their workmen; and of late years, the unions, excellent as their effects have been in some respects, have been worrying the contractor and builder almost to distraction. In the long run the latter will be obliged to organize as effectually as the men they employ have organized. Whether the meeting held Friday night will lay the foundations of such an organization remains to be seen; and it also remains to be seen whether a compact local association will not prove to be a more effective form of organization than an unwieldly national one; but, however and whenever the proper and adequate kind of association comes, come it must. In order to understand the action of the contractors and building material dealers, it must be remembered that for years past they have been putting up with an exasperating set of petty exactions. It is not increases in wages and reductions in the hours of work that the builders complain about, because the burden of these increases fall upon the owners and occupiers of the new buildings, not upon the contractors, or except at times, upon the speculative operators. Everybody admits that the laboring men are justified in improving their position as much as they can, and no one will grudge the increases of from 10 to 30 per cent. in wages which they have obtained in recent years. The intolerable grievances of the employers lie in two directions: (1) that they are gradually losing that authority over their men, upon which efficient and economical work depends, and (2) they are continually exasperated by small "hold-ups" due to disagreements among the men themselves. The first of these grievances is the most serious of all, for, should it become worse, it would be depriving the employers of any proper control of their own business, and tend to drive responsible men out of the building trades; and the great object of any employer's organization should be to lay down a series of fair rules, to which all members of the association should be bound, and which would effectually serve to maintain standards of good work, and the employer's authority over the man he pays. The other main grievance, while it is most exasperating, should be more easily settled. The unions have not yet reached any agreement among themselves as to the equitable division of various parts of complicated jobs among the different unions; and small disputes are constantly arising among them as to what trade any particular piece of work belongs. Thus a contractor is frequently delayed and embarrassed, as in the case of the present carpenters' strike, by disputes over which he has no control. In numberless other ways, also, he is continually harassed by the walking delegates, who, so it is stated, are frequently not above making use of their large power for the purpose of extorting blackmail from apprehensive contractors and builders. It is these conditions which the employers must be strong enough to remedy, and which necessitate effective and comprehensive organization.

THE municipal campaign next fall promises to be exceptionably interesting and educational. The fusionists will be unable, as was the case in the fall of 1901, to fix the attention of the public on moral questions, such as the reform of the Police Department, and the enforcement of the laws, because whatever the record of the administration in these matters, it has made its chief point by the manner in which it has conducted the city's business, and not upon the extent to which it [illegible]

is, pre-eminently a business administration; and it will have to be defended by an exposition and a justification of its business policy. Its supporters will have to explain and justify such purely administrative measures as the increase in assessed valuations, the revision of the Sinking Fund, and the provision which has been made for a comprehensive scheme of public improvements. They will have to point out why these public improvements are necessary and why it is good economy to go ahead with them even at the expense of hundreds of millions of dollars. It is just this information and explanation which the public needs, and which will, no matter what the outcome at the polls, have a beneficial effect upon subsequent administrations of all parties. The more thoroughly that intelligent people understand the city's needs, the more they will insist that their officials shape the municipal policy in order to obtain these desired results. And this, at least, is one advantage of a mayoralty term that lasts only two years. It seems a great pity that a set of administration heads, such as those whom Mayor Low has appointed, should not have had four years in which to carry out their work; but in a city like New York, the public opinion of which has not generally been very much interested in the city business, this recurrent agitation and ventilation of important questions at frequent intervals, will have in the long run a most beneficial effect. The best security for good government is that of having a very large number of people well-informed about city affairs, and actively interested in certain definite branches of municipal business; and that, fortunately, is gradually coming to be the case in New York City.

# The Real Estate Situation

Considering the period of the year and the many discouraging conditions, there has been a very fair amount of business transacted during the past week. These sales consisted chiefly of low-priced dwellings and tenements; but there were also several transactions of first-rate importance. A realty company purchased a plot on 55th St. near Seventh Ave., as a site for an apartment hotel, and Messrs. J. T. and J. A. Farley succeeded in selling a $500,000 private residence which they erected on 5th Ave. between 64th and 65th Sts. The purchaser was a lady, who apparently has been forced out of lower 5th Ave. by the pressure of business. Sufficient activity was shown, that is, to warrant the inference that if conditions had been more favorable, it would have been a large rather than a small week; but, of course, conditions were distinctly unfavorable. No single cause is more likely to put a damper on real estate transactions than the threat of a prolonged and widespread strike. It is only a very strong builder and operator who will buy property for improvement with the danger ahead of him that he may have to hold it for months in an unremunerative state. Moreover the prospect of an enforced stoppage of building operations tends to demoralize the whole market. Builders build and operators operate largely with borrowed money, and frequently on a very small margin. In order to make their speculations good, the machinery must work very smoothly. The building that is, must be completed on time, must be quickly rented, and comparatively quickly sold. A hitch in this machinery spells ruin for many builders and means a large number of foreclosure sales. This is always one of the reasons why it is so difficult to secure effective and cordial coöperation on the part of the employers in the building trades in any struggle against their employees. It is easier to submit to outrageous and exasperating demands than it is to face probable bankruptcy, or at the best heavy losses; and at the present time great uneasiness prevails throughout the trade in this city. It should be added that the consequences of a lengthy shutdown would be very serious for the occupiers as well as for the builders of new structures. As we pointed out recently Manhattan is getting along at the present time with a very small margin of unoccupied dwelling space; and if the tenements and apartment houses now sufficiently under way are not completed by next fall, it is possible that there will be a veritable house famine throughout the season of 1903-4. Such a famine would put money temporarily in the pockets of some real estate owners; but it would in the long run be a very bad thing for Manhattan residence property, for it would add another to the many reasons, which people find in favor of deserting Manhattan for the other boroughs.

**A Clouded Market.**

There are times when it must seem to an owner of gilt-edged real estate in the financial district that the right to erect twenty-story buildings is dearly purchased at the expense of the possession by your neighbor of a similar right. Some weeks ago in this column we noted the fact that the Blair Building, just erected on the northwest corner of Exchange Place and Broad St. had so injured the light of the building of the Commercial Cable Co. that many tenants of the latter building either vacated or had their rents reduced. This fact was hard to explain, because it had been understood that, when the Blair Building was still only a project, the Commercial Cable Co. and Blair & Co. united in the purchase of the Adee estate plot, which adjoined the southerly line of the Cable Building and had frontages on Broad St., New St., and Exchange Place. It was supposed that when Blair & Co. took the Broad St. frontage of this plot that the Cable Co. was satisfied with the arrangement and had stipulated that its interests be protected. For some reason or other this was not the case. The building of the Cable Co. was injured; and partly for compensation, and partly doubtless also for revenge, that company now proposes to put a twenty-three-story building on its share of the Adee estate plot. This, of course, is a very natural project on the part of the company, because the elevator space in its present building will probably be almost sufficient for the extension as well, but it means disaster to the Blair Building, in that the light of its back rooms will be very much diminished. Finally to add to the fun, the owners of the small plot, 26x46, on the corner of Exchange Place and New St., are talking about a seventeen-story shaft on their little property, and the only additional declaration, which is needed in order to fill out the complication would be announcement by Blair & Co. that they proposed to add five or six stories to their new sixteen-story building. Then everybody concerned in the matter would have injured his neighbors and benefited himself as much as possible; and everybody consequently should be happy. But we doubt whether they are; and we should not be surprised to find that eventually some compromise will be reached. All the parties to this "sky-scraper" warfare have money enough to fight if they want to, but it is at least equally probable that some method of adjustment will be reached. Pending the fight or the adjustment, however, it seems queer that the law should allow people to injure each other to such an extent without redress, and it also seems a pity that the colonists did not fetch over among their legal baggage some allegiance to the English doctrine of "Ancient Lights."

**Skyscraper Warfare.**

## What Are Vaults?

At a meeting of the Committee on Buildings of the Board of Aldermen, on Tuesday, May 12, the Realty League appeared in support of the proposed amendment to Section 334 of the Revised Ordinances, which reads as amended:

"AN ORDINANCE amending Section 334 of the Revised Ordinances of the City of New York, to read as follows:

Sec. 334. Every description of opening below the surface of the street in front of any shop, store, house or other building, if covered over, shall be considered and held to be a vault or cistern within the meaning of this article, UNLESS THE SAME SHALL BE COVERED BY A STOOP, PLATFORM OR STEPS, FORMING AN ENTRANCE TO THE SAID BUILDING; and the master builder, or owner, or person for whom the same shall be made or built shall be liable to the provisions, payments and penalties of this article severally and respectively."

The words "unless covered by stoop, etc.," constitute the amendment. As the ordinance has heretofore stood, the ordinary coal vaults under stoops, which have been usual and customary in all New York houses for many years past, would seem to be liable to a charge as vaults, although no such claim has ever heretofore been made by the city. As the Department of Highways has, however, recently made such claim and proposes to bring test suits to enforce this new construction, the above amendment was introduced at the request of the Realty League, with a view of settling all doubt as to the meaning of the ordinance, and of putting in precise and definite legal form what has been the unvarying and consistent practice of the city for more than fifty years, and was undoubtedly the original intention of the Common Council.

Said a member of the League to the Record and Guide: "The

ordinance has existed since 1848, and after fifty-five years it seems hardly reasonable to give it this new meaning. The amendment which makes certain that which is at present doubtful is now before the Committee on Buildings, which will hold another meeting when Commissioner Livingston will appear. It is desirable that those whose interests are affected should be as strongly represented as possible at the hearing, the time for which has not yet been fixed."

The Builders' League also appeared at the hearing in support of the Realty League.

On Thursday, May 21, Peter F. Meyer will conduct at the New York Real Estate Salesroom, No. 161 Broadway, the sale of a large amount of well-situated unimproved property in the Borough of Brooklyn. This property, which is sold by the trustees of the estate of the late William C. Langley, consists of 480 desirable building lots, located on 3d, 4th, 5th and 6th avs, 62d, 63d and 64th sts, all in the 30th Ward. The terms are very liberal, in that the titles are guaranteed by the Title Guarantee & Trust Company, and 70 per cent. of the purchase money may remain for three or five years on mortgage at 4 per cent., with the privilege of paying off when desired. For maps, terms and particulars, apply at the auctioneer's offices, Nos. 155-157 Broadway.

On Wednesday, May 20, L. J. Phillips & Co. will sell at the New York Real Estate Salesroom, No. 161 Broadway, by order of executors, the business and apartment building at No. 14 West 45th st, and the dwelling at No. 449 West 21st st. Maps and particulars may be had at the auctioneer's offices, No. 158 Broadway.

On Wednesday, May 27, Richard V. Harnett & Co. (Inc.) will sell in partition at the New York Real Estate Salesroom, No. 161 Broadway, two lots on the east side of Edgecombe av, opposite 162d st, and six lots on the east side of the same avenue opposite 163d st. Maps, etc., at the auctioneer's office, No. 73 Liberty st.

## Gossip of the Week.

### For New Tunnel Station.

It is said that all the deeds for the property on Church st, between Liberty and Dey sts, required for the new tunnel have been executed, and that the property has been paid for, but the deeds have not been filed, the reason being that the company is having trouble with some of the leases. Mr. Loft has refused $75,000 for his lease of the corner of Cortlandt st.

### A New Neighbor for Mr. Frank Gould.

5TH AV.—John N. Golding has sold for John T. and James A Farley 833 5th av, a 5-sty American basement dwelling, on lot 34.10x110. The adjoining house was sold last year to Frank J. Gould for $450,000. The two houses occupy a plot 69.10x110, which the Farleys bought in 1901 for $420,000. Mrs. Christopher M. Bell is the buyer.

### Country House for Mr. Bailey.

James A. Bailey, proprietor of the Barnum & Bailey Circus, has purchased of the Glover estate in Mt. Vernon, thirty-two acres of land, the present site of the "Siwanoy Club," and will erect on the property an elegant country residence; H. H. B. Angell, of Scarsdale, acted for the estate, and the Northern Realty Co. acted for Mr. Bailey in the transaction. The consideration is about $175,000.

### A Block Much Sought After.

CHAMBERS ST.—Caroline F. and Marie L. Wight have sold 16 and 18 Chambers st, old buildings on a plot fronting 51.7 on Chambers st and being irregular on the other line. The buyers already own in this block 80 and 82 and 90 to 94 Park Row, 80 abuts their present purchase. The buyers are said to be a syndicate of seven people, of which Sire Bros. and William F. Sheehan are the leading spirits. There are negotiations on for other property in the block, the completion of which may be announced any day. It will be recalled that Mayor Low favors the city taking this block for a municipal building, that the State Railroad Commission has eyes on it, and that the city recently decided not to put a fire house there.

## Real Estate Notes.

John J. Scannell, ex-fire commissioner, was the buyer of 72 Riverside Drive, reported sold last month. M. and L. Hess were the brokers.

John Donnelly, long-established as a realty broker, has removed his office from 177 Broadway to 206 Broadway. His new telephone call is 2797 Cortlandt.

Kyrle G. Sidley, late of Frank L. Fisher Company, and for the past ten years identified with the real estate business on the upper West Side, has opened an office at 96 Broadway.

William P. Rooney, real estate broker and agent, continues business at the old stand, 402 West 51st st, corner 9th av. His specialties are the management of estates and collection of rents.

Cornish & Anderson, real estate brokers and agents, have removed from No. 119 W. 125th st to larger quarters at No. 107 W. 125th st; this firm has been in this location for some years and have been successful as managers of property largely in their own section.

Jos. E. Steckler, after eleven years occupancy of offices at 171 Broadway, has removed to 714 8th av, between 44th and 45th sts, where he has commodious and well equipped offices. Mr. Steckler has been established since 1886 and makes a specialty of renting and collecting.

David Cohen, real estate broker and operator, for many years at No. 9 Catherine st and 4 East Broadway, has moved to large and spacious offices in the Wessells Building, No. 171 Broadway. Mr. Cohen is one of the oldest brokers on the lower east side and has a large clientage.

George J. Kenny and William J. Kenny have purchased from the estate of John Monninger 404 East 11th st, adjoining the southeast corner of 1st av and 11th st, being a lot in size 25x94.8, having thereon a 5-sty and cellar double brick and stone tenement with two stores.

The Otis Elevator Company will relinquish their extensive suite of offices in the Empire Building, New York, although their lease has still some time to run, and move to the Whitehall Building facing Battery Park, because of the impossibility of procuring additional accommodations in the former building and of the absolute necessity for increased office facilities.

Louis Kempner, real estate broker, has opened offices at 231 West 116th st, and will transact a general real estate business.

This week the Bowling Green Warehouse Company, at No. 4 West st, made an application to Judge O'Gorman, in the Supreme Court, for an injunction to restrain the operation of the boilers in the adjoining sub-cellar of the new 20-sty Whitehall Building, owned by the Battery Place Realty Company. The boilers or its connections are alleged to be built close to the side walls of the structure and the main reason why objection is made to them is that in the cellar of the warehouse company are large quantities of wines and champagnes, which are injured by the operation of the boilers. The motion was taken under advisement. It might be added that the Battery Place Realty Company also owns 4 West st, and that the Bowling Green Warehouse Company have a lease of the premises.

At a meeting of the Harlem Property Owners' Association, May 8, it was resolved in view of the frequently recurring damages done to property by boys in streets, by the breaking of windows, petty stealing of door knobs and lead pipe and other malicious mischief, that a committee of grievances be appointed, said committee to have authority to employ counsel to protect the interests of the members of the association, and it was further resolved that the Board of Police Magistrates be informed of the action taken by the association. The following committee was thereupon appointed, viz.: Cyrille Carreau, Bowery and Grand st, 'Phone 4956 Cortlandt; Edward J. Murray, 2034 3d av, 'Phone 79 Harlem; M. H. C. Foster, 1971 3d av, 'Phone 3187 Harlem; John Armstrong, 1984 3d av, 211 Harlem; Chas. B. Mayer, 68 East 117th st. Ira J. Ettinger, of 99 Nassau st, was employed by the committee to prosecute some stone throwers.

## New Dumping Wharf.

A lease has been made to Michael J. Fenton, with the authority of the Sinking Fund Commissioners, for 225 feet of the northerly side of the pier at the foot of West 55th st, the lessee to have the privilege of operating a dumping business there. The prices arranged for are twenty-five cents per cu. yd. for regular and ordinary dumping carts, which contain two cu. yds., not exceeding fifty cents; for ordinary cellar digger's cart, which contains one and one-half cu. yds., not exceeding thirty-five cents; for brick trucks, containing between two and one-quarter and two and one-half cu. yds., not exceeding sixty cents.

# The World of Building

## Building Operations.

### Alterations to the Judge Building.

5TH AV.—Robert Maynicke, 725-727 Broadway, has awarded the following contracts for alterations to the Judge Building, an 8-sty building, 92x158.4, on the northwest corner of 5th av and 16th st: Luke A. Burke & Co., 401 West 59th st, interior partitions, new staircase, elevators, toilet rooms, steam heating and electric wiring; J. B. & J. M. Cornell, 26th st and 11th av, the ironwork. Four stories will be added to the building. The estimated cost is placed at $400,000.

### Public School Work.

The Board of Education has awarded the following contracts for work in public schools: In Queens, sanitary work in No. 1, to Charles Wille at $3,598; No. 7, to Nicholas Nehrbauer, Jr., at $2,420; in Brooklyn, alterations in No. 84, to William Sheehan at $5,759; in the Bronx, sanitary work in No. 23, to James Fay at $11,473; in Queens, sanitary work in No. 51, to William C. Ormond at $3,863; in Richmond, sanitary work in No. 34, to James Fay at $3,297; and heating in No. 34, to Herbert S. Brower at $5,683.

### New York Central Terminal.

42D ST.—The notice to vacate by June 12 which the New York Central & Hudson River Railroad has given to tenants occupying premises on the blocks bounded by 45th, 49th, Lexington and Park avs, recalls to mind the fact that plans for a new terminal are underway. The bill authorizing the company to make the contemplated improvements has passed the Legislature and been signed by the Governor, and it is understood the company has made the necessary appropriation. Various architects, among whom are McKim, Mead & White, have been asked to submit designs for the terminal. The engineering problems have been solved, and the tracks and chief features of the sheds and buildings have been located by the engineering corps of the company. It is reported that within thirty days complete plans will be placed before the Board of Estimate and Apportionment.

### Addition to Commercial Cable Building.

NEW ST., EXCHANGE PL.—The directors of the Commercial Cable Building Company, on Monday, decided to build an addition to the Commercial Cable Building on the plot fronting 48 ft at 65 and 67 Exchange pl and 30.2 at 22 and 24 New st, purchased by the company from the Adee estate last May. These properties form an "L" around the northeast corner of Exchange pl and New st, a plot 26x46. The present building, a 23-sty structure, with entrances at 20 and 22 Broad st, and 18 and 20 New st, was built in 1895 from plans by Harding & Gooch at a cost of $1,800,000. The project is under consideration of adding five stories to the old building and making the new one twenty-eight stories high. The site for the addition contains 4,400 sq ft and cost $552,000. It is directly in the rear of the new Blair Building, the erection of which closed the windows in the south wall of the Commercial Cable Building. At the office of George Edward Harding, the company's architect, no further particulars of the enterprise could be obtained.

### New Madison Square Presbyterian Church.

MADISON AV.—McKim, Mead & White, architects, 160 Fifth av, have been commissioned by the trustees of the Madison Square Presbyterian Church to prepare plans for the new church edifice to be erected on a plot 74x150, on the northeast corner of Madison av and 24th st, the old Catharine Lorillard Wolfe property. When the Metropolitan Life Insurance Company completed their block by acquiring the present site of the church on the southeast corner of Madison av and 24th st, they gave in exchange the northeast corner. The trusteets of the church immediately took steps toward erecting a new structure. The former Wolfe residence has recently been vacated preparatory to demolition.

Although the chosen firm of architects are not generally known as church designers they are by no means novices in the ecclesiastical field. They have already built the beautiful St. Peter's in Morristown; the Judson Memorial on Washington sq; the First M. E. Church in Baltimore; Congregational Church, Naugatuck, Conn.; The parish house of the Church of the Ascension, 5th av and 11th st; extension to the First Presbyterian Church, 5th av and 12th st; the altar and reredos in the Paulist Father's Church, Columbus av and 60th st; and also the alterations to the facade of St. Bartholomew's on Madison av. No doubt is entertained that they will design a structure worthy of the site and of the history of the congregation. Mr. Mead has undertaken a personal interest in and supervision of the work, this having been a factor in the success of the firm in securing the commission.

No details of the design are yet obtainable. It will probably be in the Classic rather than the Gothic style. A tentative design is soon to be submitted to the building committee, and the architects will no doubt require the summer months in which to complete the first drawings.

### Nine Hundred Lots in a Bunch.

A syndicate of about thirty New Haven business men have bought for improvement, through the Realty Trust, several large plots in the Prospect Park section of Brooklyn. The purchase includes over 900 lots. They are located on direct trolley and elevated lines between Manhattan and Coney Island, a choice section for home sites. The syndicate has been incorporated for the purpose of developing and marketing their property.

## Of Interest to the Building Trades.

Now, who is boss?

The employers are determined to find out if their only privilege is to pay off.

Calvin W. Stewart, 83 Lexington av, has resigned as Inspector of Tenements.

The material dealers seem to hold the key to the situation.

Woke up the wrong folks, b'gosh!

An immense amount of asphalting work is being held up by the strike of the drivers of materials.

The bids for the bird house in Bronx Park were about $150,000, and it will be necessary to reduce it to about $90,000.

Mayor Low has approved of the appropriation of $10,000 for plans and specifications for a new borough hall at Long Island City.

It is stated that the Rand Drill Company, 128 Broadway, is having plans drawn for an extensive enlargement of their works.

Messrs. Remington & Sherman Company, engineers and manufacturers, have removed their New York salesrooms to 38 Park pl and 33 Barclay st.

The Charles L. Eidlitz Company, electrical engineers and contractors, have moved from the St. James Building to the Johnston Building, 28th st and Broadway.

Mr. Theodore Bailey, who for some time past has been connected with the wholesale trade of this market, has assumed the management of the yard of D. C. Ivins & Co., at Plainfield, N. J.

A general and long-needed rearrangement of street lines and grades in the vicinity of the approach to the ferry terminal at St. George has just received full and final approval of the authorities.

Mr. C. A. Crane, who has been connected with the Aqueduct Commission, New York City, as an assistant engineer for the past two years, has resigned that position and opened an office for civil engineering and city surveying.

M. L. Weiss, to better accommodate his largely increased business, has removed from 422 East 14th st to 613 East 16th st, where he has larger and better equipped quarters to promptly execute contracts for cornices, skylights and roofing. Telephone 5095 18th calls Mr. Weiss.

Henry G. Koch, real estate and insurance broker, has removed his office from 428 9th av to 2386 8th av near 128th st, where he is prepared to give prompt attention to all business intrusted to him. Mr. Koch's telephone call is 78 Morningside.

M. F. Wynn & Co., the well known roofing contractors, are now located in their new and commodious quarters at 409 East 24th st, which headquarters have been renovated and restored since the fire of a few months ago. Their facilities for first-class work are of the best. Their new telephone call is 1397 Madison sq.

The "G. B." Automatic Self-Locking Scuttle Opener, manufactured by the G. Bickelhaupt Skylight Works, of Nos. 243-245 W. 47th st, New York, is meeting with great success, and might well be placed on all houses, old or new, as it is secure from scuttle-thieves, and a certain and quick escape from fire. A postal will bring pamphlet.

The firm of Clarke, Wright & Stowe, engineers and contractors in structural and ornamental ironwork, with offices and plant at 232 to 254 Kent st, Brooklyn, has been dissolved by mutual consent, Mr. J. B. Wright retiring from the firm. The business will be continued by the remaining members of the firm under the name of Clarke & Stowe, who will assume all contracts and obligations.

The work on the new Hall of Records had not until lately been progressing in a satisfactory manner, and no definite date can be fixed for its completion. Superintendent Walker recently suggested to Borough President Cantor the necessity of devising some way of forcing the contractors to expedite the work. January 1, 1905, is now the date at which it is expected the building will be completed.

The New Amsterdam Realty Company, incorporated in January, 1902, with a capital of $100,000, owing to their great success, having bought and sold thirty parcels, taking title to four pieces this month, expects to increase the capital to $250,000. Nathan Kempner, the president, has been engaged in the realty business for twenty-five years, and Isidor H. Kempner, vice-president and treasurer, has for many years been his partner. Edward A. Isaacs is counsel to the company, whose offices are at 626 8th av. They now have for sale a very attractive list of centrally located properties.

The Excelsior Fire Clay Chimney Top continues to grow in popular favor, because wherever used the results have justified the claim that it cures smoky chimneys. Such well-known realty agents as J. Edgar Leaycraft & Co. and J. Corbit & Co. have used the Excelsior Fire Clay Chimney Top with success, the former at 2466 8th av, and the latter at 407 West 25th st, and numerous owners testify to their efficiency. Herman Joveshof, the manager, of No. 326 West 40th st, makes free examinations of smoky or defective chimneys, and will guarantee a cure or no charge. His telephone call is 1643 38th.

Harris H. Uris, worker in ornamental iron for buildings, has a large plant at Nos. 510 and 512 and Nos. 525 to 531 West 24th st, where he has installed the latest machinery and appliances for turning out work quickly. Mr. Uris has done creditable work in his line, specimens of which can be seen at the following places: Eldorado apartment house, Central Park West, for J. V. Signell, builder, Neville & Bagge, architects; Georgia apartment hotel, 42 W. 35th st, for H. J. Braker, builder, Clarence True, architect; private dwellings on 88th st, east of 5th av, for James C. Edgar's Sons, builders, Killian & Turner, architects; also for the Ranald H. Macdonald Construction Company, Israels & Harder, architects, No. 5 West 31st st; loft building, Nos. 18 and 20 West 25th st; apartment hotel and the new extension to Lord & Taylor's, Nos. 129 and 131 5th av. Mr. Uris has recently bought the 3-sty factory building Nos. 493 to 499 East 133d st, on plot 100x100, for future occupancy.

Contracts for supplying enameled brick for leading buildings and public works throughout the country testify in no uncertain manner to the favor in which the product of the American Enameled Brick and Tile Co. is held by the foremost architects and builders. The list includes the following work now in process of construction: Riverside Drive mansion for Chas. M. Schwab, by Geo. Vassar's Sons; St. Francis Hospital, on St. Ann's av, for S. Niewenhous; Bellevue-Stratford Hotel, Philadelphia, for the G. A. Fuller Co.; new store for Strowbridge, the clothier, and new building on 26th st for Philadelphia Electric Co., both for F. N. Harris & Co.; Union Steel Co. plant, at Donora, Penn.; Baltimore Court House, Baltimore, and Maryland State House, Annapolis, both for Henry Smith & Son, builders; and the Jerome Park Reservoir, Ryan & McFerran, contractors. Mr. J. Francis Booraem, secretary and treasurer, is in charge of the New York office, at 1 Madison av, and Bernard Jacquart is superintendent of the factory at South River, N. J., of the American Enameled Brick and Tile Co.

## The Labor Situation.

The most tremendous forces ever arrayed against each other in this city will decide the present issue in the building trades. Never before was there a time when such unanimity of sentiment prevailed among and between material dealers and builders. Only a great question could hold the employers in the building trades so firmly together, and until it is decided all building, and all trade in materials for building, have been stopped. The building world of Manhattan and the Bronx has literally returned to first principles, and for the time being there are no dealers, builders, masons, carpenters, hod-carriers or handlers. One hundred thousand men are doing nothing, and 700 buildings in process of construction in Manhattan alone, valued at seventy-five million dollars, are held up, until employers know for a certainty to what extent they can control their own business. Perfect unanimity being assured in Manhatan, it has been proposed to extend the scope of the movement throughout the country.

Last night a remarkable meeting of employers from the building and allied trades of New York was held at the Building Trades' Club, in the Townsend Building. It was an occasion for an earnest consideration of the subject of labor, especially of the annoyances growing out of ill-regulated unionism. Many brief, but pointed and emphatic speeches were delivered. It was felt that we have come to the end of an epoch in the history of building, and that for the future there must be a more serious realization of business principles on the part of union leaders, that such power as they possessed should be more wisely used, and that the natural and proper relations between an employer and his men should be respected. It was resolved to form an association of employers for New York city, and a general committee was appointed, with members from each branch of business and trade, to recommend a course of action in the present crisis.

Since the previous issue of the Record and Guide important things have transpired. When the dealers in masons' building materials had furnished the leadership, and had been followed by the lumber merchants, the mason builders were ready to follow, as they had found that their employees were determined on unreasonable demands. Then early in the week a meeting of the Executive Committee of the Master Carpenters' Association was held at the Building Trades' Club, and the question of joining with the Mason Builders' Association in standing by the Lumber Dealers' and Building Material Dealers' associations was answered in the affirmative emphatically. If anything were lacking, the action of the masons and carpenters made the tie-up complete. On Tuesday the Board of Managers of the Building Trades' Association issued the following call:

> The time has arrived when employers of labor in the building trades are facing a serious situation, and a meeting will be held on Friday, May 15, at 8 p. m., at the Building Trades Association, 1123 Broadway, for the purpose of determining what steps shall be taken to remedy the existing intolerable conditions. You are earnestly requested to be present. WARREN A. CONOVER,
> WM. K. FERTY, Secretary. President.

To this replies came from the Building Material Dealers' Association, the Lumber Dealers, the United Building Trades' Association, Marble Industry Employers' Association, Master Carpenters' Association, Master League of Cement Workers, Electrical Contractors' Association, Tile, Grate and Mantel Association, the New York Electrical Appliance Association, Mechanics' and Traders' Exchange, Iron League, Employing Plasterers' Association, Hoisting Association, Society of Architectural Iron Manufacturers, Employers' Association of Roofers and Sheet Metal Workers, Association of Interior Decorators and Cabinet Makers, Manufacturing Wood Workers' Association, Lighting Fixture Makers' Association, Mason Builders' Association, Master Painters' and Decorators' Association.

A member of the Board of Managers said early in the week: "We are compelled to take unusual action on account of unusual conditions. The time has come when the line between the just demands and the unjust demands of labor must be defined, otherwise it will be impossible for building contractors to continue in business."

The Iron League and a committee from the Architectural Iron Manufacturers' Association and the Wire Manufacturers' Association met at the Fifth Avenue Hotel on Tuesday afternoon. A strike committee was formed and resolutions were passed for a unanimous resistance to the strike of the Inside Architectural Iron Workers, which is now on. J. M. Cornell, of the J. B. & J. M. Cornell Company, presided. Mr. Charles M. Cheney is the secretary of the League. Among other large firms represented were Milliken Bros., the Hecla Iron Works, Lewinson & Just, Richey, Brown & Donald, the Cooper-Wiegand Company and Garrigues & Co. The demands of the ironworkers are for 36 cents an hour for journeymen, and 25 cents an hour for helpers. This was not so much objected to as a demand for a new agreement, in which the following clause occurs: "A sympathetic strike is not to be regarded as a violation of the agreement." The employers will sign no agreement containing this clause.

The Hecla Iron Works, in Brooklyn, are closed down completely. A co-operative system by which the employees have shared the profits in proportion to the length of service and wages has also been abolished. President Paulson says: "Walking delegates have given us a great deal of trouble and they incited the men to strike. Whenever the men in the works have felt they had a grievance, we tried to settle it without any interference from outside. We have a contract with the men who work outside, but, of course, we cannot tell just what they may do now."

Speaking for the Record and Guide, in regard to the feeling among lumber merchants, Mr. James Sherlock Davis, First Vice-President of the Lumber Trade Association, said:

"Our position is just this: We will not permit the United Board of Building Trades to unionize our drivers, so as to say that we may employ no man as driver who is not a member in good standing of a certain union. This is our position, and when the Board of Building Trades shall withdraw their demand we shall be ready to go to work. Understand that this present situation is brought on by no aggressive act of ours. We are simply protecting our rights as best we may under the circumstances."

Another lumber merchant said: "This is simply an attempt by the official body representing the unions in the building trades to get control of the local transportation of building materials. This demand will never be granted by the lumber trade of Greater New York."

President Howland, of the Association of Dealers in Masons' Building Materials, said to a Record and Guide representative that there never was a time when there was such unanimity of feeling between contractors and material men as now.

The shut-down is most complete. Material men say they are not fighting against skilled union labor, but are opposed to submitting to the annoyances that would follow having their business absolutely controlled by unionized laborers outside of their employ. Their employees have made no demand that have not been granted; the yards have increased wages. As soon as there is assurance that there will be no discrimination against their materials, and the attempt to unionize their yards is discontinued the dealers will resume business.

The Master Carpenters' Association held a meeting on Thursday at the Building Trades' Association rooms, to consider a request to have the master carpenters recognize the Brotherhood to the exclusion of the Amalgamated. After a debate a resolution was passed forbidding any agreement by any of its members binding themselves in favor of the non-employment of any person qualified to do the work required.

Mr. L. K. Prince, of Prince & Kinkel, ironmasters, said on Thursday:

"The time has come when employers have to make a stand or go to their ruin. We purpose to make that stand, and there will be a hot time before we get through. The situation is intolerable. Agreements with labor unions are not worth the paper they are written on. They will break their promises on the slightest pretext with the most amazing disregard for all principles that should hold them. Employers cannot control their own business."

The Board of Building Trades are evidently beginning to realize that there are limitations to their powers, and that they went beyond their legitimate field when they undertook to empower mere laborers to dictate to great business interests. A well-known member of the Building Trades' Association said on Thursday: "I think that in a few days there will be something doing in the Board of Building Trades, and I expect that the team drivers and material drivers will be back early next week. Individual members of the Board of Building Trades came to individual members of the Lumber Dealers' and Building Material Dealers' Association. They said that a mistake had been made, and indicated that the indorsement of the demands of the building material drivers could be withdrawn. They also talked as if the teamsters will in all likelihood return to work early next week."

Late last night at the Building Trades' Association there was to be a conference between eight members of the Mason Builders' Association and eight representatives of the bricklayers' unions. The Bricklayers are not satisfied with an increase of wages, but demand that all foremen shall hereafter be members of their unions. To this the employers object.

"The effect of this change," said a contractor, "Would be to enable the unions to discipline the foreman. If he rebelled, he could be suspended, and would be out of work. We refuse to concede this point because the foreman holds not only a responsible but a confidential position with the contractor. To put him under union control would be to surrender completely to the unions, and we might as well turn our business over to them."

The demands of the General Council of the Laborers' Union Protective Society are interesting to contemplate as an instance of what unionism seeks to do for common laborers. The wages asked are 37½ cents an hour, or $3 a day. The rules laid down further specify that all foundation concrete deafening of floors and all rough concreting above all block or brick arches, and all concreting of cellar floors, signaling for the hoisting or lowering of building material, tending masons, wheeling or carrying bricks or mortar, and all metropolitan system of fireproofing, cleaning floors, handling building material in or about the building under construction, shall be done by members of the Laborers' Protective Union. There is to be no overtime except in cases of extreme necessity. All scaffold building and center hanging must be done by the members of this society.

The Building Material Dealers in Brooklyn met on Tuesday at the Merchants' and Traders' Exchange and formed an organization, with Audley Clarke as chairman. A committee on plan, and scope was appointed. The following firms were represented at the meeting: Brown & Howe, H. F. Burroughs & Co., M. M. Canda, Audley Clarke, Joseph H. Colyer, John H. Mahnken Co., W. H. Meserole, John Morton's Sons & Co., Otto E. Reimer Co., Cropsey & Mitchell, McLaughlin & Young.

The association of employers that has been formed in Brooklyn has fully determined through its committee on plan and scope that the walking delegate or business agent must go. The number of inside or architectural ironworkers on strike or locked out is between four and five thousand. At eleven small shops there are strikes, and the larger employers have declared a lockout.

The plumbers have made a demand for $5 a day, to be enforced on July 1.

The arrangements for last evening's meeting at the Building Trades' Club were made by the following committee: L. K. Prince, of the Prince & Kinkle Iron Works; William K. Fertig, secretary of the Building Trades Association; Charles L. Eidlitz, of Marx Eidlitz & Son, contractors and builders; Vincent C. King and Henry W. Miller, the latter secretary of the Master Plasterers' Association.

## Record and Guide Quarterly

The annual number of the Record and Guide Quarterly contains all the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations. These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments; also by a list of realty corporations created during the past two years, with officers and the enterprises in which they are engaged. The whole makes a volume of reference which no real estate man can afford to be without. It should be on every desk and in every library. Its cost is as nothing compared to its value as a time-saver. This important work can be obtained, with three quarterly numbers, for the comparatively small sum of $10. It is published by the Record and Guide, at Nos. 14 and 16 Vesey St., where interested parties may see it and have its uses explained to them. If you cannot call, drop a postal card to the Publisher, or call him up on telephone 3157 Cortlandt.

## CONVEYANCES.

Whenever the letters Q. C., C. a G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

May 8, 9, 11, 12, 13 and 14.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

May 8, 9, 11, 12, 13 and 14.

**The Private Branch Exchange System** of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

## JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.
The Judgments filed against corporations, etc., will be found at the end of the list.

Vol. LXXI. MAY 23, 1903. No. 1836

A MAN who can afford to buy securities in a market such as that of the past week is likely to make money—although he may not make it very soon. When a stock with earnings and prospects such as those of the Pennsylvania Railroad Company, is selling almost on a five per cent. basis, it is obviously a time to take advantage of concessions in prices in order to accumulate stocks. The abnormally high prices of a year ago have naturally been succeeded by a period of abnormally low prices. There are many people who doubtless believe that these low prices are simply an anticipation of what actual values will be when the inevitable business reaction sets in; but the effects of a serious business reaction are still so remote that such an opinion is fantastic. The low prices in Wall Street are due chiefly to local financial conditions; and it should be added that the power of local financial conditions to keep prices down is not yet exhausted. Prices may well go lower yet. It is probable that the big banking houses which would benefit most from a rise in the quotations of securities would not encourage such a rise at the present time. They want the revival to take place, when it does take place, on a thoroughly wholesome basis, and wholesome financial conditions are still a matter of anticipation. A steady rise in prices, accompanied by much speculative buying, would restore excessively high rates for money; and under any circumstances there will be a severe stringency in the fall. Consequently banking houses are disposed to be very conservative, and are willing to keep the market, if possible, dull until Congress takes action upon the manifest need for a more elastic currency. By that time also a good many ambiguous elements in the general business situation will have become definite. So far, for instance, as there can be any crop prospects at this period of the season they are bad, and this fact preaches caution. Then there are undoubtedly important changes taking place in the attitude of business men toward the general situation. Hitherto they have allowed no obstacles to impede the expansion of their business and the improvements which this expansion necessitated, but now a different and more conservative spirit is coming to prevail. Improvements are being postponed until labor conditions are more favorable and the price of materials reduced, and this increased conservatism will assuredly have its effect upon railroad earnings. In short, the whole business situation is gradually changing partly for the better and partly for the worse; and until the effect of these readjustments can be gauged, there cannot well be any very steady rise in values. Still the fact remains that prices are low, even though they may go lower; and the men who go about cautiously buying during the next few months are the men who will make the money.

A NUMBER of prominent organizations on the East Side have agreed to recommend certain amendments to the accepted plan of the Delancey St. Bridge approach, which are worth careful consideration. These organizations concur in that part of the accepted plan which provides for the widening of Delancey St. from Clinton St. to the Bowery, and to the opening up of a new street from the Bowery to Elm St. But they wish the bridge approaches from the north and south to be made by the widening of Clinton rather than Suffolk St., and the reasons which they urge in favor of this change are not to be ignored. Clinton St. is the first longitudinal street to the west of the bridge entrance, while Suffolk St. is the second, so that in case Suffolk St. was selected for widening, trucks going north and south would have to remain on Delancey St. for one block, which would unnecessarily increase the traffic using the block nearest the bridge on that street. Then Clinton St. makes somewhat better connections than does Suffolk St. with avenues north of Houston St. and south of East Broadway. While this proposed change is not, we believe, a matter of any great importance, the alternate plan suggested would not cost any more than the present official plan, and has certain small but obvious advantages over it. The same organizations also have their solution to offer for the problem of making an adequate approach to the terminus of the Manhattan Bridge. They propose that Chrystie St. be widened from Houston to Canal St. by taking 100 feet from its westerly side, and that the Bowery from Chatham Square to the Canal St. Plaza be made 75 feet wider. These street changes would provide sufficient approaches to the north and the south, and would practically continue Second Ave. down Chrystie to Canal St., thus relieving some of the pressure on the Bowery. They also propose to settle the vexed problem of Allen St. at the same time by having the Second Ave. elevated structure removed from Division and Allen Sts. to the widened Bowery and Chrystie St., thereby killing two birds with one stone. Of course the Manhattan Railway Company would have something to say about this part of the plan; but it would probably consent, provided it can get more trackage on the widened streets. This is only another of the many illustrations of the way in which street opening and rapid transit improvement necessarily go hand in hand, and how desirable it is that the administrative machinery which is responsible for these matters should be rearranged so that it will work better together.

IN this connection it is well to remember that the Board of Estimate and Apportionment now has the final word and the authoritative decision on all these matters of street revision. Never was an important and salutary improvement of administrative machinery accomplished with less discussion, and with less opposition. The only objections which were heard, naturally came from the Board of Alderman; but as long as the Board uses the power it possesses in such a narrow and obstructionist spirit, it must expect public opinion to welcome every proposed curtailment of its baleful activities. In the present instance the withdrawal from the Board of Aldermen of any power over changes in the city map was a matter of peculiar importance, because it is safe to say that at least during the life of the present administration no important changes in the city map could have been made with the consent of that body. The truth is that even if the Board were a much better disposed organization than it has proved to be, its partial jurisdiction over changes in the city map was an unnecessary complication of the legal machinery for street revision. The Board of Aldermen, even at its best, always represents local interests or merely a combination of local interests—never the interests of the whole city. But the local interests affected by any proposed plan of street-closing or widening are already fully protected by the local boards; and to send these plans to the Board of Aldermen after they have been approved both by the local board and the Board of Estimate and Apportionment simply means at best to return them to the local authorities, which have already passed on them, and at the worst to a body whose only administration policy is one of senseless obstruction. Even as it is the local boards always take an unconscionably long time to reach an important decision; but under the existing arrangement there is a fair chance that changes in the city map can be made, if not speedily, at least with reasonable certainty. Moreover, whatever the Board of Estimate and Apportionment does is well done—with full regard both for local interests and the major public interests.

THE recent speech of Mr. Joseph Chamberlain, in which he committed himself unequivocally to abandoning the economic policy of absolute free trade, and to offering the British colonies preferential treatment in the British markets, is of the utmost importance. Hitherto the propositions toward such an end, made by the federal imperialists, have been rejected by responsible ministers on the ground that any such arrangement would mean the sacrifice of a larger to a smaller volume of trade—which would be the height of unwisdom from a point of view determined by strictly free trade principles. But the protectionism of modern Europe is founded on an entirely conscious sacrifice of economic to political advantage. The United States is almost the only country that is protectionist chiefly on economic grounds. And what Mr. Chamberlain proposes is, frankly, the sacrifice of buying in the cheapest market for the larger political purpose of uniting the British Empire together by bonds of self-interest as well as sentiment. He evidently believes that in case such preferential treatment is not given to colonial products in the British markets, the colonies will inevitably drift away from the mother country and tend to become separate states. However that may be, his case is a very strong one from any Imperialist point of view. If Great Britain were to postpone tariff concessions to her colonies, until they could be made without any economic sacrifices, she would have to wait indefinitely; and considering her isolated position in Europe, the in-

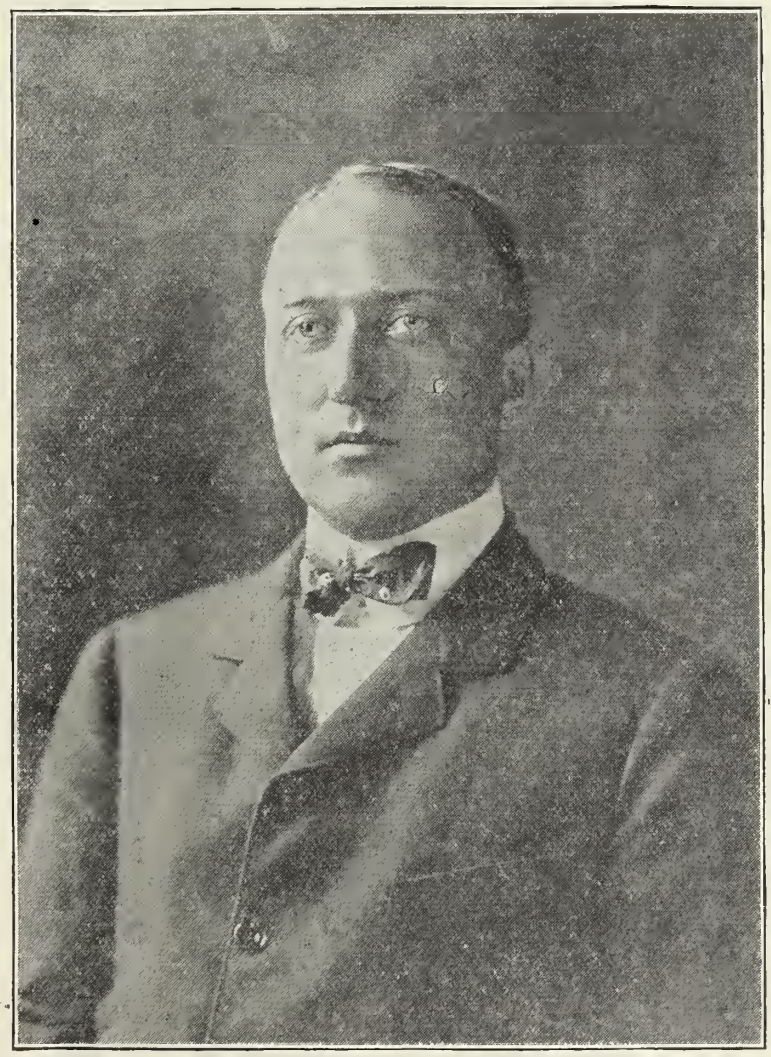
veterate protectionism of the rest of the world, and the extreme importance of imperial consolidation, it looks as if she could afford to pay something more for her food supply in return for lower colonial duties on her manufactures, for contributions to the expense of Imperial defense, and for a substantial recognition of Imperial unity in the economic system of the empire. At the same time no such policy can be adopted in England without a long and bitter fight. The creed of free trade is a religious matter with the majority of English public men, and has the strongest kind of a hold on English public opinion; and if the issue was sharply drawn it would break up the Unionist party almost as effectually as the Home Rule issue disrupted the Liberal party.

## The Crisis in the Building Trades.

THE plan of action outlined by the Building Employers' Association during the past week is moderate and sensible, and the machinery created to carry it into effect should be both sufficient and efficient. For a good tough fight an autocratic organization is necessary, and it is an autocratic organization to which the building material dealers have consented. An emergency committee, consisting of twelve responsible and well-known representatives of different trades has been appointed, and the authority of this committee in dealing with the present crisis has been made practically absolute. Headed by such a committee the employers can offer a united and determined front to the Board of Walking Delegates, and present their demands in the most final and authoritative manner. That the separate trades and the separate employers in each trade should have surrendered liberty of action and should have acquiesced in the appointment of such a committee is a sufficient testimony to the importance which they attach to the present crisis, and the heroic measures which they believe to be necessary in order to resist the encroachments of organized labor. The committee has been appointed particularly with a view to the existing crisis; but there can be no doubt that some such organization will have to become a part of the permanent organization of the building trades of the city. Such a committee, that is, will have to be continuously in existence to take the measures which are deemed necessary in order to enforce those articles in the agreed programme, which are believed to be essential to the employers' interests.

The programme, which the employers have laid down so far, does not take any extreme position, and does not threaten any legitimate right on the part of the workingmen. It is not proposed, for instance, to make any fight against union labor as such; and this is a wise decision, because in such a struggle the logic of facts would have been against the employers' associations. The employees in the building trades are for the most part skilled and intelligent workmen, who have become accustomed to organization. The principle of unionism is firmly established among them, and rather than abandon the rule that none but union labor be employed, they would undoubtedly fight to the end. If they made a contest on that issue, we believe the employers would be beaten. The use of nothing but union labor in the skilled branches of work is dangerous to the employers, only in case they are weak and cannot make an effective protest against unreasonable demands. If, on the contrary, they are strong enough to make their own interests good in any controversy with their employees, it is an advantage to have a comparatively responsible union with which to negotiate. What they should do, however, and apparently what they have decided to do, is to lay down certain rules, beyond which the exclusive use of union labor shall not go, and to which union labor, wherever employed on the jobs of the association, must conform. The obligation to employ none but union labor, for instance, should not apply to these branches of labor on buildings for which unskilled workmen are used, for such a restriction would be an enormous and unnecessary disadvantage to the employers in a city, where unskilled labor is for the most part only recently imported. In the second place, these rules must secure to the employer the control of his own business. They must at least diminish the power of the Walking Delegate; they must arrange that the foremen be appointed in the employer's interest and that there be not too many of them; they should refuse to be bound by these rules of the union which prevent an exceptionally energetic laborer from doing more than an average day's work; and they must do away with a lot of petty union regulations which hamper and embarrass an employer at every turn, and the effect of which is very much to increase the cost of his work. Rules of this kind which represent merely the right of the man who is financially responsible for a job to control its management should not and will not be subject to arbitration; but within the limits of these minimum demands, there will be sufficient place for the establishment of boards of arbitration and conciliation to reach agreements as to wages, hours of labor, and other matters in which employers and employees are jointly interested.

It is altogether improbable that the unions will agree to a set of regulations of this kind without a fight. They have had it so much their own way in the past, that they will not believe their employers mean business, until they have tested the seriousness of the latters' purpose, and the weight of their determination. But provided the employers do not go about the matter in an unreasonable spirit and make no excessive demands, a fight, even though it last a comparatively long time, and cause a regrettable loss to both the contesting parties, should merely have the desirable result of clearing the atmosphere and making possible some permanent and equitable agreement. The great majority of the skilled laborers are reasonable and intelligent men. Of late years the weakness of their employers has encouraged the belligerent and domineering minority in the unions to use their advantage to the uttermost; but when the intelligent and fair-minded majority find that they are losing wages and submitting to deprivation in order to support demands, at which the merest common sense revolts, there is every reason to suppose that they will make themselves felt and insist on coming to an agreement that it is fair to both parties. But as we have said, all this depends on the assumption by the employers of an attitude that combines unalterable firmness in regard to essentials with a fair-minded and conciliatory spirit in regard to less essential matters. The Building Trades Association of this city promises to be one of the strongest and most effective organizations in the country, and if they use their strength properly they can have an immensely good effect in placing the relation of building employers and their employees on a more satisfactory basis, not only in this city, but all over the country.



## Real Estate Situation.

There is not very much to be said about the present real estate situation; and what there is to say is tolerably obvious. The summer inactivity has already taken possession of the market; but it has been accelerated by the labor troubles in the building trades. The buying and selling of real estate in this city is so closely associated with its improvement that anything which hinders such improvements straightway places almost an embargo on real estate transactions. Just at present building operations already under way are practically suspended, while no new ones can be begun. There is at least a fair chance that this shut-down will be continued all summer; and with such a prospect ahead, while occasional announcements of new operations are made and will continue to be made, these announcements are the expression of a pious rather than an effective purpose. Operators and builders, who can afford it, may well take a longer vacation than usual. They can do more business cooling their heels on the porch of a summer hotel than they can by sticking to the hot pavements of New York City. It is hard for men, who have much money at stake, to take a crisis of this kind in a cool manner; but if any situation ever demanded clear-headed and patient treatment, it is the real estate and building situation at the present time. Things could not continue as they were. The interests of everybody dependent upon the owning and improvement of real estate, particularly in Manhattan, were imperilled by the idea, which the unions had obtained, that in order to get a concession they only needed to ask for it. A readjustment of relations had become absolutely necessary, and it would be beneficial in case this readjustment could affect prices also. Business men all over the country are coming to the conclusion that their prosperity was carrying too heavy a burden, and that no amount of trade could justify for long the higher prices which they are obliged to pay for materials and labor. So it is in this city. The cost of building, particularly fireproof structures, is much greater than it should be; it is also greater than it will be; and builders who can afford to wait will do well to wait. That a good many people have decided to wait is shown by the relatively small number of fireproof buildings for which plans are now being filed. The diminution in the number of large office buildings in the financial district which will be erected this year, compared to 1902, is very great. Indeed, apart from several in the neighborhood of lower Wall St., a sky-scraper on the site of the Trinity Building (which will not be finished for next spring) there will be nothing of importance under construction during 1903. But if so, it will only make 1904 the bigger year. The need for new building accommodation of all kinds is still very great; and the need for new residential accommodation promises to be ac-

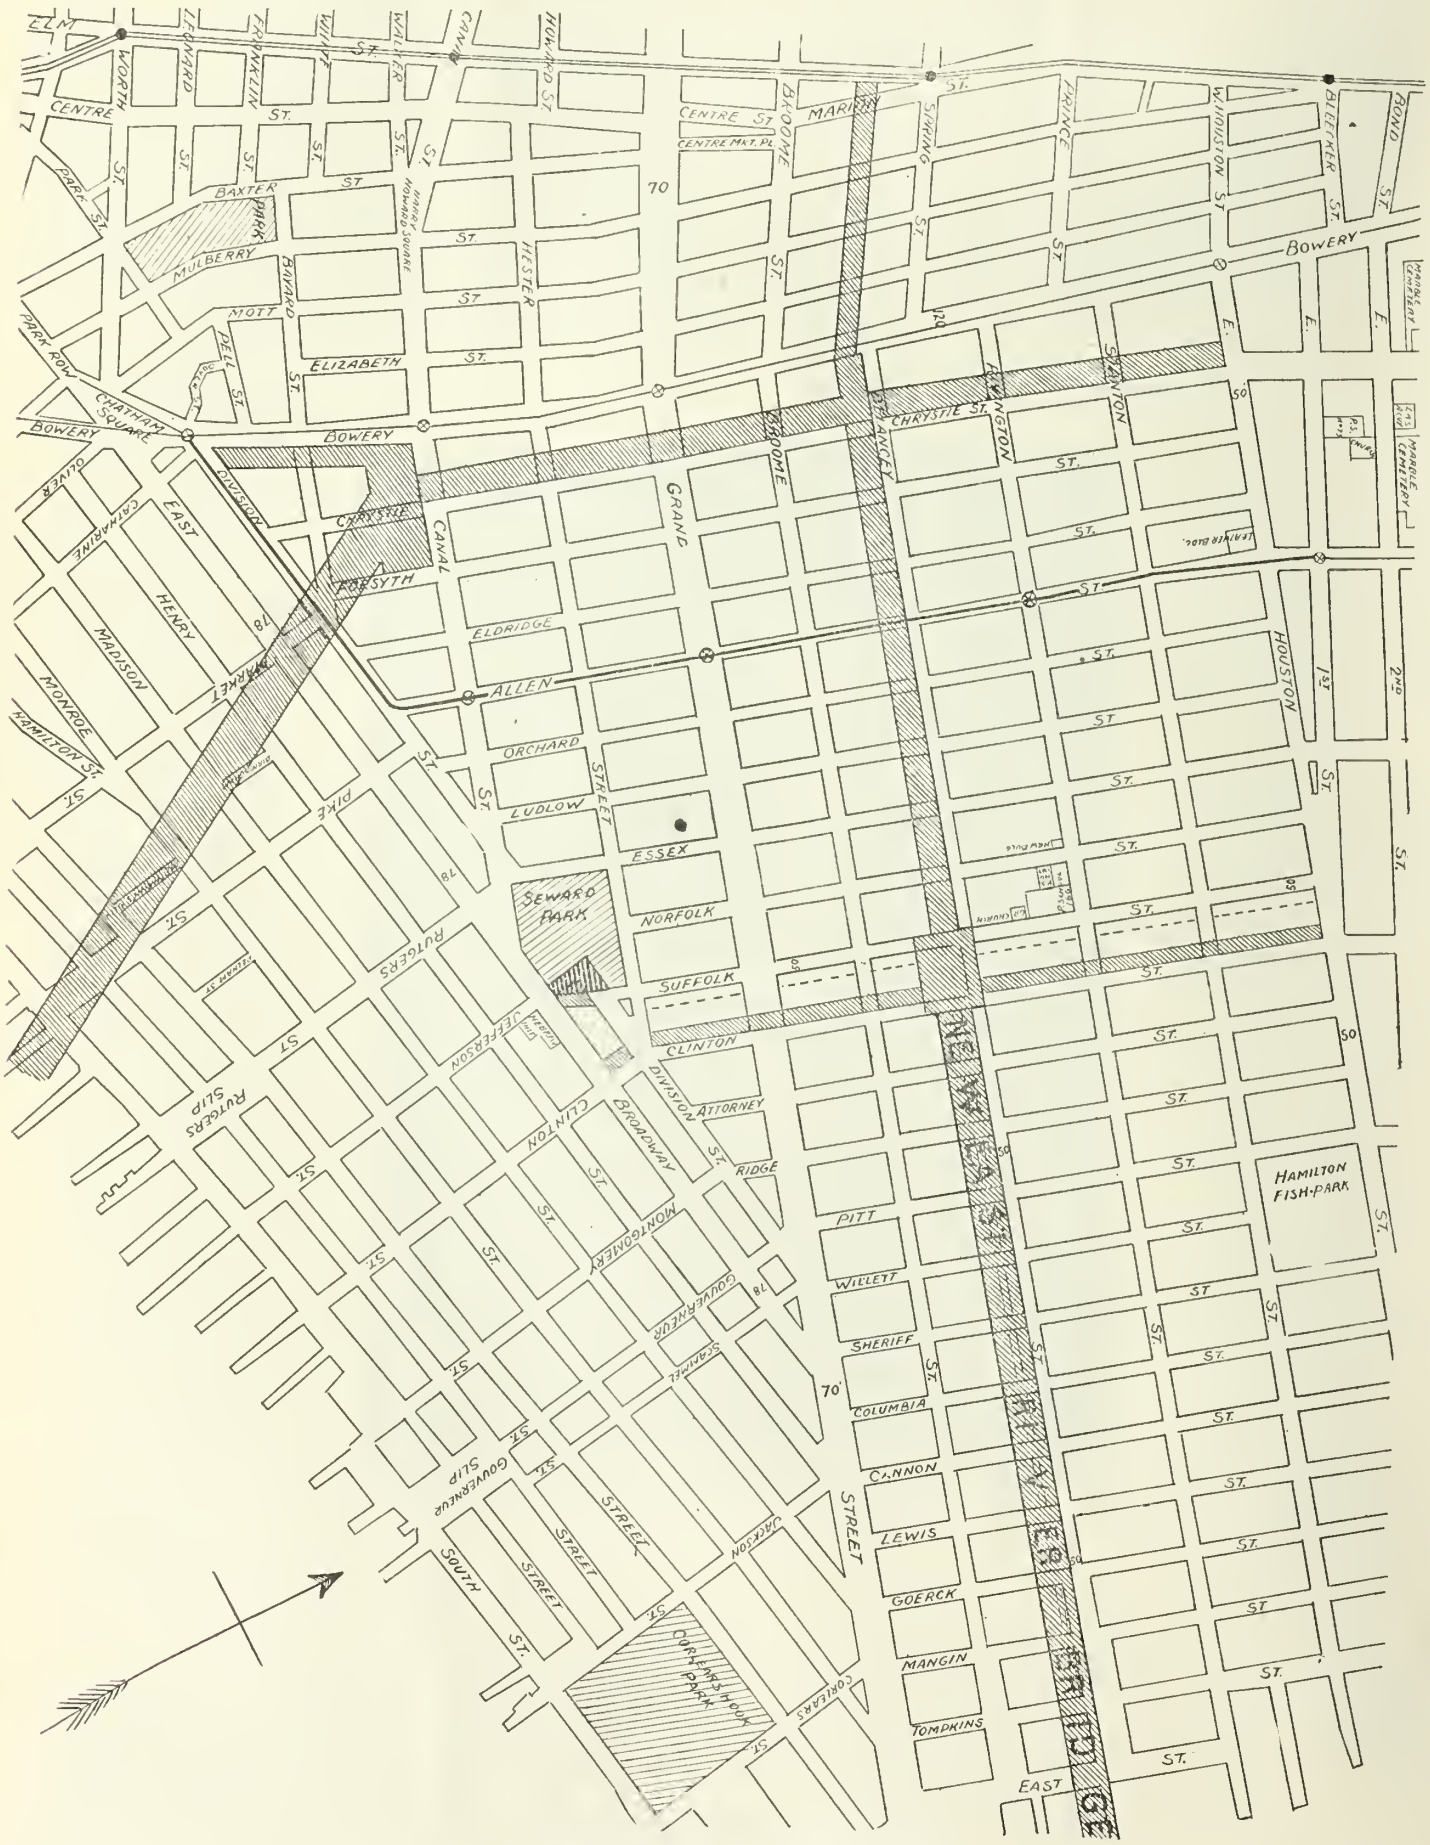
**A Period of Waiting.**

tually critical. There is work enough ahead for the laborers, and good profits for the employers, but not until business can be conducted on more normal lines.

IT is estimated by Comptroller Grout that the tax rate for the coming year will not be more than 1.42, which will be extremely good news to the real property owners of New York. This is the lowest authoritative estimate which has yet been made; and it means, not merely a lower rate, but actually lower taxes for the vast majority of taxpayers. On plots the assessed valuation of which has not been increased more than 33 per cent., there will be an actual reduction of taxes amounting to over ten per cent., while in order to lose all advantage from the lower rate a property owner must have had his assessed valuation raised 60 per cent. or more. Of course it is the revision of Sinking Fund payments which has accomplished this reduction, $8,500,000 of the revenues from that fund being added to the general fund. The achievement of such a reduction in taxation without any curtailment of the city's legitimate expense account is a record of which any administration may be proud.

HENRY S. THOMPSON, SUPERINTENDENT BUREAU OF BUILDINGS, MANHATTAN.

—The movement having for its object the building of a bridge over Spuyten Duyvil Creek, for an enduring memorial to Henry Hudson, has enlisted the co-operation of many prominent citizens. Plans have been drawn which will be submitted to the Board of Estimate and Apportionment, calling for the outlay of about $3,000,000. They disclose the most artistic and educational design yet attempted in bridges. This structure, crossing where the Harlem and Hudson Rivers meet, would be actually an extension of Riverside Drive and Boulevard Lafayette, connecting the Manhattan parkways with those in the Bronx and producing for miles along the Hudson the most beautiful of driveways.



## East Side Improvements.

A NEW START FOR PENDING ACTIONS IN RELATION TO STREET OPENINGS AND WIDENINGS—CONCENTRATED MOVEMENT FOR BRIDGE APPROACHES.

The Marshall bill, amending Section 442 of the Charter, which became a law a fortnight ago, by transferring final authority in matters pertaining to the opening, closing and widening of streets from the Board of Aldermen to the Board of Estimate and Apportionment, has compelled all proceedings coming under that head to change front and look in a new direction. The Board of Aldermen remains, in name, the supreme legislative body; but it is being said in an undertone that for most things of importance the Board of Estimate holds the vital spark. The Mayor not only presides over the deliberations of this exalted council, but he has the power of veto over its resolutions, as over those of the Board of Aldermen. Formerly the Aldermen could annul the acts of the Mayor's board; but no wave of authority from that direction can any more sweep over his head. Some commentators have pretended to believe that the added veto power was bestowed by a legislative accident, but no one knowing the Odell plan of government will fail to perceive that any act tending to centralize power and authority is founded on deliberation. While it was in transit the Marshall bill may not have been estimated at its true worth; but this can be said now, that it is destined to be a strong support to the work of political regeneration in this city.

One of the first effects has been to concentrate into one plan all the movements in behalf of wider streets for bridge approaches on the lower East Side. When on March 20th the matter of the approaches to the Williamsburgh Bridge, on the Manhattan side, was closed so far as the Board of Estimate was then concerned, the recommendations then made were taken up by the Board of Aldermen. Instead of referring the case to one of their own committees, the Aldermen varied the routine by

sending it to the Local Board of Improvements, where the main question was in a fair way to be smothered under counter proposals. Current rumor did not credit the Aldermen with a sincere desire to carry out the wishes of the Board of Estimate, ether in this or in other important cases; and final action not been held at the Civic Club frequent conferences between representatives of the Educational Alliance, College Settlements, medical fraternity, benevolent societies and property-owners, with the hope of finding a scheme of street improvements upon which all could unite. The findings have been incorporated in a peti-

NEW STREET PLAN FOR EAST SIDE.

The dotted line along Suffolk st shows the widening proposed by the Board of Estimate. The petitioners favor widening Clinton st instead. In the case of Chrystie st, it is proposed to leave only the Bowery halves of the blocks.

having been obtained, the proceedings came to an end when the Marshall law went into effect.

Thereupon, Mr. Charles S. Stover, president of the East Side Civic Club, was one of those prominently identified with East Side affairs who consulted with the Mayor, the Comptroller and the Chief Engineer as to what was to be done to secure for that section some of the physical reforms so greatly needed. Union of purpose was the first thing advised; hence there has since

tion to Borough President Cantor and the Local Boards of the Bowery, Bowling Green and Corlears Hook. These Boards will give hearings on next Tuesday, and the proceedings thus inaugurated will be carried before the Board of Estimate on next Friday, the 29th.

For the same time and place re-hearings are noted on fifty other matters, mostly relating to changes in grades, but including the widening of 59th st (Manhattan) and Livingston st (Brooklyn),

the rearrangement of the street plan at the St. George Ferry terminal, the opening of a new street for a Manhattan Bridge approach in Brooklyn, and the laying out of new streets in the Bronx and Brooklyn suburbs. The action of the Board of Estimate in all of these matters will now be final.

NEW EAST SIDE STREET PLAN.

The sum of the improvements finally proposed for the lower East Side is given in a map on another page of this paper. The petition recites that the citizens and interests of the East Side are united in urging the widening of Delancey st, and the laying out of a new street from the Bowery to Elm st. But instead of widening Suffolk on the west side from Houston st to East Broadway, it is now proposed to widen Clinton st, which is a block farther east. This can be done at a much reduced cost and Clinton st opens directly into Av B, at Houston st, while Suffolk st strikes Houston st midway between Avs A and B. On the south, the widening of Suffolk st would take part of the Educational Alliance Building, and would endanger with its increased traffic the children's playground in Seward's Park. But while opposed to the widening of Suffolk st, the petitioners ask for the extension of its present 50-foot width through the block from Division st to East Broadway, the marked benefits of which inexpensive improvement are stated as follows:

"(a) The removal of a very tortuous and annoying passage from East Broadway up Jefferson st and along Division st up into Suffolk st—a passage through which always considerable traffic will make its way, even though Clinton st were a hundred-foot-wide artery;

"(b) Thus at a very little cost no less than 16,600 square feet can be added to Seward Park—in other words, all the space north of East Broadway, lying between the Park and the extended house line of the west side of Suffolk st;

"(c) Thus, too, Seward Park can be made symmetrical, as it should have been from the start, and its appearance of spaciousness be greatly enhanced, beyond the measure indicated by the number of square feet actually added to its area;

"(d) Thus, Seward Park can be put into perfect shape to become the forum of the East Side—a beautiful green oasis in the tenement district; its playground alive with happy children, its gymnasium full of youth engaged in manly sports, while on the borders will rise imposing architectural forms of several public buildings."

The most startling feature of the petitioners' scheme is the widening of Chrystie st, from Houston to Canal st, by taking 100 feet on its westerly side. Chrystie st would then become the main approach to the new Manhattan Bridge, the scheme providing for a plaza as large as an ordinary city block at Canal st and the Bowery.

The petitioners suggest that instead of spending $3,000,000 on the widening of Allen st in order to bring light into it, the present elevated structure be removed from Allen st entirely and rebuilt along Chrystie st and through Houston st to 1st av. The petition concludes as follows:

"(g) The widening of the Bowery, from Chatham Square northward to the plaza of the Manhattan Bridge, would afford room not only for the removal of the 2d Av line, of the elevated railroad, as above indicated, but would also afford the much needed relief for surface traffic at the point where the Bowery runs into Chatham sq, which even now is a very tight place, like the neck of a bottle, through which the street traffic forces itself with difficulty—a difficulty which will grow beyond endurance with the opening of Manhattan Bridge.

"(h) Finally, the above street widenings and openings, as it seems to us, afford not only the best all-around solution of the vexed question of approaches to the Williamsburgh and Manhattan Bridges, with an adequate regard to the financial conditions involved; but in particular, we beg leave to state, that the Chrystie st 2d Av Elevated Railroad improvement is justified by the underground Rapid Transit connections, which, we learn from Engineer Parsons, will probably be made throughout the district, affected by the removal of the "L" line from Allen st to Chrystie st."

The total cost of the improvements included in the petitioners' plan has been estimated at $12,000,000. Against this should be set off, they say, the saving of $3,000,000 on Allen st.

## Real Estate Notes.

The South Brooklyn Board of Trade is desirous that the Kings County Penitentiary be moved to Blackwell's Island.

The New York office of the Plunger Elevator Company, 156 5th av, has closed a contract for two elevators to be installed in the New York Maritime Exchange.

D. Colucci, real estate broker, of 347 East 114th st, makes a specialty of leasing and selling properties in the Italian sections. His telephone call is 1957 B Harlem.

Mr. Lee Shubert informs us through H. I. Phillips that he paid $150,000 for the northwest corner of 7th av and 52d st, a plot 75.5x74.4, which was sold last week.

The matter of changing the grades of Delancey, Attorney and Ridge sts, at the approach to Bridge No. 2, will come before the Board of Estimate on Friday of next week.

The proposition to widen Fulton av and Main st, Astoria, has been sent by the Local Board to the Topographical Department to have maps prepared. The same action has been taken with the Orchard st matter.

The next hearing in regard to laying out a park bounded by W. 160th-162d sts, Edgecombe road and Jumel terrace, will be on May 29th, at the City Hall. The matter of the addition to Echo Park is noted for the same time and place.

Henry G. Koch, real estate and insurance broker, has removed his offices from 428 9th av to 2386 8th av, near 128th st, where he is prepared to give prompt attention to all business intrusted to him. Mr. Koch's telephone call is 78 Morningside.

The Board of Aldermen has ordered the Commissioner of Water Supply, Gas and Electricity to have gas mains laid, lamp-posts erected and lamps lighted in 33 new streets and avenues in that portion of the Bronx known as Wakefield and Williamsbridge.

If the city should take the old Billopp estate, at the southern tip of Staten Island for a park, it would be a very sightly resort. The Board of Estimate are looking into the matter, and Commissioner Willcox and Engineer Lewis conferred concerning it yesterday.

Myron W. Robinson, real estate and insurance broker, of No. 487 Broadway, is a young and energetic worker in the realty field. He has charge of such high-class structures as 487 Broadway, 377 Broadway, and 70 and 72 Franklin st, and makes a specialty of the management of property.

Three more fine streets are about being opened up in the Ft. George district, namely, West 191st, West 192d and West 193d, the first two extending from Audubon to Wadsworth av, and the third from Audubon to Ft. George av. All have an elevation of 200 ft. or more, and are in a district destined to be popular as it becomes more accessible.

Julius Ballin, a retired merchant, is the purchaser of Nos. 56-58 East 91st st, recently sold by M. & L. Hess. The house will be built out so as to cover the entire depth of the lot and altered into an American basement dwelling and used by the purchaser for his own occupancy. This is the first extensive improvement in this block.

If we are going to have a new municipal building of grand proportions, Mr. Andrew H. Green proposed to the Board of Estimate yesterday two sites for it, to compare with the one suggested by the Mayor; one site bounded by Canal, Mott, Bayard and Centre sts and another bounded by Mulberry, Bayard and Worth sts and the Bowery and Chatham sq.

The building 559 West 32d st, near 11th av, on the site of a shaft for the Pennsylvania Tunnel, has been vacated by William Dinnien, the lessee. On the advice of his lawyer, Mr. Quinn, of the Park Row Building, Dinnien compromised with the railroad company. It transpired that his lease contained a clause providing that the building might be taken for a public or corporation improvement.

On May 29th the Board of Estimate will give a hearing at the City Hall on the matter of arranging an approach to Manhattan Bridge, on the Brooklyn side. It is proposed to lay out a new street, 120 ft. wide, the center line to extend from the southerly side of Nassau st distant 322 ft. 6 ins. easterly from the southeasterly corner of Nassau and Jay sts to the intersection of Flatbush av with Fulton st.

The New Amsterdam Realty Company, incorporated in January, 1902, with a capital of $100,000, owing to their great success, having bought and sold thirty parcels, taking title to four pieces this month, expects to increase the capital to $250,000. Nathan Kempner, the president, has been engaged in the realty business for twenty-five years, and Isidor H. Kempner, vice-president and treasurer, has for many years been his partner. Edward A. Isaacs is counsel to the company, whose offices are at 626 8th av. They now have for sale a very attractive list of centrally located properties.

The proposition to lay out a plaza at the southeast entrance to Bronx Park, as recommended by the Local Board of Morrisania, is now before the Board of Estimate. The plaza will take in all parcels of land bounded by Boston road and Bronx st on the east, East 180th st on the south, Bryant st on the west, and East 181st and East 182d sts on the north. The change is strongly urged by the Zoological Society. The plan is to purchase three blocks of land, one of which has no buildings on it, the second only three buildings, and the third but eleven. The total assessed valuation is $188,000. One of the blocks is said to have been purchased by the Rapid Transit Construction Company, or else by the Interborough Railway Company, to be used as a terminal, but report also says that the company will let the city have it at cost. It is proposed to make here an elaborate entrance to the Zoological Gardens.

## Fifty-Ninth Street.

Chief Engineer Lewis, of the Board of Estimate and Apportionment, has been looking about to see if relief to the traffic on 59th st and provision for a direct connection with the Blackwell's Island Bridge cannot be furnished in a less expensive manner than by broadening 59th st, and he has found that 60th st offers certan advantages. If the northerly half of the block between 59th and 60th sts and between 2d and 5th avs were to be purchased and thrown into a public street an approach to the bridge would be formed 160 feet in width extending in a straight line from 5th av to the bridge. This would not, however, do anything for the section west of the park. The present assessed value of the property on the northely half of these five blocks is $4,590,500, while that on the southerly, or 59th st side of these blocks, is $7,707,000. Another public hearing on this matter is noted for May 29.

## The Real Estate Association of New York.

This association invites owners of real property in the City of New York interested in the purposes of its organization to transmit applications for membership to the secretary.

This organization has been formed for the purpose of securing the united action of real estate interests in the City of New York, in promoting the passage of laws beneficial and equitable to owners of real estate; in opposing and preventing the enactment of legislation detrimental to such interests and the improper expenditure of public funds; to secure an equitable and uniform system of taxation; to collect and diffuse accurate and reliable information relating to real estate; and to promote concerted action by real estate owners of this city, concerning all matters affecting their interests.

In addition to the voluntary services of its officers and directors, the association will establish a paid bureau for the furtherance of these objects. No initiation fees are required. The annual dues are five dollars, payable in advance. Recent events have demonstrated, in the opinion of the founders of this association, the necessity of its existence, and it is hoped that the public response to this appeal for a large membership will result in rendering its future activities thoroughly representative of the interests of every taxpayer in the City of New York.

## Livingston Street.

The proposal to widen Livingston st, Brooklyn, will hardly get through, in the face of the strong opposition arrayed against it. The trustees of the Polytechnic Institute of Brooklyn, whose property has a frontage of 250 ft. on the north side, extending from the intersection of Court st to the County Court House, a property valued at $750,000, have added their remonstrance to those of the Manufacturers' Association of New York City, the Ocean Hill Board of Trade, the Business Men's Association of Bedford Section, and the Butchers' and Grocers' associations. Dr. R. Finke says he would not consider the widening an improvement, but simply a tremendous expense to the city and property-owners for the sole purpose of accommodating the delivery wagons of several large shops.

The proposition as recommended by the Local Board of the Heights district, was to widen Livingston st 50 ft. on the southerly side, making the street 100 ft. wide. The Engineer of Highways has estimated the cost at $1,800,000. It is assumed that the cost of acquiring necessary property would be $1,700,000, while the expense of paving would be $90,000.

The origin of the proceedings seems to have been in a petition signed by David E. Leggett and 19 others. No franchise permitting the use of this street by any surface railroad company has been granted, though there is a contrary opinion abroad. The matter is still in the hands of the Board of Estimate and Apportionment, and the next hearing is advertised for May 29th; but as there are a large number of other matters noted for that day, the Board may not be able to reach Livingston st.

# The World of Building

## Building Operations.

### Theatre for The Bronx.

147TH ST., BERGEN AV.—R. Napier Anderson, 63 5th av, is preparing plans for a theatre to be erected on a plot, 75x150, at 147th st and Bergen av. The estimated cost is $75,000.

### Contract for Scarlet Fever Pavilion.

16TH ST.—John Monks & Sons, 130 Water st, has been awarded by F. D. Bell, chief clerk, Dept. of Health, the contract, at a figure of $22,700, for building the Scarlet Fever Pavilion at the Willard Parker Hospital, north side of 16th st, 607 feet east of Av C. It will be a 6-sty brick building, 140x61. W. Wheeler Smith and Westervelt & Austin, 7 Wall st, are the architects.

### A Tall One for New St.

NEW ST AND EXCHANGE PL.—Arnold W. Brunner, 33 Union Square West, is preparing plans for a 19-sty office building to be erected on a plot, 26x46, at the northeast corner of New st and Exchange pl, for W. F. Havemeyer. On the north and east of the plot is the site of the proposed addition to the Commercial Cable Building, plans for which are being prepared by George Edward Harding.

### Belmont Park.

C. W. Leavitt, 15 Cortlandt st, engineer in charge of laying out the Belmont Park, at Long Island City, has been receiving bids for constructing the buildings, and these were to be submitted to Mr. Belmont yesterday. The foliage effects surrounding the present manor house are mostly utilized in the new design. The buildings are to be a grand stand, 160x116; betting rotunda, 250x200; free stand, 250x106; a clubhouse, to contain 3 stories and deckhouse, with two observation piazzas; paddock, with 22 stalls; a 2-sty frame building, with observation piazza, for the jockeys. There will be a large number of stalls, but the exact number has not been decided on.

### Van Tassell & Kearney's New Mart.

13TH ST.—Wm. Crawford, builder, 5-7 W. 42d st, on Thursday signed the general contract for the work on Van Tassell & Kearney's new building at 126 and 128 East 13th st. The old premises are being demolished and it is expected that the work of construction will be started as soon as a settlement of the building trades strike is effected. The plans of Jardine, Kent & Jardine, 1262 Broadway, call for a building 50 ft. wide, 103 ft. long and 65 ft. high, to be located between the main 5-sty building and the annex, three doors west, and used exclusively as an auction mart. The arched roof will be of glass. For women there will be a special reception room and a balcony furnished with 400 opera chairs.

### Macy's Neighbor.

BROADWAY and 34TH ST.—The tearing-down of the little old building on the northwest corner of Broadway and 34th st, and the enclosing of the plot, for which $375,000 was paid, with a board fence, seems to indicate that upon a settlement of the strikes in the building trades work will commence on the new building. It will be recalled that upon the failure of R. H. Macy & Co. to secure the corner plot to complete their Broadway block front all kinds of rumors were current as to the ownership of the plot and ultimate use to which it might be put. A tall, tower-like building completely overshadowing and outshining the Macy store was surmised. A rival store, competing with some department of Macy's, was also suggested. Then the subject of sky signs was introduced and the public pictured disfiguring advertisements on the roof of the Macy neighbor. At length it became known that Henry Siegel was the owner, and when Architects Wm. H. Hume & Son, of No. 1 Union square West, filed plans for a 5-sty brick and stone store and office building, to cost but $40,000, all fears were abandoned and curiosity satisfied. Isaac A. Hopper & Son, 160 5th av, have the general contract for erecting the building, which will probably be completed in the fall. The ground floor has been leased by the United Cigar Stores Co., and Louis Biel, at the company's headquarters, 112 W. 42d st, is renting the upper offices.

### New Home for Criterion Club.

5TH AV.—The Criterion Club, now in leased quarters at 516 5th av, are to have a new home at 683 5th av, between 53d and 54th sts. The plans as filed by Architects Lowinson & Eisendrath, of 25 West 24th st, call for a 5-sty American basement building, on plot 30x117. It is in the style of the French Renaissance. The entrance is marked by a marble portico extending through two stories, each of the four supporting columns being of one solid piece of marble. The architects thus take advantage of the recent ordinance authorizing ornamental projections beyond the building line. The bases of the columns are marble blocks 5 feet high. The façade through the basement and first story is of marble, the upper portion being of Roman pressed brick with limestone trim. There is an oriel window at the first floor shadowed by the roof of the portico, and at the level of the fourth floor a heavy limestone cornice. The fifth story is a mansard of Spanish tile.

The interiors will be elaborate. The lobby in the basement will be decorated with marble columns and wainscoting. On the parlor floor will be a succession of rooms opening from one to another through arches supported by columns. The inner rooms are to be lighted by dome lights at the base of the air shafts. On this floor will be the parlor, staircase foyer, café, and dining-room. The second floor will contain the library and various amusement rooms. The third, billiard rooms, and the fourth, members' rooms, gymnasium and Turkish bath. The building will be supplied with electric lights and elevators and be heated by the indirect system. The cost is placed at about $80,000.

### Mercantile.

FULTON ST., Brooklyn.—Helmle, Huberty & Hudswell, 220 South 8th st, Brooklyn, are working on plans for a 7-sty mercantile building which A. I. Namm will build at Fulton st and Elm pl, Brooklyn. It is expected that the plans will be completed next week.

17TH ST.—William E. Jacobs, 50 West 18th st, is having plans prepared by Conrad F. Kruse, 103 East 125th st, for a 6-sty and basement mercantile building which he will build on a plot, 65x92, on the north side of 17th st, between 6th and 7th avs. The cost is estimated at $40,000. It is expected that plans will be filed shortly, and subsequently Mr. Jacobs will receive bids and let the work in two contracts.

### New Apartments, Flats and Tenements.

14TH ST.—Sass & Smallheiser, 23 Park Row, are to complete the plans for two 6-sty apartment houses, 80x103, to be erected at the northwest corner of 2d av and 14th st, and cost $100,000. Feller & Schrufsky, 68 East 101st st, are the owners.

107TH ST.—Thomas Graham, 1421 Madison av, is drawing plans for two 5-sty flats, each 37.6x89, cost $40,000 each, to be erected on the north side of 107th st, 175 feet east of Columbus av, for Albert V. Donellen and Joseph C. Hess.

3D AV.—The Architectural Realty Co. will erect a 4-sty flat, 26x90, on the west side of 3d av, 47 ft. south of St. Paul's place.

AV B and 8TH ST, S. W. Cor.—G. F. Pelham, 503 5th av, is making plans for two 6-sty brick tenements, 50x37, and 50x43.6, to be built on the southwest corner of Av B and 8th st, for Lena Michelson, 135 Av D. Total cost, $70,000.

RIDGE ST, 25-27.—G. F. Pelham, 503 5th av, is making plans for a 6-sty brick tenement, 50x87, at 25-27 Ridge st, for Hyman Wynehouse, 393 Grand st, to cost $50,000.

RUTGERS ST.—Sass & Smallheiser, 23 Park row, are making plans for a 6-sty brick tenement, 46x72.6, to be built at 60-62 Rutgers st. Owner, Hillman & Golding, 233 Henry st. Cost, $45,000.

AV D, Nos. 98-100.—George F. Pelham, 503 5th av, is making plans for a 6-sty brick tenement, 48x72, to be built at 98-100 Av D for Samuel Klein, 5 Manhattan st, at a cost of $50,000.

COLUMBUS AV.—Frederick C. Browne, 143 West 125th st, will draw the plans for a 12-sty apartment hotel to be erected on a plot, 102.2x100, at the northeast corner of Columbus av and 81st st, by the Manhattan Square Realty Co.

3D ST, n. s., 100.10½ e. of Lewis.—George F. Pelham, 503 5th av, is making plans for two 6-sty brick tenements, 50x84, to be built at a total cost of $100,000 for Weil & Mayer, 35 Nassau st.

116TH ST, n. s., 204 w. of 5th av.—Geo. F. Pelham, 503 5th av, is making plans for two 6-sty brick tenements to be built at a total cost of $90,000, on a plot 45.6x87.11, for Lederer & Block, 97 Bleecker st.

1ST ST., East, 61-63.—Bernstein & Bernstein, 72 Trinity pl, are planning a 6-sty brick tenement, 41.8½x57, to be erected at a cost of $35,000 for A. D. Weinstein, 1297 Lexington av.

MADISON and RUTGERS STS.—A. E. Badt, 1 Union sq West, is making plans for a 6-sty tenement, 48.4x53.6, to be built on the northeast corner of Madison and Rutgers sts, for B. Ruberenstein, 227 West 115th st. Cost, $40,000.

### Alterations.

8TH AV.—Lowinson & Eisendrath, 25 West 24th st, are preparing plans for alterations to 290 8th av, a 3-sty store building, owned by the New Amsterdam Realty Co. Cost will be about $3,000.

For plans filed see pages 1052 and 1072.

### Estimates Receivable.

ATLANTIC CITY, N. J.—Albert R. Ross, 156 5th av, New York, is the winner of the competition for a public library building for Atlantic City. The plans call for a 3-sty building in the style of the Italian Renaissance. The limit of cost is $60,000. The first and second stories will be faced with stone, the third with brick and terra cotta. It is hoped to have the building completed in the fall.

## Of Interest to the Building Trades.

The salary of Assistant Engineer, in the Bureau of Sewers, Brooklyn, has been raised to $2,250.

The Zibell Damp-Resisting Paint Co., manufacturers of waterproof paint, have removed their offices and plant to No. 290 Front st, near Roosevelt st.

The Board of Estimate has asked the Board of Aldermen for $500,000, to provide means for additional water mains and five hydrants in Manhattan and the Bronx.

Denton Fowler, a brick manufacturer at Haverstraw, gave $10,000 toward a village library building which this week was dedicated and named in his honor "Fowler Library."

The sum desired for completing the unfinished portions of the Museum of Natural History is $188,000. A resolution appropriating that sum is before the Board of Aldermen.

George W. Tuttle, formerly employed as Assistant Engineer in the Department of Docks and Ferries, was recently transferred to the office of the President of the Borough of Richmond.

The Duke of Marlborough has ordered two electric elevators with push-button control, from the Otis Elevator Company. These are to be installed in his city home, Blandford House, Curzon st, London.

The plans of Clarence Luce, 242 4th av, for the New York State Building at the Louisiana Purchase Exposition at St. Louis have been accepted by the commission under whose direction the building will be erected.

Nowadays the question of an absolutely airtight joint is ot great importance. The Wisconsin Graphite Company, of Pittsburg, Pa., makes a pipe joint paste which is claimed to be much superior to red or white lead, and at the same time much cheaper. A card will bring particulars and prices.

The present plans of the Jerome Park Reservoir call for a 3-inch concrete flooring, but the engineers now favor an 8-inch flooring, a change which would cost about $217,000. It is also recommended that the core walls be replaced with solid masonry reaching to a rock foundation. The change will cost about $400,000.

The Finance Committee of the Board of Aldermen has under consideration an ordinance providing for an issue of corporate stock in the sum of $200,000, to provide means for improvements to pumping stations, extensions and reconstruction of pipe lines, circulating mains and rearrangement of system of water distribution, and for additional land, driven wells, test wells, etc., to develop sources of water supply in the Borough of Queens.

The dwelling which is being reared for Henry Batterman, dry-goods merchant, at 361 Clinton st, will be one of the finest in Brooklyn. A massive porch of stone is the predominating feature of the exterior. The drawing room will be in Louis XV. style, the library in Circassian walnut, foyer-hall in mahogany, dining room, in Flemish oak. Dimensions, 28x85; architect, Albert Ulrich.

The estate of F. G. Janusch, manufacturers of brass fire-place goods, grills, railings, etc., have removed their offices and plant from Nos. 217 and 219 East 42d st, to their new 5-sty factory building, Nos. 750 and 752 East 134th st, near Brown place, where they have every facility for turning out goods quickly. This firm have been established many years and are well known for the excellence of their goods throughout the city and country.

The Stillman Memorial Addition to the Aged Men's Home on Classon av, Brooklyn, which was dedicated this week, cost about $75,000. The first story is taken up by the reception hall, finished in oak, with red burlap wall covering above the oak panels, the dining-room and the library, which is also finished in oak. The three floors above the first story are fitted up as sleeping apartments. The Henry Crossman memorial addition to cost $300,000, will be started soon.

D. H. Burnham & Co., architects, writing from Chicago, inform the Record and Guide that the interior court of the new Wanamaker Building in this city will be about 63 ft. square. The exterior of the building is to be of stone three stories high, balance of terra cotta. Roof is to be of asphalt, floors of maple. Foundations will extend some 30 ft. below the sidewalk. The ground area of the building is about 62,600 square feet. The plans of the building are now ready and being figured on. There will be no mechanical plant in this building, as the power will be obtained from the adjoining property. Approximate cost, $3,500,000.

## The Labor Situation.

With information derived from official sources the Record and Guide is enabled to estimate the effect of the paralysis of the building trades in the following tabulated form:

| | |
|---|---|
| New buildings in Manhattan stopped | 717 |
| New buildings in the Bronx stopped | 404 |
| Value of new building work in Manhattan | $75,000,000 |
| Value of new building work in the Bronx | $6,000,000 |
| Number of alterations (partly stopped) in Manhattan | 450 |
| Number of alterations (partly stopped) in the Bronx | 175 |
| Number of workmen idle | 100,000 |

The coldness between the employers and the business agents of the unions has become more intense during the week now ending. "The ice is thicker than ever," said President Hammond, of the Brick Manufacturers' Association yesterday. If it was the dealers who shut the door against the building trades, then it was the brick manufacturers who locked it. At a meeting of manufacturers of brick at Haverstraw on Thursday, a resolution was passed to continue to withhold shipments from the Manhattan and Bronx market. Bricks are, however, still being shipped to Brooklyn, Queens and "outside places." The Brooklyn dealers have formed an association, but have not yet felt compelled to shut off material and stop construction in that borough. But as in various trades there are strikes and lockouts, building operations are already severely broken up.

The Dealers in Mason Building Materials, who with the support of the Lumber Dealers' Association, the Master Masons, the Master Carpenters, the Ironmasters and all employers known as builders, and the masters in many allied lines, who have created this situation, view it with increasing sternness and with a surer determination that there shall be a reformation of the relations between themselves, as employers and owners, and the business agents or managers of the men in their hire. They refuse to accept with humility the remnant of authority that would be left to them; and as for the mechanical unions there is a growing impatience with the alliance that has been made with the unions of unskilled workers. There is a distinct impression among mechanics that their delegates are demanding the impossible. Some have even suggested to the walking gentlemen that they ought to go in business for themselves.

Following from the meeting of the Building Trades' Club last week, an Emergency Committee has been formed with the following members: Otto M. Eidlitz, of the Mason Builders' Association, chairman; James R. Strong, Electrical Manufacturers; Theodore Hoffstatter, Cabinet Makers; E. B. Tompkins, Marble

Workers; J. M. Cornell, Iron Workers; Charles L. Eidlitz, Electrical Contractors; Hugh Getty, Master Carpenters; C. T. Wills, Mason Builders; John J. Roberts, Plasterers' Association; John Downey, Mason Builders; George H. Morris, Steam Heaters' Association; and D. W. O'Neil, Wood Workers' Association. This is the committee that will conduct the campaign for the Builders. It should be noted, however, that the Dealers form another division of the army of employers. The headquarters of the Builders are at 1123 Broadway; the Dealers' headquarters are at 18 Broadway. The Emergency Committee was appointed by the Building Trades' Association, which, formerly a social club, has recently been transformed into a business body. This Emergency Committee, in turn, has appointed the following subcommittees:

Committee on Scope, Plans and Press, Charles L. Eidlitz, L. V. Prince, W. E. Fertig, V. C. King and W. N. Miller.

Committee on Resolutions, Otto M. Eidlitz, C. T. Wills, James B. Strong, George A. Just and Louis Harding.

Committee on By-Laws and Constitution, F. M. Weeks, chairman; W. E. Fertig, H. W. Miller, E. S. Keefer, Howard Wood, C. P. Miller, Lewis Harding, A. E. Pelham, R. D. Hamilton, B. D. Traital, M. F. Westergreen, F. B. Tuttle, Augustus Meyers, Henry A. Maurer and B. Greenblatt.

In order to make their lockout more effective, the material men have asked manufacturers in various lines to give assurances of support. The circular to the lumber manufacturers and wholesale dealers was like this:

"We want to impress on your minds that the question of closing the lumber yards to contest the unjust demands made by the United Board of Walking Delegates is something that vitally interests any man who ships and every sawmill that cuts for this market.

"It is the first step toward compelling the use of union lumber in this city and none other but union lumber, and union lumber means union labor in your sawmills and the domination of the walking delegate."

James R. Strong, a member of the Emergency Committee, said this week:

"Our progress will be gradual. There will be no radical measures. Agreements now in existence with labor unions will be respected, and under the new plan we shall continue to make agreements, but from what I have gathered at the discussions these agreements will be more uniform.

"It may not be possible to inject ourselves into such existing difficulties as the war between the carpenters' unions or the lockout caused by the strike of the team drivers. Moreover, it may not be desirable. That is a matter to be determined only after serious consideration."

Hugh Getty said: "I am in favor of no radical move. The aim of the organization is to bring about a condition whereby the United Board of Building Trades or any central labor body will be forced to stand by a decision of an arbitration board. The disposition of the employers is to be absolutely fair."

W. K. Fertig, Secretary and Treasurer of the Building Trades' Club, said: "It is our experience that the skilled, valuable workmen, rarely make exorbitant demands. Our troubles come from the ignorant and unskilled, who want wages out of all proportion to the services they render."

As a boycott has been declared by labor unions against the lumber of the Albro J. Newton Company, of Brooklyn, the lumber yards in Brooklyn and Queens belonging to the dealers' association are expected to close at 12 o'clock noon to-day. There is more lumber used in Brooklyn in building than in Manhattan and it contains some of the largest lumber yards in the metropolitan district. A general shut-down in Brooklyn will put a stop to the erection of hundreds of frame buildings. The men in the lumber yards, as the shut-down will be largely sympathetic, will be paid their wages. A communication has been sent to the dealers' associations from the Building Trades Employers' Association suggesting closer co-operation and a mutual understanding, so as to be able to make common cause in case of troubles with unions.

## Material Market.

With the local material market practically closed, there is little to be said concerning the present condition of business that is not comprehended in the labor situation. Prices are generally nominal and unchanged. Here and there, no doubt, there are exceptions, but as a general rule the building and allied trades are idle. Small alterations requiring little new material, which can be taken from stock, may not in numerous cases be interfered with; likewise new work in some shops, as in marble and stone yards. The marble firms have a two years' agreement with their help, and many also have their own teams. Brooklyn and the suburbs have not thus far been generally affected, though there is a strike of carpenters in Richmond.

### BUILDERS' HARDWARE.

Replying to an inquiry by the Record and Guide, Mr. Henry R. Towne, of Yale & Towne, said: "The coming year promises greater activity in building operations in this city than ever before experienced. Whether or not this promise will be realized hinges chiefly on the attitude and action of organized labor. At the present time the outlook in this respect is disturbing, and undoubtedly is tending to cause a halt on the part of investors. Should the situation become more acute it seems probable that many large undertakings now projected will be indefinitely postponed. If this danger can be averted there is every reason to believe that the building trades and all allied interests have before them a season of unprecedented activity."

### BRICK.

The brickyard laborers up the river are in a petulant mood. Reports of a succession of strikes have been coming in ever since this market closed. On Monday of this week the hands on the yards of Nicholson & Reiley, Goldrick, the Belt Line and the Gillies yards, all at Haverstraw, went out for a raise of ten cents per day all around. T. G. & G. H. Peck had previously granted the increase, but a mob of two hundred blacks, armed with revolvers, knives, stones and clubs, came up the line and drove all hands from their work. When the situation had been explained, the Peck men resumed, and the next day all the yards were going again, the owners having granted the demands. On Wednesday the men in the employ of the Hutton Company, at Kingston Point, threw down their tools and demanded an increase of 15 cents a day. The strikers then marched along the shore to Glasco, calling out the men in the yards of Terry Bros., Fredericks Brick Co., Robert Mann & Co., C. A. Shultz, Bingham Bros., Rose and others. Unlike their Haverstraw competitors, the Kingston district owners did not give in.

This new trouble could not have happened at a better time, as on account of the tie-up here producers had been asked to hold back. On Thursday a general meeting of Hudson River manufacturers was held at the United States Hotel, in Haverstraw, in response to a call by President William K. Hammond, in which he said that the situation in Manhattan was as a wilderness, with no apparent way out, and adding:

"The walking delegates declare their intention of unionizing all labor which produces or handles building materials. You thus are witnesses to a fight going on, waged by others, with your yards to be unionized if the delegates win; or to remain free, if the dealers and builders win. You are not asked to contribute one penny to defray any of the expense, yet you are rapidly approaching a condition that must be met. Weather conditions have been so favorable to the manufacture of brick, that upward of 80,000,000 have been produced during the tie-up, while none have gone into use.

"What is to be done with this surplus? How are you to continue making with no possible outlet for your product? How far are you capable of supporting the men who are making this labor fight, which is as surely in your interest as any contention ever presented? If temptations confront you by some builder who may be unprincipled enough to try to buy your brick to continue your present operations, how far will you resist?

"This question has been asked of me and of others by builders, who are determined that no work shall proceed until all may work freely and not under dominion of the walking delegate. The reply has been that you will stand solidly against any temptation or influence which, though it might be immediate gain, will eventually result in making yours a union yard, and you a slave of the delegate."

By a unimous vote the meeting decided to co-operate with the Dealers and to ship no bricks for the Manhattan and Bronx market until the labor question is settled.

### IRON AND STEEL MATTERS.

A further decline in pig iron market will be noted this week. This has brought the quotation for Northern No. 1 Foundry to $20.75 a ton. For builders and material men this ought to mean more satisfactory conditions, not merely in prices, but for structural material and hardware generally.

The internal dissensions of the sheet metal workers' unions have been settled, an agreement having been entered into at Milwaukee whereby the name of the international body is changed to the Amalgamated Sheet Metal Workers' International Alliance.

The New York Central Railroad are in the market for about $60,000 worth of machinery for their Oak Grove shops. They have purchased about $35,000 worth of machine tools for their new West Albany shops, and have placed the crane order with the Niles-Bement-Bond Company. Two 60-ton electric travelers were ordered. The list of tools required for the Meadow shops of the Pennsylvania Railroad are expected within a short time, and machine and repair shops of the Lehigh Valley Railroad, at Sayre, Pa., are soon to be doubled in size. A portion of the equipment for the latter has already been purchased, but there is still a large quantity to be bought before the amount needed is secured.

—The work on the Brooklyn Subway will begin about the first of June, on Flatbush av, which the contractor has selected for the first operations, since there the traffic is light and the construction simple, and will afford an opportunity to gain experience for himself and to educate his men. When the experience has been obtained, which will be some time in the autumn, he will transfer the force to Fulton st, where the work will be difficult.

We will give ten cents each for the following numbers of the Record and Guide brought to this office in good condition: 1689, 1712, 1713, 1731, 1819, 1822.

# CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or eneumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed eovenants, he really grants or eonveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not eorrespond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2,482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will fiud mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

May 15, 16, 18, 19, 20 and 21.

## CONVEYANCES.

Whenever the letters Q. C. and C. a G. are preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

Vol. LXXI. MAY 30, 1903. No. 1837

THE condition of the stock market continues to be irregular and unsettled. Any movement in prices one way or the other is entirely superficial and tentative. General conditions indeed seem to favor higher prices, and it is not easy to find a solid explanation as to why, for instance, a stock paying 6 or 7 per cent. and likely to continue to do so, remains without purchasers at a price considerably lower than the figures that existed when the stock itself was yielding a smaller return. Undoubtedly, local financial conditions at the moment are opposed to any considerable advance, and, as we pointed out last week, even big banking houses, which would benefit most from a rise in quotations of securities, do not encourage such a movement just now. Under these circumstances the market is likely to remain in an uncertain state, but the speculative side of our prosperity, which has been uppermost for so long, is undoubtedly being replaced by a very decided tendency toward conservatism. This conservatism, moreover, is intensified rather than otherwise by the unsettled condition of the labor situation and by the crop prospects. This cautious attitude usually makes for lower prices and possibly in this fact we have the best explanation of the present condition of the stock market.

THE little local celebration which New York has been having during the past week in order to commemorate the 250th anniversary of its incorporation as a city suggests the desirability of holding a more elaborate celebration four years from now in order to commemorate the 300th anniversary of the discovery of the Hudson by Henry Hudson. We do not mean even to hint that these exercises should take the form of anything so costly and formidable as a world's fair. Even if New York desired the bother and the work of organizing such an exhibition, the time necessarily selected would be altogether too soon after the Louisiana Purchase Exhibition. We might, indeed, follow the example of St. Louis and Chicago and celebrate the occasion a year or more after the anniversary of the event; but we do not believe that such a proposal would find many supporters in this or any other city. It should, however, be possible to get up a small compact and distinctive local exposition, designed particularly to show the achievements of the city during the past century, and also to give the visitors to New York during that period a particularly good time. Or, it would be worth considering whether something might not be done by the associated art societies of New York to get up the most complete and representative exhibition of American art that has yet been seen. It cannot be said that such an exhibition would be appropriate; but it would most assuredly be timely, for there can be no doubt that the city is becoming more and more the art centre of the country. In getting up such a celebration New York has a great advantage over any other city in the country, not only because there are such an enormous number of people living within a radius of fifty miles from the City Hall, but because it is becoming more and more the habit of comparatively well-to-do people from all over the country to visit New York. They find here more opportunities for business and amusement than anywhere else in the country; and in visiting this city they would be traveling a familiar road and could be sure both of good accommodations and a good time. Since there has been no talk about it hitherto, it is improbable that public opinion will be sufficiently interested to countenance anything but a literary celebration of Henry Hudson's discovery; but we feel assured that before many years are out New York's increasing sense of her metropolitan eminence and distinction will receive some kind of an expression. The veritable consolidation of the Greater New York, which will be brought about by the operation of the bridges and tunnels now under construction, will so increase the momentum and effectiveness of the city's life that in the end the impulse to publish and commemorate its expansion will become irresistible.

MR. ANDREW H. GREEN'S suggestion that all the proposed sites for a new municipal building should be abandoned, and that a site in one of several tenement-house districts should be selected, has been received with something worse than disapproval; it has been received with absolute indifference. Of course, the situation he proposes would be cheap enough, and they are not so far away as to be hopelessly inconvenient; but at the same time they do not and cannot excite the least interest. If the property on Chambers street is very costly its cost is determined by the value it has for private business; and if business men can afford to pay these prices for offices in that neighborhood surely the corporation of the city of New York can afford to pay the same prices. The property is valuable because it is conveniently and centrally situated; and it would be more conveniently and centrally situated for the offices of the city than it would be for the offices of a savings bank or a news company. Moreover, a city like New York, which has just been congratulating itself over its wealth and grandeur, must keep up appearances. To seek the site of its new office building in a section now devoted to loft buildings and tenements would be to show a very poor and parochial spirit. If it were possible to move all the city departments to some handsome central, convenient and economical site north of Fourteenth street the idea of deserting the neighborhood of the present City Hall might be worth considering, but since the present City Hall is an old and very beautiful building, and since it is the home of valuable and time-honored civic associations, no such removal is worth serious consideration. No! The city of New York must find the site for its new municipal building in the immediate neighborhood of its present City Hall, and it must spend money freely to make that neighborhood worthy of its function. That with terminal and other improvements it will be possible little by little to make that neighborhood spacious, handsome and acceptable in every way, and it is to that end that the efforts of local officials and patriotic New Yorkers should be directed.

## Real Estate Situation.

In a recent financial article in the "Sun" we find the following comment on the real estate situation in this city: "The remark is frequently heard here in bank parlors and other important quarters that the building strike in our city is a blessing in disguise, in that it has stopped the building craze which has gone on uninterruptedly for a long time and has put a curb upon speculation in real estate that has been much wilder than that in cotton."

**Speculation in Real Estate and Building.**

If this is the kind of remark that is being passed in "bank parlors and other important quarters" the bankers and the other inhabitants of these "quarters" betray an amusing ignorance of the existing situation. There has been no "building craze" in New York City—if by "building craze" is meant an amount of new building not warranted by the increase in the population and trade of the city. During the years 1901 and 1902 there was indeed a good deal of building of all kinds, but particularly of office buildings, loft buildings, apartment hotels and expensive residences. In the first two of the classes there has certainly been no over-building, because as soon as the new buildings are erected they are rented. It is possible that in the vicinity of Twenty-third street the supply has run ahead of the demand, but if so the excess is local and unimportant. In the case of the apartment hotels, also, there is no sign of over-building. The new apartments are rented just as soon as they are finished, and while they may not prove to be permanently popular the present demand fully justifies the amount of new building. In the case of expensive residences, some of the speculative builders are perhaps over-loaded; but the difficulty, if it exists, is confined to only a few people. As to flats and tenements, so far from there being any over-building, there is an actual dearth of new accommodations, and if the strike continues, so that there will be no new buildings offered for rent next fall, there promises to be an actual and a severe house famine. It will take several years of heavy construction in order to place the supply as much ahead of the demand as it was in 1900. As it is with building, so it is with real estate. There have been enormous increases in value of recent years in the financial district and along the line of Fifth avenue; but speculators would have been powerless to make or hold these prizes, had not the wealthiest and most conservative financial institutions been willing to pay prices as large if not larger. It is a firm like Tiffany & Co. that has paid the highest prices for

Fifth avenue property; and downtown the purchases of the Mutual & Equitable Life, the Hanover National Bank and Blair & Co. have done more to advance values than those of speculators. Apart from labor troubles the real estate and building situation in New York is in a thoroughly wholesome condition, and after these troubles are over there will be a resumption of building on even a larger scale. It can be affirmed positively that the values of real estate in New York, wherever the real estate is properly improved, is justified by its income-producing power. The recent speculation in real property, so far from being wild or crazy, has been the conservative expression of the increased business advantages of the Greater New York, and it has been conducted for the most part by well-informed and prudent men.

---

WHEN the economic history of the present time comes to be written it will probably be found that the chief cause of the disappearance of the prosperity that has recently been prevailing was the exactions of the labor unions. All over the country they have been leading their employers such a dance that these gentlemen have found the fruits of good times passing away from them, and they have gradually been finding it wiser to shut down entirely and bring their employees to their senses than to continue production under these discouraging and unprofitable conditions. In the two largest cities of the country the building industry is almost completely tied up because of labor troubles, and what is most serious is the probability that the serious trouble is really only beginning. When a period of business depression succeeds the present elusive and illusive "prosperity" it will be found that in many cases the existing rate of wage distribution cannot be continued, or if continued it cannot possibly be increased. Thus it is probable that a series of labor troubles will result which will rival those of 1877; and because of the very complete organization of the two parties to the struggle the consequent loss and suffering will be very great. In the old days, when a strike simply affected one factory or one job, strikes did not make so much difference, and the public could afford to look on with comparative unconcern. The industrial disputes of this former epoch might be compared to the wars of the eighteenth century, which consisted of inoffensive campaigning rather than in fight to a finish. But Napoleon taught Europe that warfare was a serious business, for which both parties must be organized and equipped in the most specific and thorough manner; and in the same way modern American industrial warfare is waged by people who are thoroughly prepared and who are ready, if necessary, to fight to the end. The effect of such struggles upon the public interests may be inferred from the issue of the coal strike. It was absolutely necessary that the strike should terminate, and President Roosevelt succeeded in terminating it; but the consuming public paid the costs both of the battle and the victory. So it is likely to be during the next few years. If President Roosevelt seeks during that time to terminate all the strikes of national importance which are destined to occur he will have his very considerable energies sorely taxed.

## Defect in Williamsburg Bridge.

RECONSTRUCTION OF ROADWAY PROBABLE CONSEQUENCE—ACTION OF LOCAL BOARDS ON EAST SIDE STREET PLANS.

The results of Tuesday's hearing before the Local Improvement Boards of the Bowery, Corlears' Hook and Bowling Green, on the various proposed approaches to the Williamsburgh and Manhattan bridges, may be summed up in three parts. First, the Local Improvement boards reaffirmed the action previously taken by the Board of Estimate and Apportionment, as to the widening of Delancey st to 150 ft. from Suffolk to the Bowery, and a bridge plaza 200x300 ft., at Delancey and Clinton sts. This action meets with general approval. No debate was called for. Secondly, the matter of widening Chrystie st, from Houston st to the plaza of the Manhattan bridge, and widening the Bowery from the plaza to Chatham sq met with no opposition from the large delegation present, but was laid over to the next meeting for fuller consideration of the width required to contain the tracks of the 2d av "L" road, and the consequent cost of the property to be acquired. Thirdly, there was much debate as to the widening of Clinton st, and this matter also was laid over for further consideration.

At the close of the hearing Mr. Charles B. Stover, chairman of the committee appointed to represent the conference of east side organizations and interests, which have combined with the hope of securing the right solution of all the problems involved in these large improvements, was questioned for the Record and Guide as to the general merits of the movement, with the result of disclosing a startling situation in regard to the improvements on and under Delancey st.

"To answer that question satisfactorily," said Mr. Stover, "I must call attention to the terminal construction of the bridge, as it may plainly be seen by anyone standing to-day at Clinton and Delancey sts. There before you rises the bridge approach, divided longitudinally into five sections, of which the two outer ones are intended for vehicles, the inner two for surface cars, and the central one for three different classes of traffic, to be accommodated at three different levels, to wit: pedestrians, on the bridge floor; bicyclists on an intermediate floor about 10 ft. over the heads of the pedestrians; and thirdly, elevated trains, at a height of about 30 ft. above the bridge floor.

"Recently, as I saw the work on the tall iron pillars, intended to support the elevated tracks, nearing completion, I was forced to ask myself, at what point on Delancey st will tracks from a height of 30 ft. at the bridge terminus come to grade, and how and where will Chief Engineer Parsons' plan of a subway, connecting these elevated tracks with the main subway in Elm st, be carried out? For it must be noted that in his report on a comprehensive plan of rapid transit, submitted to the Board of Rapid Transit Railroad Commissioners, March 12, 1903, Chief Engineer Parsons very wisely proposes to extend the elevated tracks of the Williamsburgh Bridge, by a subway under Delancey st, to various points. But inasmuch as the large scheme, of which this is but a part, includes a tunnel to Maiden lane and, under the East River, to Brooklyn, all of which would require three years for completion, Mr. Parsons therefore hastens to add:

"It is hoped that the Williamsburgh bridge will be opened for traffic during the present year. Some temporary arrangement must, therefore, be made to utilize the opportunity for additional service thus offered. This can be done by extending the elevated tracks over the 2d and 3d Ave. Elevated lines along Delancey st to the Bowery, and thence along the contemplated continuation of Delancey st to Elm st; thus making a connection for transfers to both the East Side Elevated lines and the subway."

"If this plan of Mr. Parsons be adopted, then clearly ordinary foresight demands that we ask where, after the temporary 'L' structure in Delancey st has played its part and is removed, the tunnel that is to take its place will emerge on Delancey st to connect with the elevated tracks on the Williamsburgh Bridge, inasmuch as on this important point depends whether Clinton or some other street should be widened. This question I have put to several leading engineers and I find that they radically differ. Some say the elevated tracks on the bridge can be got underground even at a point east of Clinton st, so that this street might safely be widened. This assertion clearly implies, as is admitted by those making it, that the tracks which are now 30 ft. in the air, will have to be greatly lowered; in other words, THE BRIDGE STRUCTURE WILL HAVE TO BE RADICALLY REMODELED AT GREAT COST. Others tell me that never can the 'L' tracks be got below the surface before reaching Clinton st, and that this street may not be the one to be widened. I beg leave to say that it does seem to me, that in this very important matter, the city is moving in the dark, and that the time to dissipate the darkness is now.

"Hoping to throw some light on the situation, I offer the following suggestion: 'Don't build the temporary elevated structure from the bridge through Delancey st to Elm st, but instead immediately construct a tunnel on this route.'"

Among the considerations in favor of this course mentioned by Mr. Stover were the saving of the cost of a temporary structure and of the cost of reopening the street and reexcavating for the tunnel, for presently the houses on the south side of the street must be removed for the widening of the street, and to lay out the tunnel in that long stretch of cellars would be far more economical than to fill them in, grade and asphalt the new street, and later rip it open and excavate the tunnel.

Mr. Stover, finally, called attention to the possibility of dispensing with the bicycle roadway, as such, and placing the elevated tracks upon it, seeing that the so-called bicycle roadway, even now, comes to grade at Clinton st. This seemed to make the underground approach feasible, without a radical reconstruction of the bridge. If, as was probable, the bicycle floor at present is too weak to support the elevated trains, perhaps to strengthen it would be a better plan than to bring down the elevated tracks by a more radical remodelling of the roadway.

## Mr. Thompson Continues Superintendent.

Superintendent Henry S. Thompson of the Bureau of Buildings is not disturbed by the reports in the daily press that the Civil Service Commission has struck his name off the city payroll. If the commission has done this he does not know it. Corporation Counsel Rives has not been told of it, and nobody seems to know anything about it but Madame Rumor.

If by any slip of the pen the Commissioners did cross off the name of Mr. Thompson, they have rectified the mistake since. The Superintendent continues his duties and will doubtless receive his salary at the proper time.

"I have received no official notification of the action which the commissioners are reported to have taken," he said to the Record and Guide yesterday, "and so I have done nothing about it. I

haven't even spoken to President Cantor about it, and I have nothing to say."

Corporation Counsel Rives has been asked by the Board of Civil Service Commissioners if they had any jurisdiction, and has informed them that it is no affair of theirs. It may be added that all the acts of Mr. Thompson as Superintendent are valid. This includes his appointment of a private secretary.

To the Record and Guide Corporation Counsel Rives said yesterday that he had not been informed that the name of Mr. Thompson had been erased from any payroll. The Civil Service Commission had asked for his opinion, and he had informed them that they had no jurisdiction. No proceedings affecting Superintendent Thompson had been taken, so far as he knew.

## Improving Social Conditions.

REALTY CORPORATION FINDS CONSTANT DEMAND FOR TWO-ROOM APARTMENTS—BLOCK OF NEW BUILDINGS IN BROOME STREET.

Plans have been filed for a full block of new tenment houses in Broome st, between Allen and Eldridge. It is rather an interesting development in this era to find an entire East Side block taken up in this way. Rarely is an operator in that quarter successful in putting through a string so long. The owner is Harris Fine, of 309 Henry st, and his architects are Messrs. Horenburger & Straub, of 122 Bowery. The buildings will take in the southeast corner of Eldridge st and the southwest corner of Allen st, and cover eight lots, Nos. 275 to 289 Broome st. They will consist of four 6-sty flats, with ground dimensions of 44x77.9 for the corner houses, and 44.2½x44.6 for the inside ones. The estimated cost is $170,000.

Amid surroundings not very ornate, the new block will constitute a distinguished innovation; a mark for other builders in the quarter to equal; another evidence that it pays to build right. The exceptionally commodious stores to which the ground floor will be devoted will rent at good figures, as will the apartments. Some of the apartments will contain five rooms, the others four, with a bathroom for each apartment, besides hot and cold water. The fireproof halls, with tiled floors and marble treads for the staircases, will be heated by the landlord. Interior courts are 25 ft. wide, outer courts 13 ft. wide, with at least one window in every room. The outer court or yard will be clear from street to street, which will ensure free circulation of air through the block. The best apartments will have living rooms as large as 11x16 ft.; in others the living rooms will be 11x13½ ft.; no bedrooms will contain less than 72 sq. ft.

For interior trim there will be oak in the main living room, and mostly cypress elsewhere; while the walls throughout the houses will be decorated; in the rooms, painted; in the halls, hung with burlap. For the stores, there will be metal ceilings. Red pressed brick, limestone and terra cotta will compose the exterior facing of the houses, whose general appearance inside and out will be very agreeable. Owing to labor troubles, the demolition of the old buildings on the site has been suspended.

THE FINANCIAL SIDE.

Results attending the management of the City and Suburban Homes Company's model tenement property show how absurd is the idea that working people do not appreciate good surroundings. In the company's West Side buildings the loss from vacancies during the past year was but 3 1-3 per cent., and the loss from irrecoverable arrears, 0.44 per cent.; i. e., less than one-half of 1 per cent. of total possible rental. From the 1st av estate the losses from vacancies were 5.32, while the losses from bad debts were thirteen one-hundredths of one per cent. of total possible rental. The company now has almost three million dollars invested, chiefly in model tenements in the city, and dividends of 4 per cent. have been paid.

The Tuskegee, is the name given to the company's model tenement for colored people, which is situated at 213 and 215 West 68th st. The situation is on a street that marks one of the boundaries of the most densely populated blocks in New York City. These buildings were opened in September, 1902, and by the 31st of October were completely filled. The colored people have proved themselves good tenants, as the loss from bad debts during the six months from October 31, 1902, to April 30, 1903, has been only 1½ per cent. of the total possible rental. The buildings in their sanitary features and provisions for comfort are exactly similar to the company's model tenements for white people, and the rentals are the same.

The company's new buildings on the Avenue A frontage, between 78th and 79th sts, were begun in February, 1902, but owing to various strikes and difficulty in getting the proper supply of materials their completion has been much delayed. The company has had practically similar experience with its new buildings on East 64th st. These buildings will probably be ready for occupancy by June 15, and the Avenue A buildings by July 1. In these new East Side buildings there will be a larger proportion of two-room apartments, as there is constant demand for this type of home, particularly from young married people and from elderly persons whose families have grown up and left them. It is the company's experience that vacancies in two-room apartments are always fewer than in three and four-room apartments, consequently the loss of rentals from the new buildings ought to be smaller than from those already constructed.

During the year the company decided to offer its services as manager of tenement properties owned by outside parties. It was felt that the successful record of its own management might attract other landlords, and that helpful service could at the same time be extended to a vast number of tenants who now live in tenements indifferently administered. A corps of young ladies has been trained for this purpose, and it is expected that practical good will result from this new departure to both landlord and tenant.

President Gould says the situation of the company is excellent. Its work has been fruitful to the community and the financial results of its operations have been satisfactory. The City and Suburban Homes Company was organized in 1896 and commenced active operations in 1897. The officers and directors are: President, E. R. L. Gould; Vice-President, Charles Stewart Smith; Chairman Board of Directors, R. Fulton Cutting; Treasurer, Isaac N. Seligman; Assistant Treasurer, George W. Young; Secretary, G. W. R. Fallon; Joseph S. Auerbach, Frederick G. Bourne, John D. Crimmins, R. Fulton Cutting, W. Bayard Cutting, Elgin R. L. Gould, Adrian Iselin, Jr., D. O. Mills, Isaac N. Seligman, Charles Stewart Smith, Alfred T. White and George W. Young. The annual meeting of the company was held on Monday, May 25, 1903, at three o'clock. The president of the company, Elgin R. L. Gould, occupied the chair. The president's annual report was presented to the meeting. It was ratified, and the retiring directors, R. Fulton Cutting, D. O. Mills, Adrian Iselin, Jr., and Elgin R. L. Gould were unanimously re-elected for a period of three years.

The successful management of the City and Suburban Homes Company affords a sound basis for encouragement to all those who are working for the improvement of social conditions.

## Questions and Answers.

CONVEYANCE.

*To the Editor of* THE RECORD AND GUIDE:

A died intestate, leaving a widow and one child (a stepchild to this woman). He left a house and a small amount of cash. The widow administered on his estate. The child subsequently, and after the issuing of letters of administration, conveyed the house to her stepmother at a price which was agreed upon by both, and took back a purchase money mortgage for a portion of her share. What I desire to know is this: Is the conveyance to the mother good, or does the fact of her being administratrix at that time prevent her from acquiring a good title to it? The daughter subsequently to the conveyance gave her mother a general release, discharging her from all claims as administratrix.

Answer.—The conveyance is good if the daughter was not a minor.—Law Editor.

PARK ASSESSMENTS.

*To the Editor of* THE RECORD AND GUIDE:

Will the property-owners of houses in 34th, 35th, 36th and 37th sts, also those owning property on the avenues, be assessed for the park which the city intends to have from 2d to 1st av, between 35th and 36th sts? If so, about how much will the assessment be?

Answer.—The assessed value of the property to be taken for this park, according to the tax rolls in June, 1901, was $441,500. The expense of acquiring the park will be borne by the city at large, and there will, therefore, be no local assessment.

COMMISSION.

*To the Editor of* THE RECORD AND GUIDE:

Will you kindly tell us, through your Record and Guide, what the right and customary commission would be on renting a furnished apartment for a tenant, for a less term than a year, say, three or four months?

Answer.—It is a matter for special agreement, but 2½ per cent. of the rent is most often charged.

SOUTH FIFTH AVENUE.

*To the Editor of* THE RECORD AND GUIDE:

Please answer in next issue of Record and Guide if the city is going to widen South 5th av, as we own property in that vicinity and have heard a certain rumor to that effect, and if so, what section thereof?

Answer.—We presume upper West Broadway is meant, as this was formerly South 5th av. There is nothing of record inaugurating any movement for the widening of the street.

COMMISSION.

*To the Editor of* THE RECORD AND GUIDE:

A real estate broker or agent has full charge of property, renting and collecting. He rents a house to Mr. Jones for $35 a month, for one year, gets his commission, 2½ per cent. gross, and the next year tenant remains on as before. Has the agent a proper right to charge 2½ per cent. again, and every year they remain as tenants?

Answer.—No.—Law Editor.

On Wednesday, June 10th, L. J. Phillips & Co. will sell in partition at the Real Estate Salesroom, 161 Broadway, the 4½-sty building, lot 27.6¾x103.9x irregular, at No. 62 University place Maps, etc., at the office of the auctioneers, No. 158 Broadway.

## Gossip of the Week.

### Mr. Meyer's Great Lot Sale.

The trustees' sale on Thursday, May 21, conducted by Mr. Peter F. Meyer, at the New York Real Estate Salesroom, of 480 lots in South Brooklyn, was a gratifying success to his clients. The sale was made for William H. Langley and William F. Dunning, trustees of the estate of William C. Langley deceased. The lots are situated on 3d, 4th, 5th and 6th avs, and 62d, 63d and 64th sts, Brooklyn. Streets have been opened through all and some are sewered. The prices obtained were fair; lower than in 1899, when they had a prior sale. In all, Mr. Meyer has sold 16,000 lots in that section since 1888.

From the Langley estate lots have been sold through from 32d to 76th st. It is expected that in the early fall there will be another sale for the Hunt estate. These two are the last large estates left undivided in that section of the city, which is now having a rapid development.

## Real Estate Notes.

Karst & Karst, real estate brokers, succeed John D. Karst, Jr., at the old stand, 2051 8th av.

Joseph L. Buttenweiser is the buyer of 136 to 142 West 16th st and 137 and 139 West 25th st, reported recently.

A map showing a street system for Ingleside and vicinity, Borough of Queens, has been officially adopted.

Sarah J. Wyckoff-Bent informs us that the northeast corner of 6th av and 14th st, and 61 West 14th st have not been sold. They were reported sold in our issue of May 9th and 16th.

Samuel H. Martin, real estate broker and agent, to better accommodate his growing clientele has enlarged his offices at 150 Columbus av, where he has the best of facilities for the dispatch of business.

Authority has been granted for the opening of Palmer av from Richmond av to Heberton av, in the Third Ward of the Borough of Richmond. The Borough President is to put a sanitary sewer through the street immediately.

Bell & Eldridge succeed Andrews, Bell & Co., with handsome and well equipped offices at 500 5th av, cor 42d st. Mr. Edwin Q. Bell has been established for ten years as a realty broker, and Mr. Douglas B. Eldridge was associated with the late firm of Andrews, Bell & Co.

The city has purchased the Old Sailors' Home at 188 and 190 Cherry st, as part of the site of the anchorage of the new bridge, and the building will soon be demolished. Condemnation proceedings are now being instituted by the city for the same purpose against most of the property bounded by Cherry, Pike, Monroe, and Market sts, in which block the Sailors' Home has stood since 1842.

The sewer in Pine st, Manhattan, between Broadway and William st, is to be reconstructed. With a great increase in the number of large office buildings in the neighborhood, the old sewer in the street has been outgrown, being now incapable of providing for the proper drainage of all the buildings, and it is intended to replace it with a larger brick sewer. The improve-

ments will cost only about eight thousand dollars, but it will benefit property worth sixteen millions.

Comptroller Grout is preparing for a tax sale in all of the five boroughs of Greater New York, at which property will be sold for arrears of taxes. It will be the biggest sale in the history of the city. The total of the assessments outsanding in the five boroughs is $41,493,898.27. To this sum will be added the arrears for 1902 and the arrears for water taxes for the year 1901, a statement of which has yet to be made up.

The old Mapes estate in the Chester district of the Bronx is developing rapidly, being now well built up. Over a mile more of new sewers have just been authorized for this locality, to extend through Adams pl, between Columbus and Rosedale avs; Rosedale av, from the N. Y., N. H. & H. Railroad to Tremont av; West Farms rd, Rosedale av to Clason Point rd; Commonwealth av, West Farms rd to Merrill st; St. Lawrence av, West Farms rd to Mansion st; Mansion st, Rosedale av to Clason Point rd; Merrill st, Rosedale av to St. Lawrence av.

The Board of Estimate has determined that half the cost of opening and extending 3d av, Brooklyn, from 60th st to the Shore road shall be borne by the city. The total estimated cost is about $171,000, of which $127,000 was for land. The proceedings involved the taking of about three hundred parcels, including small portions of several buildings. The city will also stand 50 per cent. of the cost of opening and extending West 230th st, from Riverdale av to Broadway, Borough of the Bronx, in addition to the sum already assessed against the city for acquiring certain buildings along the line of the improvement.

The local necessity for widening 59th st is said to be caused principally by the narrow roadbed, which in some places is only 28 ft. 6 ins. from curb to curb; 14 ft. 3 ins. is taken up in the center of this by the car tracks, leaving 7 ft. 3 ins. on each side for wagons or trucks to pass. The street cars must stop directly when a truck or wider wagon halts to deliver goods or for any other reason. Mr. A. Wiggers, of 209 East 59th st, thinks this trouble can be remedied by taking 2 or 3 ft. from each of the sidewalks, as where the space for wagons and trucks on each side of the car tracks is 8 or 9 ft. wide, the street railroad cars can pass every truck or wagon standing there.

The plans for the Blackwell's Island Bridge, approved by the Board of Public Improvements and by the Board of Aldermen, provided for taking a strip of 160 ft. in width between the East River and Academy st, Queens, at its intersection with Hunter av, except that the width acquired at the anchorage pier and the pier at the easterly side of the river was somewhat greater. It is now recommended by the Commissioner of Bridges that the width of this strip be increased to 300 ft. by the addition of 70 ft. on each side. This addition is asked for on the ground that it would be most unfortunate to have the land immediately adjacent to the bridge occupied by structures which would shut it in and increase the risk of damage to the bridge in case of fire. Chief Engineer Lewis, of the Board of Estimate, has made a favorable report. The cost of the additional land is estimated at $67,000.

# The World of Building

## Building Operations.

The remarkable interruption of business in building trades has many phases, one of which is observable in the offices of architects, where work has in many places come to an end through owners putting off contemplated operations. In a number of cases proceedings were stopped after plans had been filed. Few are giving or receiving estimates for construction, not caring to take chances with the future.

### Marblework in the Hall of Records.

CHAMBERS ST.—The contract for putting in marble walls and ceilings in the new Hall of Records has been let by the Board of Estimate and Apportionment to John Pierce for $225,000. Thomas Dwyer, who is doing similar work in Brooklyn Hall of Records, was one of the bidders.

### For West Washington Place.

Horenburger & Straub, of 122 Bowery, are making plans for a 6-sty apartment house to be situated at 82-86 West Washington place, with dimensions of 65.8x84. In every apartment there will be rooms larger than usual, trimmed in hardwood, columnar style. The halls will be very wide, and wainscotted in marble. For each floor two 7-room apartments and two 5-room apartments are laid out. The facade will have a bay, and be laid up in red brick and limestone. Samuel Mandel, 233 Henry st, is the owner, and the reported cost is $75,000.

### The Vanderbilt Porte-Cochere.

5TH AV., n. w. cor. 51ST ST.—President Cantor has ordered the removal of the porte-cochere, now in course of construction at the George W. Vanderbilt house, 640 5th av, northwest corner of 51st st. The builders and Mr. Vanderbilt's counsel objected to this decree on the ground that the plans of Hunt & Hunt for extensive alterations to the premises, including the addition of the porte-cochère, had been approved by the Building Department. However, President Cantor declares the porte-cochère is a violation of the building ordinances and must come down. The matter is now before the Bureau of Incumbrances.

### New Pelota Court.

110TH ST.—V. Hugo Koehler, architect, 11 Broadway, has completed the plans for a pelota court building to be built on the north side of 110th st, 200 ft west of 7th av, a plot 250x171.10. The new structure will be devoted to the Spanish game of ball. It will be 70 ft high, contain two galleries and have a seating capacity of 7,000. It is to be of brick, skeleton steel framework and thoroughly fireproof. The following builders have been asked to submit estimates: Thompson-Starrett Co., Geo. A. Fuller Co., Remington Construction Co., Wells Bros. Co., and John McKeefrey. Antonio Andujar, 138 Front st, is the owner. The cost will probably exceed $350,000.

For plans filed see pages 1098 and X.

### Lexington Av. Church.

LEXINGTON AV.—John G. Michel and P. Brandner, 49 Liberty st, the successful competitors for the new St. Peter's German Evangelical Lutheran Church, will have plans and specifications ready for estimates about June 8. The edifice will be on the southeast corner of Lexington av and 54th st. It will be 56x80 ft, Gothic style, with exterior walls of limestone. The basement will be sub-divided by rolling partitions for Sunday school use. The main auditorium will be 8 ft. above street level and have a seating capacity of 650, including the gallery. There will be a steel skeleton frame supporting the walls of clerestory and transept. A corner tower of stone will rise to a height of 95 ft. and from there an octagonal shaped steel skeleton spire will extend to a height of 140 ft. above grade level. The interior woodwork will be of quartered oak and gas and electric fixtures of bronze. The cost will amount to over $90,000.

### Seminary for the R. C. Diocese of Long Island.

The Right Rev. Bishop Charles E. McDonnell, of the R. C. Diocese of Long Island, last week finally acquired legal possession of the Conklin estate, consisting of eleven hundred acres in the "Half Way Hollow Hills" district in the townships of Babylon and Huntington L. I. The Bishop will now carry out his long cherished plans for establishing several colleges and seminaries throughout his diocese. The Conklin estate, in size and natural beauty, is well adapted to this purpose. A large portion of the property is still unimproved, but many miles of fine and interesting drives may be laid out with but little work. Bishop McDonnell intends to establish the diocesan seminary here, and it will be on the general plan of Dinwoddie. No architect has as yet been selected, though it is hoped to begin work in the near future. One feature of special interest during the Bishop's recent silver jubilee was the presentation to him of a purse containing $100,000 with which to erect the new seminary. To this amount will be added $200,000, making the total cost of the building and equipment $300,000.

### Erie Railroad's Improvements.

Many reports have been seen regarding the Erie Railroad's improvements at West and Chambers sts. Inquiry seems to prove that these are either premature or exaggerated. The company has in preparation plans for an office building to be located on this site, and for a bridge across West st connecting it with a new ferry house. This bridge plan has been approved by the Local Board of Improvements, and will come before the Board of Estimate and Apportionment in the near future. The plans for the office building are still immature, the company not as yet having acquired the site. We are informed that in the architectural and engineering departments of the company the work is still in an undetermined state. Doubtless, if the scheme is carried through it will relieve conditions at the foot of Chambers st.

Plans are now being prepared for a new ferry-house to take

the place of the one at the foot of West 23d st. It will be a 2-sty building, 180 feet frontage, with a depth of 270 feet, with an exterior of corrugated iron and copper. Plans are also in preparation for a 2-sty brick warehouse, 400x46, to be built on the north side of 28th st, from 11th to 13th avs. The yard will extend from the warehouse to 29th st, thus the entire two blocks will be utilized by the company. The foundations will be laid to support a 4-sty building, as eventually two more stories will be added. When plans and specifications for the ferry-house and warehouse are completed, they will be submitted to local builders for estimates.

### Mercantile.

CANAL ST.—Benjamin B. Johnston will erect a mercantile building on the triangular plot at 410 to 416 Canal st, 62 to 66 Varick st and 18 Laight st, a plot containing about ten thousand square feet. The building has been leased to the Crucible Steel Co. of America for a term of years.

BROOKLYN.—George L. Morse, Eagle Building, Brooklyn, has commenced the plans for a 7-sty, basement and sub-basement, fireproof building, 92x50, to be built at Remsen and Clinton sts for the Brooklyn Heights Railroad Co. Above the basement the exterior will be of brick and terra cotta. The building adjoins the present offices of the company, a 5-sty building, and will be occupied entirely by them. When the new one is completed the combined structure will have a frontage on Clinton st of 184 ft. and on Remsen and Montague sts of 50 ft.

### New Apartments, Flats and Tenements.

AMSTERDAM AV, S. E. COR. 166TH ST.—Ludlow & Valentine, architects, 100 Broadway, are preparing plans for a 6-sty apartment house with stores, to be built on the southeast corner of Amsterdam av and 166th st, a plot 104.7x100. The building is to be equipped with electric elevator, dumb waiters, usual plumbing, etc. The exterior will be of Indiana limestone for two stories, and brick trimmed with Indiana limestone above. Trim throughout will be of oak. The work will be started as soon as the present strikes in the building trades are settled. Walter A. Dick is the owner.

111TH ST.r n. s., 212.6 w. of Amsterdam Av.—John Hauser, 1961 7th av, i making plan for a 6-sty brick tesement, 62.6x87.11, to be built at a cost of $75,000, on north side of 111th st, 212.6 wet of Amsterdam av. Emanuel Doctor, 410 East 66th st, i the owner.

STANTON AND ATTORNEY STS.—Geo. F. Pelham, 503 5th av, is making plans for a 6-sty brick tenement, 56.3x56.2, to be built on the southwest corner of Stanton and Attorney sts for Charles I. Weinstein, 1531 Madison av.

5TH AV, e. s., 25 s. of 120TH ST.—Neville & Bagge, 217 West 125th st, are making plans for two 6-sty brick tenements, 37.9x87, to be built on the east side of 5th av, 25 ft. south of 120th st, for Myer Cohen, 91 East Broadway, at a total cost of $100,000.

111TH ST.—Max Liebeskind, 36 West 115th st, will erect a 6-sty apartment house, 62.6x87, four families on a floor, on the north side of 111th st, 150 ft. west of Amsterdam av. George F. Pelham, 503 5th av, is drawing the plans. The front will be of brick and terra cotta, and the building will cost $70,000.

### Alterations.

105TH ST.—Ludlow & Valentine, architects, 100 Broadway, are making plans for alterations to the West End Presbyterian Church, 105th st and Amsterdam av, of which the Rev. John Balcom Shaw is pastor. The pans include alterations to the pulpit, organ, and a new choir gallery; they will be finished in about a week, when they will be submitted to local builders for estimates.

### Estimates Receivable.

ALBANY, N. Y.—John Dyer, Jr., Tweddle Building, Albany, has the general contract for erecting the 8-sty brick addition to the Hotel Ten Eyck at an estimated cost of $100,000.

### Brooklyn.

FULTON ST.—Plans for the new Superba bowling alleys to be erected by C. H. Ebbets and T. C. Carruthers at Fulton st and Franklin av, have been approved by the building department and ground will be broken at once in order to have the structure completed for the opening of the season on Sept. 1 next. Strauss & Charig, 473 Tompkins av, are the builders, and they promise to turn the building over to the alley constructors within sixty days. There will be sixteen alleys in all, level with the street, and so arranged that half a dozen clubs may occupy them of an evening in addition to the open or tournament games. A new departure will be introduced in the shape of two sets of tournament alleys, separated by a wall and having each a seating capacity of 300 spectators. The club alleys will also be separate. The building will be one-story on the Fulton st side and two stories on Franklin av, the whole covering an area of about 23,000 square feet.

### Miscellaneous.

WASHINGTON, D. C.—Lord & Hewlett, 16 East 23d st, New York, are preparing plans for a 5-sty marble, steel, fireproof, agricultural building, 200x400, for Washington, D. C. Cost, $1,500,000.

BROOKLYN.—The congregation of the Sixth Av. M. E. Church has decided to erect an edifice at 8th st and 6th av, at a cost of $60,000. Rev. Wellesley W. Bowdish, pastor.

LONG ISLAND CITY.—No contracts were awarded May 19 for erecting the Carnegie Libraries at College Point, Astoria and Far Rockaway, as all bids were too high, lowest being $7,000 above the amount set aside for building.

5TH AV.—We hear that owing to the labor troubles the erection of the new Brunswick Hotel has been postponed for a year. The building was to be erected on the east side of 5th av, from 26th to 27th sts a plot 197.6x130. Hiss & Weeks, 111 5th av, are the architects, and the General Building and Construction Co. the general contractors.

### Suburban.

JERSEY CITY, N. J.—The Hudson Co. Bd. of Freeholders has appointed Frederick Dashe, of Arlington, as engineer to act in conjunction with Engr. Jas. Owen, of Essex Co., to prepare plans and specifications for rebuilding the new draw over the Passaic River at Bridge st.

RICHMOND HILL.—The German Lutheran Evangelical Society of Richmond Hill have purchased 4 lots on Maple st on which to erect a church.

### In Other Cities.

TRENTON, N. J.—The Jordan L. Mott Iron Co. will build three 4-sty brick buildings on Hancock st, near Lalor st. They will be a carpenter shop, 50x160, to cost $14,000; enameling shop, 80x160, to cost $16,000; and a brass foundry, 50x300, to cost $24,000. W. J. & J. H. Morris have the contract.

NEWARK, N. J.—Building permits have been issued for the following: Four-sty brick office building at 18 Bruen st; Blanchard Bros. & Lane, owners; cost $2,000. 3-sty frame dwelling on Cortlandt st; Frank Willetts, owner; cost, $4,300. Five 3-sty brick dwellings on Elizabeth av and Alpine st; West End Homestead Co., owner; cost, $31,000; architects, John H. & Wilson C. Ely. Plans are being made by Jeremiah O'Rourke & Son for a 6-sty brick warehouse and stable to be erected at 354-356 Plane st, for William M. Clark; cost, $40,000. A. D. Heyne is preparing plans for a 4-sty store and flat building to be erected on the northwest corner of Broad and Wright sts for Gustave Lachenauer. It will measure 100x70, and cost $10,000.

MERIDEN, CONN.—L. W. Robinson, of New Haven, is drawing the plans for the administration building to be erected in Meriden for the Antituberculosis Society. He is also engaged upon the plans for the brick building for the Hospital Society. An appropriation of $20,000 was recently made by the legislature.

NEW HAVEN, CONN.—Brown & Von Beren, of New Haven, have prepared plans for a 4-sty brick building for the Little Sisters of the Poor to be built on Winthrope av at a cost of $65,000. The new structure will be used as a dormitory and fitted up with a temporary chapel, kitchen, laundry, etc.—L. W. Robinson will draw plans for a large addition to the Union schoolhouse, at Union and Central avs, West Haven.—Richard Williams will draw the plans for a residence, 26x46, at Dwight and Elm sts, for D. J. Lloyd.—Brown & Von Beren will draw plans for a two-family house, 30x50, for Charles J. Henze. They will also draw plans for a house, 27x50, to be built on Bishop st for Adam Lichteig.

NEW BRITAIN, CONN.—George Spurr is having plans prepared for a new brick business block adjoining his building in Church st. The building will be 130x25.

CORNING, N. Y.—J. Foster Warner, of Rochester, has completed plans for a new court house to be built at Corning. The cost will be in the neighborhood of $25,000. A site has been secured from the county.

ST. LOUIS, MO.—Architect Edward T. Hapgood, of Hartford, will design the Connecticut State Building at the St. Louis Exposition. The design will be an adaptation of the Sigourney mansion in Hartford, and plans will be completed in about two weeks.

HARTFORD, CONN.—The Travelers' Insurance Co. have been granted a permit to build a 3-sty brick building, 44x70, at 57 Grove st.

DEAL BEACH, N. J.—The Atlantic Coast Realty Company has sold a block near the Deal railroad station for a site for the new Catholic Church. The work of construction will be begun about October 1. Plans are now being made by a Philadelphia architect. Rev. Father J. W. Morris, of Bishop McFaul's House, Trenton, will have charge of the parish, which is one of the wealthiest in the State, including Interlaken, Allenhurst and Deal. Daniel O'Day, president of the realty company, and a vice-president of the Standard Oil Company, has headed the subscription list of the new church with $10,000.

BROCTON, N. Y.—E. A. Curtis, of Fredonia, has completed the plans for the 50x50 memorial library for Brocton, N. Y. G. E. Ryckman has donated the site and E. J. Bailey has submitted an estimate of $9,000 for erecting the building.

ATLANTIC CITY, N. J.—Architect Vaughn, of Atlantic City, is preparing plans for a 3-sty store and apartment building. The first story will be devoted to stores. There will be three apartments on the second and third stories, each containing eight rooms. Plans will be submitted for estimates.

LYONS FALLS, N. Y.—Frank Haskins has the contract for building the 2-sty, 50x70, opera house for Philip Burkhardt, on the site of the old Walton House. Elmer J. Adams has the contract, including heating and plumbing, for the parsonage of Forest Church. The building will be 36x48, with an "L" 16x18. It will contain 13 rooms, including two bathrooms.

BEECH CREEK, PA.—The school directors have voted to erect a school building. The committee on designs and plans consists of F. P. Trexler, G. D. Hess and E. C. Bullock.

ELIZABETH, N. J.—The Loomis Pettybone Machine Co. will erect a manufacturing plant on the Linden racetrack near Elizabeth, which they recently purchased for $37,000. The new plant will cover 80 acres and ultimately cost $5,000,000.

NEW BRITAIN, CONN.—Mrs. Josephene M. Judd has donated the sum of $20,000 for erecting a gymnasium for the New Britain Y. M. C. A. One of the directors of the association has an option on a lot adjoining the Y. M. C. A. building, and it is understood it will be purchased as a site for the new gymnasium.

EAST ORANGE, N. J.—Thomas Attridge, of Orange, N. J., has the general contract for erecting the $20,000 chapel for St. John's Catholic Church. It will be located in Brighton av, east Orange. The new building is designed to be a complete church to fill the needs of the Doddtown neighborhood of East Orange.

NEWARK, N. J.—Alfred Peter, architect, Newark, has filed plans for a 4-sty brick dwelling with stores, to be built at 15th av and Bruce st, for H. Buerman. It will be 55x57 in size and cost about $22,000. The upper floors will be divided into flats. According to the specifications the equipment will be first-class, modern devices and improvements being called for.

NEW HAVEN, CONN.—L. W. Robinson, of New Haven, is preparing plans for a $30,000 brick residence, 28x78, to be erected on St. Ronan st for J. Edward Heaton. It is to be a colonial structure with tile roof. Plans will be ready for estimates early in June.

ROCHESTER, N. Y.—The Wilder estate will build a new theatre, 72x114, on the site of the old Academy of Music. Hiram H. Edgerton has the contract.

SYRACUSE, N. Y.—William A. Hyle, of the firm of Hyle Bros. Steel Tool Co., Syracuse, has under preparation plans for a new manufacturing plant. The cost of the site, buildings and equipment will aggregate nearly $75,000.

NEW BRITAIN, CONN.—North & Judd Mfg. Co., will make an addition of an annealing room, 155x70, to their plant. The roof will be what is called metal expansion. A coating of ashes and cement is laid over the metal, giving the whole the resistance of adamant. The company will also build a 4-sty office building on the north side of East Main st.

UTICA, N. Y.—Olin W. Cutter and Ward & Turner, associate architects of Boston, will have plans and specifications for the Oneida County Building ready for estimates August 1st. The building will be 180x130, steel construction and fireproof throughout.

ELMIRA, N. Y.—The approaches to the U. S. public building at Elmira, N. Y., will be constructed by Ambrose B. Stannard, of New York City, for $5,500.

HARTFORD, CONN.—The contract for extending the U. S. public building at Hartford, Conn., has been awarded to Ambrose B. Stannard, of New York City, at $192,330; time, December 31, 1904.

NYACK, N. Y.—The Hastings Paving Co. is stated to have received the contract to pave 2,500 yds. with asphalt block on a concrete foundation at $2.25 per sq. yd.

WATERTOWN, N. Y.—Local press reports state that Warren Bros. Co., of Utica, N. Y., has secured the contract to pave with bituminous macadam, about 19,200 sq. yds. on State st, at $1.80 per sq. yd.; total, $41,895.

UTICA, N. Y.—Local press reports state that contracts for paving with asphalt on portions of 10 streets have been awarded to the Barber Asphalt Paving Co., at a total cost of $85,072; also the contract for repairing asphalt pavements during the season at $3,380. The Syracuse Improvement Co., of Syracuse, is reported to have secured the contract to pave with asphalt on portions of 5 streets, at a total cost of $47,364.

BINGHAMTON, N. Y.—City Engineer Monroe is preparing plans and specifications for paving, probably with brick, on portions of Conklin and Prospect avs, and on Clinton, N. Depot and Fayette st.

### Of Interest to the Building Trades.

It is a pity to see a good business year spoiled.

—Harry V. Berry of Port Richmond has been appointed a city surveyor.

F. M. Hausling, 614-20 East 14th st, has begun to tear down the old Y. M. C. A. building in 23d st and 4th av.

The capital stock of the Corbin Screw Corporation, formed at New Britain, May 2, is $400,000.

Arthur W. B. Wood, architect, of Garden City, L. I., has opened an office at No. 1 Madison av, Manhattan.

The construction work of the new Wanamaker store is to be under the supervision of W. L. Lewis as superintendent.

The corner-stone of St. Michael's Roman Catholic Church, 4th av and 42d st, Brooklyn, was laid last Sunday afternoon.

Mechanics ought to be willing to return a better day's work for shorter hours and longer pay, and not complain of being rushed when asked to do only the square thing.

The towing business on the Hudson River has been very dull so far this season. An official of the Cornell line charges it to labor troubles which have checked building and manufacturing, both here and elsewhere.

William E. Key, an iron worker, of 240 East 94th st, Manhattan, on Monday, fell from the top of the new gas meter for the Brooklyn Union Gaslight Company, at North 12th st and Wythe av, Williamsburgh, and received fatal injuries.

During the first quarter of the year the Bureau of Public Works for Manhattan Borough entered into 66 contracts, at an aggregate cost of $565,000. Forty of the contracts were for paving. The borough had at last report 414.19 miles of paved streets and 500.96 miles of sewers.

An alteration and improvement is to be made to sewers in 1st av, between 81st and 84th sts, and in 82d st, between 1st and 2d avs, that will cost about $12,000. An improvement to cost $8,000 will be made to sewers in 60th st, between Madison and 5th avs, and in 5th av, east side, between 60th and 61st sts.

An ingenious Brooklyn citizen, who has no regard for costs, throws out a tunnel solution for the Fulton st congestion. He would being his tunnel at the intersection of Sands with Liberty sts; follow under Liberty, Fulton and Court sts to Livingston st; thence to Flatbush av, where the tunnel would come to surface.

The Pittsburgh Plate Glass Company, having an idea that the waste material from its factories can be turned to account, is erecting at Kokomo, Ind., a plant in which to make glass brick. In experimental work the company has produced from waste sand, through hydraulic pressure, and without the application of fire, a building brick of reputed good quality, which may be colored to suit the taste. If the Kokomo brick factory should be successful, others will be built.

The United Engineering and Foundry Co., of Pittsburgh, installed recently a complete heating and ventilating equipment in the roll shop of the Lincoln foundry department. The apparatus, which was furnished by the B. F. Sturtevant Co., consists of a steel-plate exhauster direct-connected to a horizontal, side-crank engine. The exhauster draws air from out-of-doors through a large steam heater built up in sections of 1-in. pipe, one of the sections receiving the exhaust from the fan engine.

The Brooklyn Plasterers' Union seems to be determined to win the first place, even among plasterers' unions, for ridiculous eccentricities. The union has given notice of a demand, to be enforced by a strike, if necessary, that, after a given date, every two journeymen shall be accompanied by a "foreman," who is to be paid by the employer of the journeymen, but is not to be allowed to do any work himself, his valuable time being occupied in seeing the others work, and incidentally, in seeing that they do not do too much work in a day.

Previous mention has been made that the J. L. Mott Iron Works, of New York, are erecting at Trenton, N. J., a plant for the manufacture of plumbing goods of all kinds that in extent and equipment will, it is said, surpass any similar plant in the world. It will include brass and iron foundries, enameling works, machine and other shops adapted to their requirements. Announcement is now made of the incorporation of the J. L. Mott Company, at Trenton, N. J., with a capital stock of $3,000,000, the incorporators being identified with the New York concern.

## The Labor Situation.

No change of form and nature has occurred during the week's continuance in the action between the union of employers and the representatives of organized labor, but the line of defence seems stronger, while such movements as have occurred among the forces back of the Walking Delegates have disclosed indications of a return of sanity. Public disapproval weighs heavy in time, and the better elements in the unions are chagrined at the consequences of the mismanagement of their business agents. President Hammond, of the Brick Manufacturers' Association, said yesterday that probably enough drivers could be obtained in a couple of days to transport all the material required, but there was no assurance yet that there would he no discrimination at the buildings. The manufacturers and dealers are determined that discrimination against any material, no matter how carted, shall cease. No discrimination being a matter of principle, the mock clamor for a resumption of work on school buildings is not heeded; besides, there is other work quite as important. Material that was delivered at some schools was left untouched, because it was not brought by union drivers.

The organization of the Building Trades Employers' Association was completed this week, when the governing board consisting of three members each from thirty-five trades adopted a constitution, with by-laws, and elected the following permanent officers: President, Charles L. Eidlitz, electrical contractor; First Vice-President, Leonard K. Prince, iron manufacturer; Second Vice-President, Hugh Getty, master carpenter; Chairman of Board of Governors, Otto M. Eidlitz, general contractor; Secretary and Treasurer, William K. Fertig, marble trade industry.

The Board of Governors shall at the request of any member have power to decide all controversies, difficulties, and differences arising between the members of the association and their employees; to determine and regulate the conduct of the members of this association relative to such controversies, difficulties, and differences; to decide all disputes and disagreements arising between employers' associations represented on the Board of Governors and employees' organizations; also all controversies, difficulties, and differences arising between different employers' associations represented on the board.

In order to insure the compliance with and obedience to the decisions, orders, prohibitions, and regulations of the Board of Governors it is provided that all represented and individual members shall give bonds to the association.

The first appeal to the new board was by the masters and men of the cement working industry. The cement floor workers in Brooklyn had made demands which they were trying to enforce in one shop at a time. A lockout was then ordered by the employers in Brooklyn. Hearing of this the cement workers in Manhattan, or such as were employed, went on strike. The case has been referred to the new board for adjustment.

The Mason Material Dealers' Exchange of Brooklyn has been incorporated with the Secretary of State. Its purpose is "to foster and protect the interest of persons engaged in the business of dealing in masons' building materials in the Boroughs of Brooklyn and Queens; to secure freedom from unjust and unlawful exactions; to diffuse accurate and reliable information as to the standing of merchants and builders, and regarding other matters, and to settle differences between those engaged in said business." The directors are Audley Clarke, president; John Williams, secretary; Maillard M. Canda, Edward J. McLaughlin, J. Morton Halstead; Joseph H. Colyer, treasurer; William N. Kenyon, William V. Burroughs, vice-presidents; Ernest Braun, Jr., Charles Wenz, John C. Creveling, John H. Mahnken, Otto E. Reimer, of Brooklyn; and John B. Reimer, Jacob Pfeffer and James E. Clonin, of the Borough of Queens.

The wholesale lumber dealers yesterday, at a meeting in the managers' room of the Produce Exchange, took action in support of the Lumber Dealers' Association of New York, which has shut down its yards until the striking team drivers withdraw their demands. The meeting was attended by more than fifty wholesale lumber dealers, many of whom are affiliated with the New York Lumber Dealers' Association.

The strike of the Brotherhood of Carpenters having failed utterly, the department of labor to which they belong will probably make no trouble for some time to come. A great many members have deserted the union and joined the Amalgamated, but as the latter does not propose to find places for all who want to join, many Brotherhood applications have been refused.

"We feel that we have nothing in the way of favors to show the Brotherhood men," said Secretary Samuel Roberts of the Amalgamated. "We mean to treat them fairly and for that reason refuse to take their money for membership fees when we can not secure jobs for them. There are some Amalgamated men to be taken care of first. After these are all cared for we will consider applications from those who want to leave the Brotherhood and come into the fold. We have turned down $4,000 in fees in the last eight weeks."

Secretary Charles E. Cheney of the Iron League, regarded as one of the most convervative and informed leaders in the building trades, intimated this week, when speaking to a representative of the Record and Guide, that there would be a change soon. The men in the architectural iron line are returning to work. Two or three shops, which had really never shut down, have practically a full complement of men at work.

On Wednesday a number of laborers who were working in the St. Regis Hotel for Contractor Thompson, who has the plastering contract, went on strike for $3.50 a day. They were getting $3.25. Mr. Thompson consented to the advance, but requested an agreement for a specified time, which the laborers refused. The job was being done with prepared mortar.

Referring to the amusing pronunciamento of the United Board of Building Trades, charging the employers with conspiracy "for the purpose of suppressing competition," a prominent builder said: "So long as they kept silent we did not know what they were up to, but now they show unmistakable signs of weakness. Prosecute us for organizing, the very thing they most advocate, and for organizing not to browbeat or fight anybody, but to protect ourselves! We believe the unions are good things and necessary, but we must save ourselves from what is bad in them and we have no doubt the best of the men are with us. It is the petty tyranny we object to. And when this thing is settled we'll see to it that nobody in the business on any pretext whatsoever pays less than union wages."

One large contracting company has not yet come into the employers' association. Its president declines to commit himself on the matter, but it is explained outside that the company has contracts in other cities than New York, and is afraid of being embarrassed in them if it should take an open stand

against labor unions in New York. On the other hand, the big Thompson-Starett Company also has the whole continent to work in, but belongs nevertheless to the new society.

Ten thousand workmen in the building trades in Brooklyn are idle as a result of the lockout declared by the building material dealers in that borough.

One great annoyance to employers has been settled by the surrender of the Brotherhood carpenters, and that was their dictation as to where material for trim should be purchased. This question was one of the fundamental causes of the strike. The Amalgamated will put up any kind of trim, no matter where purchased.

## Material Market.

VARNISH.

Being asked as to the prospects of business, Mr. Max Wolf, treasurer of the Standard Varnish Works said:

"The future depends on the workingman, I do not think that can be given too much emphasis. If the wageworker demands what it is impossible to pay, it will affect business. He will not be the good spender he is now if he ceases to be an earner, as he may if he demands what cannot be paid. Already he has forced employers to band together to preserve even the little that remains to them of the power to direct their own business. Business in our line is better than ever. Collections never were so good as at present.

BRICK.

The strikes among the yard hands at Kingston have been ended without employers having to make any concessions. Most of the yards in that section are putting forth their full capacity, which for the time being is true of manufacturing in other districts. With building suspended altogether here, the market is in a poor way to be oversupplied when shipping is resumed. But the manufacturers and dealers contemplate the situation not without satisfaction, as at least an indication of the authority they hold in their hands. If brick men were as enterprising in bringing their goods before the public as are some other material lines, they would have less to complain of in the way of trade. A demand can be enlivened and greatly increased by judicious means, and the experience of the past few years should teach manufacturers and dealers that while brick are absolutely necessary for construction work, yet they can and are being displaced to a large extent by other materials. On the other hand, look at cement, observe how it is advertised and how it has swept everything before it of late.

CEMENT.

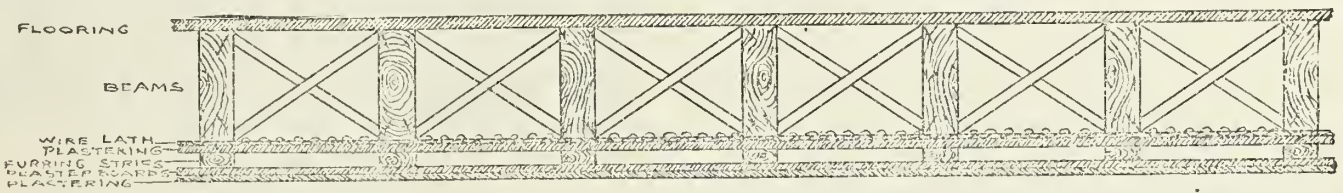
The question arose a fortnight ago in the case of a contractor who had signed to do a large job, what was meant by "best quality of American hydraulic cement," which was mentioned in the specifications. The successful bid had been made on the assumption that it meant natural or Rosendale cement, but the engineer claimed that it meant Portland. The authority to whom appeal was taken upheld the engineer, but said that if the specifications had been written twenty years ago it would have meant Rosendale, and he took the opportunity to point out that the term "best quality" was a very uncertain designation and unfair to the contractor, as it was a matter of opinion admitting of wide latitude.

A Government bulletin just issued describes in part the geological formation of eastern Pennsylvania. In co-operation with the authorities of Pennsylvania the United States Geological Survey intends to investigate the cement district of eastern Pennsylvania, chiefly Lehigh and Northampton counties, with a view to publishing large-scale geologic maps of that area. This work was in charge of Professors T. Nelson Dale and F. B. Peck.

—The Aqueduct Commissioners have allowed the New York Central Railroad Company $364,992.85 for taking certain real estate of the company, and also have agreed to furnish to the company a new right of way for the New York & Mahopac Railroad, for which condemnation proceedings are now pending. The water in the New Croton Reservoir when impounded behind the New Croton Dam will submerge tracks and rise on certain embankments and bridges on the main line of the New York & Harlem Railroad, on the New York & Mahopac Railroad and on the New York & Putnam Railroad, all of which are controlled and operated by the New York Central & Hudson River Railroad Company, and it will be necessary that a large portion of the railroad track be entirely reconstructed, several miles of track and embankment raised and riprapped and paved on both sides, four steel bridges raised, one steel bridge reconstructed and one station raised, and the location and route of the New York & Mahopac Railroad removed from within the boundaries of the reservoirs.

## New Building Regulations.

RED LEAD PROHIBITED.



An amendment to the rules and regulations for plumbing, drainage and water supply of buildings, in Manhattan Borough, requires that "all floor flanges of all sanitary fixtures and all connections between said fixtures and waste or soil pipes, where said connections are on outlet or sewer side of trap, shall be made without the use of red lead, putty, plaster, cement, or any other similar substance."

And section 106 of the rules and regulations for Plumbing, Drainage and Water Supply of Buildings has been made to read:

"All earthenware traps must have heavy brass floor plates soldered to the lead bends or, where brass or iron pipes are used, to be screwed to same and bolted to the trap flange and the joint be made gas-tight without the use of red or white lead or any similar substance or rubber washers, the use of which in the making of said connections is hereby prohibited."

FOR BAKERIES IN TENEMENT HOUSES.

The Tenement House Department, the State Factory Inspector, the Fire Department and the Department of Health have adopted new regulations in regard to bakeries and places in which fat is boiled in tenement houses. In tenement houses to be HEREAFTER ERECTED the ceiling shall be of iron beams and fireproof filling. In OLD tenement houses where there are wooden joists or beams above the bakery, such joists or beams shall be made safe by fireproof materials around the same in the following manner, or in such other manner as may be approved by the Tenement House Department:

A surface of metal lath continuous over the ceiling of the entire bakery shall be fastened directly to the underside of the joists or beams and plastered with at least one coat of plaster. Furring strips of fireproof material not less than 1 inch in thickness shall then be fastened on the surface of the plaster, to which shall be securely fastened plaster boards not less than half an inch in thickness, made of plaster and strong fiber, and covered with at least one coat of hard, smooth-finished white plaster. There shall be an air space of at least 1 inch between the layer of metal lath and the layer of plaster boards, and all joints shall be properly cemented and closed up.

There shall be no openings either by door or window, dumbwaiter shaft or otherwise, between the bakery and any other part of the tenement house. Access to the bakery can be had only from the street or yard, or from a court.

In tenement houses HEREAFTER ERECTED all walls and partitions shall be entirely of brick, stone, terra cotta or other fireproof material, and no wooden wainscoting, sheathing or other inflammable material will be permitted. In OLD buildings the side walls and partitions shall be made safe by fireproof materials around the same in the manner above described for ceilings in old buildings. In OLD buildings all exposed portions of wooden posts and girders shall be made safe by fireproof materials around the same in the manner above prescribed for ceilings in old buildings. The floors shall be of good quality cement concrete, covered with hardwood flooring or covered with tiles laid in cement. The height of ALL bakeries shall not be less than 8 feet.

Every bakery hereafter placed in a tenement house shall be provided with one or more windows opening directly to the street or yard, or upon a court of lawful size. In such there shall also be provided a separate and independent ventilating flue, immediately adjoining and above the open door, to which a ventilating iron hood shall be connected for the purpose of conveying from the balcony all gas fumes, etc. Such flue shall be of such size and construction as shall be approved by the Bureau of Buildings. All water-closets that shall hereafter be placed in any tenement house for the use of bakeries shall be entirely separated from the bakery.

## Hospital Repairs.

Repairs are about to be made to certain city hospitals, to cost $125,000. The appropriation has been made by the Board of Aldermen. For Riverside Hospital, $47,000 will be used for porches, plumbing, iron stairways, new dormitory and general repairs.

For the Willard Parker and Reception Hospitals $7,000 will be used for constructing covered passageways, between the buildings and leading to the boats, and also for constructing new fences on the street side of the hospital grounds. Six thousand dollars will be used for providing a new steam plant in connection with the new building operations.

At the Kingston Avenue Hospital there are several small buildings or pavilions which are built on piles, and $20,000 will be used for providing these buildings with a substantial brick foun-

dation, and also for replumbing the buildings. Ten thousand dollars will be used for an addition and extension to the stable. The stable quarters are entirely inadequate, and there is no room for the ambulance and horses. Twenty-five thousand dollars will be used for fencing and also for grading some land which has recently been acquired. Five thousand dollars will be used for changes and repairs to the steam plant.

## Held Up on the Homestretch.

STATE OF THE SUBWAY WORK—CONDITION OF ELM STREET—STILL MANY OBSTRUCTIONS TO TRAFFIC.

After many years of obstruction, the public may hope for the full opening of Elm st presently, but the time which was once officially set, May 1, has passed, and the street still has great rents in places, where subway construction is yet unfinished; and heaps of material here and there await removal. Borough President Cantor has made contracts for regulating, grading and paving the roadway with granite blocks, and some parts have been finished or else opened partially as a thoroughfare, after much pursuasion on the part of the municipal authorities. Few of the official prophesies regarding the completion of parts and sections of the subway have been honored by the constructors.

Along the east side of City Hall Park a string of ruins still remains to vex the passing throng. From the Mall to the Staats-Zeitung building the work of subway construction has been delayed by the tardy demolition of the old Hall of Records. Between Chambers and Pearl sts the tunnel is finished and covered, but Elm st, between Duane and Pearl, is littered with material, which blocks all vehicular traffic. The ironwork is set nearly all the way through to 8th st, except for about two blocks, and from Broome to 8th sts, the subway is ready for the rails. Degnan & McLean, the contractors of the long section between City Hall and 14th st, have had a trying task, owing to the interference of water. From Pearl to Worth st the structure is yet unfinished.

From Leonard to Canal one-half of the structure has been completed and part of the distance has been repaved; the work is in progress on the westerly half of the street, and will be pushed when the present labor troubles are quite ended. The necessity of readjusting pipes at the intersection of Howard and Elm sts has held back other matters there.

On the block between Howard and Grand sts the contractors are laying a 30-inch gas main; a large portion of this block is being used for the storage of material, but a rough roadway has been opened along the east side. From Grand to Broome the structure is finished, but the street has not been paved From Spring to Broome construction work is complete with the exception of replacing some of the areas of buildings on the west side. It is hoped that the Spring street station will be ready by June 1.

At Prince st some pipework is yet to be done, but from there to Great Jones st the highway commissioners are in charge of Elm st, and the surface is being repaved.

From Great Jones st to Astor pl everything is finished and the street is in full use. At Astor pl a great amount of work remains to be done. Fourth av is pretty well cleared up to 14th st, where the large express station is in progress. Engineer Parsons expected that this particular job would be done by May 15, but the limit has been indefinitely extended.

From 14th to 17th sts the work is well in hand. The backfilling has already been begun on the east side, and is completed from 15th to 17th sts. Work on the 18th st station has been progressing slowly on account of the delay of reconstructing the telephone ducts. From 18th to 23d sts the obstructions have all been removed.

At 23d st work still ocntinues, and material is piled up as far north at 25th st, but from 24th to 33d st the work is particularly completed. The work at the 33d st station was progressing fast when the strike set in, and traffic would soon have been restored.

The stone crusher and the plant around the 34th st shafts will have to remain until about July 1, when the work north of 34th st will be completed. At 41st st the westerly tunnel has been completed.

Engineer Parsons in a recent report said that 42d st from Park av to 6th av is one of the most difficult sections of the work on account of the depth and width of the cut and hardness of the rock. From 4th av to Madison av the street has been taken from building line to building line. Filling in is in progress between the west side of Madison av and Fifth av. At the intersection of 6th av and 42d st the work is necessarily slow, owing to the readjustment of the elevated foundation columns and pipe work.

From 6th av west to Broadway the work is finished, and the contractor will now constuct a new sidewalk at that point so as to relieve the congestion which has been unavoidable for some time. It is hoped that the whole of the work from 43d to 47th sts will be completed within the next few weeks, and all material removed.

From 60th to 103d sts, the contractor is William Bradley, who has in times past given the authorities much trouble by neglecting to have his sections properly policed, and the numerous unnecessary obstructions were recently reported by the chief engineer to the Board of Estimate. On 149th st, from the center of Gerard to Walton av, the tunnel is completed and backfilled. Between 133d and 145th sts there are two stations and a wide terminal section; the obstructions in the street, therefore, are necessarily very great, but endeavors are being made to reduce them to a minimum.

In a report to the Rapid Transit Commission this week, Contractor McDonald assured the Board that the tunnel railroad will undoubtedly be open for public service by the beginning of next year.

### Seward Park.

The strike of the truckmen four weeks ago caught the bathhouse in Seward Park in a state near completion. "If they had let us alone, it would be finished now," said the watchman on the job, this week. "We had to stop for lack of brick. It is at the wharf loaded on trucks, but nobody will touch it for us."

The park will not be finished, but the committee has decided to have the dedication ceremony at the time originally set, as we are informed by Chairman Charles S. Stover. This will be on the first Sunday in June. Of all the neighborhood playgrounds in the city this is the finest yet. There will be a running track 12 ft. wide, amphitheatre 224x95, excavated to a depth of 10 ft., and around all a great circle of asphalt for park benches. The Colonnade building, in the basement of which will be a public bath, will seat ten thousand people. The eastern border of the park is given over to little children. On the north side, facing the park, will be erected the finest public school Mr. Snyder has ever designed, to contain 80 class rooms. On the east of the park will be a public library, while a sub-post-office and a municipal courthouse are hoped for to adorn other parts of the great square. A great improving work, in which real estate is sharing, is going on in that section of the city.

### Pavements.

The appropriations for paving available this year in Brooklyn sum up $3,200,000, which is three times greater than ever set aside for a like object before, and it will produce ninety miles of pavements. Belgian block, as well as cobble, is being discarded as a paving material, while sheet asphalt has the highest place at present in the opinion of the masses. Asphalt block has only recently been tried in Brooklyn, and mostly on grades, where it is giving good satisfaction. Sheet asphalting represented such an immense advance over stone pavements that New York has been content to let good enough alone; but there are wearing surfaces which in other cities are also well thought of. Like every other pavement expected to endure, asphalt of whatever sort needs to be laid upon a foundation of great rigidity, as the asphalt is but the wearing surface, the real pavement being the foundation. In Brooklyn all foundations will be of concrete. Last year the borough made an experiment with wooden blocks, and this year will try ten thousand square yards more in the business section. In 1902 the average prices for different pavements were as follows: Sheet asphalt, 5-inch Portland cement concrete foundation, 1-inch binder and 2-inch top, $1.79; asphalt block, 4½-inch concrete foundation, $2.23; granite block, 6-in. concrete foundation, $3.20; Medina sandstone, 6-inch concrete foundation, $3.15. The prices for 1903 will probably be about 10 per cent. higher. The cost of paving for the first time is paid for by the property-owners, but repaving is done at the expense of the city at large from a bond fund.

### Willis Avenue Bridge Approach.

The project for making a second and elaborate approach on the Manhattan side, to the Willis Avenue Bridge over the Harlem, is now in the hands of Chief Engineer Lewis for an investigation, the Board of Estimate having rescinded the resolution authorizing the necessary proceedings for acquiring title. Considerable new opposition manifested by property owners caused the Board to take up the matter anew.

Commissioner of Bridges Lindenthal considers that the proposed inclined approach on Second av to the bridge uncalled for and unnecessary; and that to acquire the whole block bounded by 1st and 2d avs and 126th and 127th sts, for such a purpose, would be a wasteful and extravagant expenditure of public money, out of all porportion to any benefit which could accrue to the city therefrom. The proposition was first made as long ago as 1899. Costs and expenses are estimated at $600,000.

From the plans for this approach, as prepared by the Department of Bridges, it appears that it was to be constructed on the southerly side of East 127th st, between 1st and 2d avs, and would have occupied a space 68 ft. in width, leaving the remainder of the block, 615x131 ft. 10 ins., unoccupied by any structure pertaining to the bridge. This space it was intended to convert into a park or a plaza.

We will give ten cents each for the following numbers of the Record and Guide brought to this office in good condition. Nos. 1818, 1819, 1689, 1707, 1731 and 1752.

## CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existin gones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follews, then the date of the mortgage, the time for which ti was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be rcorded.

Whenever the letters "P. M." occur, prceeded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Mony Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

May 22, 23, 25, 26 and 27.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

## JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.
The Judgments filed against corporations, etc., will be found at the end of the list.

Vol. LXXI. JUNE 6, 1903. No. 1838.

WITH the stocks of the best established and best managed railroads in the United States selling on a 4½ to 5 per cent. basis it is probable that the great majority of conservative business men would consider that the capitalist who can afford to buy and hold such securities would make money. But nevertheless it remains true that prices continue to diminish and that the rallies which take place are merely the signal and excuse for further liquidation. The man who believes in higher prices is in very much the same position as the man who believed in lower prices a year ago. Stocks at that time were undoubtedly selling too high; but they were so strongly held at those high prices that it took a courageous man and a long purse to go short. In the same way, in view of the constant liquidation and the increasing uncertainty about the course of business and the crops, a man requires great confidence in long views to buy stocks at the present time. No matter how much he may believe that they are cheap, he will be tempted to believe that perhaps they will be cheaper still a month from now; and this belief will probably prove to be well grounded. A period of readjustment is taking place, which will last for a long time still and which may reveal unexpected weaknesses in the fabric of American industry. How much of the economic construction of the past four years will survive a period of hard times? What will be the effect in case of a vigorous enforcement of the anti-trust law? Will railway earnings shrink as much proportionally when they get upon the downward grade as they did in 1893? It will take some time to answer these questions conclusively, and while they remain unanswered prices will remain out of harmony with values. There is indeed every reason to believe that the great railroad and industrial corporations will show very much greater reserve strength under discouraging conditions than they did ten years ago; but this opinion, like the others, has its doubtful aspects. It is a time when people who buy stocks must be willing to take a long chance and should be prepared to protect their purchases.

IT looks now as if the practical suspension of building operations which the lockout of the material drivers has occasioned would soon be at an end. The Building Trades Council is obviously backing down in the support which it gave to the demands of the drivers; and unless something happens to stiffen the backs of the men the whole incident will soon be closed. An early termination of the fight would be received with the utmost relief by the whole building and real estate interest. If it had lasted all summer many builders who are financing their operations with a comparatively small margin of cash would have been wiped out, and all of them would have suffered severely. At the same time the delay in the completion of many tenements and apartment houses now under construction could not but have the result of creating a partial house famine next spring and of forcing many residents of Manhattan and Brooklyn to seek living accommodations on Long Island or in New Jersey. There has rarely been a time in this city when the general interests of real property in New York so imperatively demanded the utmost exertion on the part of builders to provide for an actual and prospective need for new house room. While all this is true, however, the Employers' Association have behaved wisely in drawing the issue very sharply at the present time and not abating any of their demands until the Building Trades Council backed down. By this resolute action they have apparently won the first skirmish, and that should encourage them in the belief that they have only to persist in their present methods in order to regain control of their own business. Perhaps the Building Trades Council believes that as soon as the present crisis is over the Employers' Association will fall apart; but if they are counting on such a consummation they are very much mistaken. The employers realize fully that the fight is a permanent one and that they will have to win back inch by inch the ground which they have lost. The platform which the Employers' Association adopted during the past week sums up clearly and concisely the concessions which must be obtained in order that its members may "lawfully prosecute their business without unnecessary interruption, financial loss or humiliation." They protest particularly against sympathetic strikes, against extortion and bribery, and against the confused jurisdiction of the different trades, which has occasioned so many unnecessary and exasperating strikes. At the same time they propose to establish courts of arbitration in which this moderate platform can be placed before the fair-minded and intelligent among their employes. There can be no doubt that if they stick to their present methods they will in the long run win out.

IF in the beginning the Real Estate Association of New York does not find itself supported by any very large number of small property owners its officials should not be discouraged by that fact. A thoroughly representative organization of an interest which has for years been insufficiently organized cannot be built up in a few months. The Real Estate Association is not in the position of an ordinary trade association. The people owning real property in New York belong to widely different classes in the community. The only part of them, whose every-day interests and occupations bring them together, are the professional operators and speculators, and they form only a small faction of the whole. The consequence is that any organization which seeks to represent them can only gradually win its way into the favor of the property owners. Before it obtains support it must prove itself to be deserving of support. It must show in some emphatic and striking way that it is able and willing to perform for the real estate interests good service. Of course such a service cannot be performed until the opportunity arises; and in the meantime the best that can be done is to start the organization in the right way and direction. The circular letter recently issued by the association should be a help in this respect; and in starting the formation of a paid bureau, where services will be devoted to the work of the association, its officials have taken precisely the proper step. An organization of this kind, which is not alive except when its directors or members are in session, can never be a very considerable or efficient public force. In order to make people recognize its existence, and in order to give its work continuity, a permanent bureau must be provided, to which the members will be encouraged to come and where officials will be engaged constantly in serving real estate interests. Indeed, we are willing to go so far as to assert that the success of the association will depend as much upon the policy and efficiency of its paid bureau as upon the resolutions and actions of its governing board. It should be the function of that bureau to collect all kinds of information necessary to members of the association, and at times to represent them in bringing pressure to bear upon city officials who are negligent about official duties and public improvements. Whether a really valuable bureau can be established by an association whose dues are no more than $5 a year remains to be seen. It was, perhaps, wise to make the initial charges small; but we doubt very much whether the work of the bureau, provided it is properly developed, will not eventually require a larger contribution. A membership which costs only $5 per annum will probably not be worth any more than that sum; and a membership in the Real Estate Association of New York should be worth more than $5 a year each to the property owners of the city.

THE UNITED STATES is a very wealthy country; but we doubt whether it is wealthy enough to engage in another great war. The expenses of the war itself could be paid and would be paid with sufficient ease; but if the Spanish war is any criterion, the drain upon the country's resources for pensions after the war was over would be disastrous. Up to the present time some 22 per cent. of the soldiers enlisted in the American army during the Spanish war have applied for pensions, and this 22 per cent. is equivalent to some 65,000 applications. Considering that at the outside only about 25,000 soldiers and sailors saw active service, it will be realized what a small part of the dangers of war are incurred on the battlefield. Of course, we all know that the health of the troops in camp was distressingly bad; but after making all such allowances the number of applications for government assistance is so large that it can be explained only on the ground that very considerable numbers of "patriots" are taking advantage of the lax pension laws in order to obtain government money, which they do not need. It is curious that a nation of thrifty people will permit itself to be bled in this manner. The truth is that Americans are

foolishly good-natured about rewarding people who have done the nation a service. No doubt the "Grand Army" vote has had a great deal to do with the laxity of the pension laws; but that vote would not have been sufficient for the purpose had not public opinion in general been ready to treat the veterans with extreme generosity. Let no man say hereafter that republics are ungrateful. The United States is grateful to a fault—grateful to an extent that undermines American manhood and tends to mix up the finest patriotic motives with the meanest and most mercenary ones.

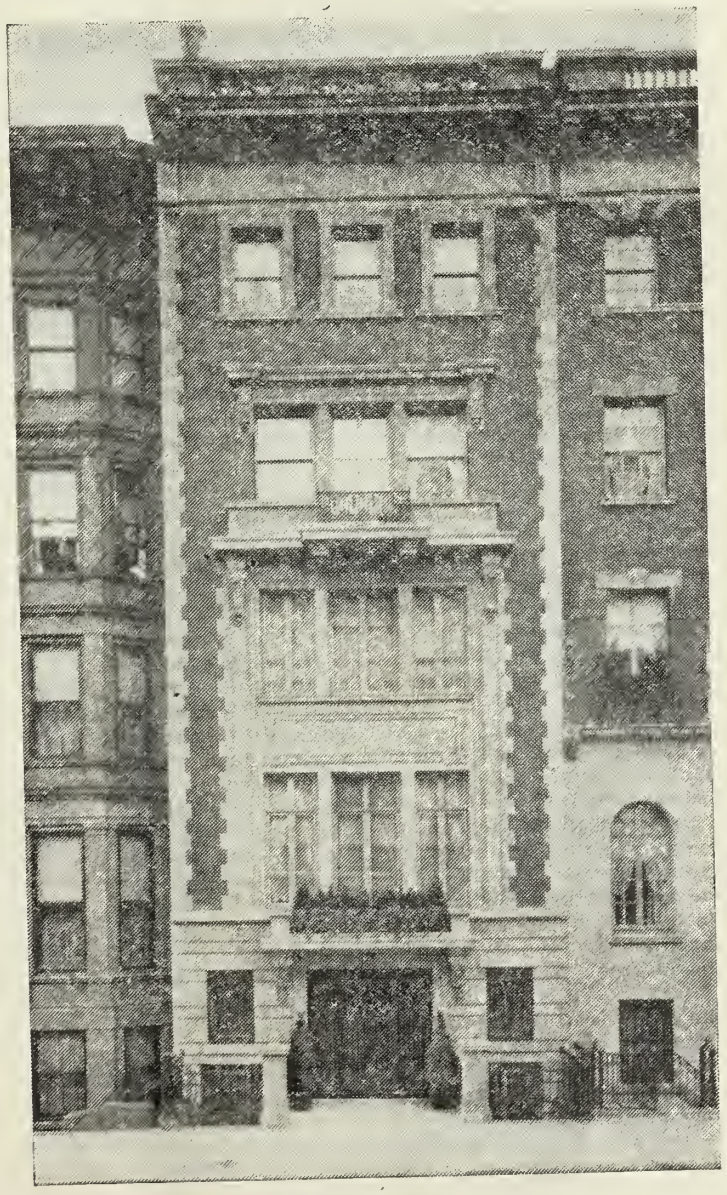
## Real Estate Situation.

IF, as seems probable, the labor war in the building trades comes to an early ending we shall look for more activity than usual during the coming summer. There is every reason why there should be considerable business consummated, both in improved and unimproved property. The former is well rented; its purchaser can anticipate with confidence a decrease in taxation; and income-producing real estate certainly looks like a safer form of property to purchase just at present than income-producing stock certificates. So far as unimproved property is concerned the position is equally strong. New York requires a large increase in its house room, an increase which it will take several years of heavy building entirely to satisfy.

Speculative builders have come to appreciate this fact. They are filing plans for new tenements and apartment houses in very large numbers, and they will continue to do so as long as they can borrow the necessary money. They realize that they can rent their buildings within a month or two after completion, and get good rents at that. For this reason it is extremely undesirable that bankers and money lenders should take seriously the report we mentioned last week—the report, viz., that there has been over-building in Manhattan. Manhattan is far from being over-built. The great constructional work of the past few years has been for the benefit of the rich—in order to provide accommodations for the increase of business and for the habitation of well-to-do families. Comparatively speaking, the poorer people have been neglected, and it is this neglect which the builders are now seeking to remedy. That this is a true interpretation of the present situation is shown clearly enough by the construction figures. There have been plans filed for 496 new Manhattan buildings during the first five months of the present year, against only 393 for the same period last year. At the same time the aggregate cost remains nearly equal, so that the average cost of each building to be erected has diminished from about $84,000 to about $70,000, which is precisely contrary to the tendency of the past few years. Whatever may become of business elsewhere, real estate and building in New York can look forward to at least one more good year.

IT is always hazardous to attempt any anticipation of the judgments of posterity; but unless the best contemporary aesthetic opinion is very much mistaken the statue of General Sherman by Augustus St. Gaudens, unveiled on Decoration Day, is a monument of which future generations of New Yorkers will be more proud than of any public monument in the city. One critic, who is by no means given to the over-estimation of contemporary works of art, declares it to be the greatest and most impressive equestrian statue wrought since Verochio's Bartolomeo Colleono, and while no one else has gone as far as this, there is not a dissenting voice raised to make the chorus of approval which greeted the statue anything but unanimous. Like all of Mr. St. Gauden's best work, it gives an ideal significance to a thoroughly modern and thoroughly American subject. It is the victory of a moral cause to which the lean Yankee is riding. The conception is as different from the ordinary conceptions of victory, and of a conquering warrior, as our Civil War was different from the majority of wars which mankind has waged; and the admirers of General Sherman and his comrades in arms could not have wished for a more adequate and effective expression of the truer spirit that inspired their chief and the Northern army. It is the kind of memorial which helps to give dignity to our national life, and which helps also to keep fresh that moral faith and courage which carried the nation through the most trying crises in its history. Would that we had more of them! But we cannot get them, as the enthusiasts for civic art would have people believe, by the appointment of a commission to suggest desirable monuments and the appropriation of sufficient money. Such things cannot be wrought according to less ready-made methods. It has taken Mr. St. Gaudens many years of thoughtful preoccupation, and almost as many of constant labor, to bring forth his Sherman; and it was a subject which his personal knowledge of General Sherman and his long experience in making monuments of heroes of the Civil War had made him peculiarly capable of handling. Some such exceptional fitness of artist to subject, some such influence of deep and unconscious personal and social forces must always be a condition of the making of a monument of the poignant impressiveness of the Sherman; and it would be utterly impossible to secure them either for a world's fair or for a city that was being beautified according to the formula of a world's fair. If we have to wait for monuments like the Sherman, let us be content to wait until the big man and the big subject happen to meet. At this rate it may take several hundred years to "beautify" New York; but we surmise that we shall not gain much by trying to hurry the process.

## Investment vs. Speculative Corporations.



IN a recent review and criticism of the work of the United States Realty & Construction Company the "Evening Post" reaches the conclusion that that corporation "had been a profound disappointment," and it found a reason for the disappointing effect of the company's operations in the fact that they had been largely speculative and consequently had not earned or obtained public confidence. That the company has proved to be a disappointment we can well believe; and the disappointment is doubtless even more "profound" in the offices of the corporation than it is in that of the "Evening Post." The enterprise was organized on a large scale and with a very considerable capital, partly in order to have sufficient resources to take advantage of big real estate and constructional opportunities, and partly, also, because no company without a big capital can expect to have a steady and good market for its securities. Since a market has certainly not yet been obtained for the shares of the United States Realty & Construction Company, with its six per cent. preferred stock selling around 54, and its common in the vicinity of 17, it is evident that these certificates have proved to be even less "digestible" than those of the majority of recently organized industrial corporations.

It should be immediately added, however, that although these results are not very brilliant, nine months is a very short allowance for the proper testing of any corporation. Even under the happiest of circumstances it could hardly expect to have obtained in so short a time a well-assured position in the eyes of conservative investors, and, as we all know, financial conditions have been extremely unfavorable. Considering that during the nine months in question the securities of the most approved railroad and industrial corporations have been declining in price, there was not very much chance that the shares of an extremely experimental realty and construction company would fare very much better. It will be a long time before the public will accept the claims of the company's reports at their declared value. Indeed it will have both to show its ability to earn a sufficient income during periods of business depression and to give some assurance that it occupies a necessary place in the mechanism of real estate operations in New York before its securities can command good prices.

There remains, however, the question raised above: Whether or not the management of the company is wise in conducting its operations on an exclusively speculative basis. Up to the present time its policy has been the same as that of the smaller companies which went into the merger. It transacts, that is, what may be called, a general real estate and building business. It buys property for all kinds of purposes. Sometimes that property is resold; sometimes it is improved, and the land and building leased to a permanent tenant. Sometimes the building after being leased is sold, and sometimes it is not sold. Most often of all the company simply contracts to build for other owners, and invests capitalization, credit and machinery for the work of a building contractor. These operations are the parallel on a larger scale of the operations of the constituent companies before the merger, and are just what was to be expected. Considering the training and ideas of the active managers of the corporation, they are carrying on a series of operations similar to those which they have handled so successfully in the past, only with more abundant resources and on a larger scale. The newspaper above mentioned complains that the United States Realty & Construction Company has not added "a single new idea to the general stock of information concerning the ownership and management of real estate." But this criticism is far-fetched. The company was organized not for the purpose of originating new ideas, but for the purpose of turning old ones to more efficient use. The idea, whether new or not, on which the operations of the company are based is that there is proportionally even more money to be made in the judicious pur-

chase and improvement of the most expensive property along the central ridge of Manhattan than there is in small dealings on the side streets. The task of reconstructing the buildings of Manhattan and of keeping its gilt-edged real estate up to the point of maximum efficiency by means of constant re-improvement is both vast and important, and needs a corporation charged with as large a capital as that of the United States Realty Company and managed by officers with quite as much experience and knowledge. This idea is as sound as it ever was; and if it is applied with good business judgment should be sufficient to assure the prosperity of a number of large realty companies.

As the Record and Guide pointed out, however, when the company was first organized, the operations of such a corporation naturally fall into two very different classes. When the company buys a valuable piece of property or sells it at an increase, before the property is improved, or if it simply contracts to build a skyscraper for another owner, it is conducting a kind of business in which there may be large profits, but which are essentially speculative in character. On the other hand, when the company improves its purchase and holds on to the new building, or when it accepts in part payment for the expense of constructing a "skyscraper" the securities of an owning company it is conducting an operation which is essentially of an investment nature; and obviously it cannot continue such operations unless it can sell its own securities at a fair price against the income value created by these operations. The ready money, that is, which it is continually converting into new buildings, must be renewed from some source or other, and obviously the only possible source of supplies is the investing public. It is essential consequently that the management of the company should inspire full confidence and that investors should have every assurance when they purchase the company's stock that they are purchasing good value. It is on this basis that the small realty investment companies organized in Boston have proved to be successful; and we do not believe that the United States Realty & Construction Company can in the long run achieve the purposes for which it was organized in any other way. We do not mean that it must entirely cease speculative operations of any kind; but we do mean that it must on the whole create upon the investing public the impression of a safely managed trust institution, the managers of which are trying to mobilize a certain amount of real estate value. Like a trust institution, also, it should publish complete accounts of its expenses and earnings and of its assets and liabilities, for it cannot expect to win public confidence as long as it conceals its operations.

No. 8 EAST 53D STREET, N. Y. CITY.
C. P. H. Gilbert, Architect.

—"The improvement that is being wrought in Brooklyn's pavements is toning up the whole borough," says President Swanstrom. This is the invariable consequence. Shabby roads make shabby sidewalks and shabby houses. Eighty-seven distinct thoroughfares were paved last year, and this year's record will be higher. One can now ride over smooth pavements from the heart of the Fulton st shopping district nearly to the Queens County line, via De Kalb and Willoughby avs and Suydam st. When contracts now made for 3d av are completed a similar route over modern pavements will exist from the borough's center to the lower bay. By the improvement of Flushing, Wil-

loughby and Clermont avs, with connections in the Williamsburgh district, routes have been made connecting the Brooklyn Bridge with the Williamsburgh Bridge, and are now being extended. Moreover, Brooklyn is spending more for sewer work than ever before in her history.

## Six Thousand Alterations.

SWEEPING ORDER FOR SANITARY IMPROVEMENTS WILL CAUSE EXPENDITURE OF SIX MILLION DOLLARS AMONG MECHANICS AND MATERIAL MEN.

When the building trades are ready for business again they will find an immensity of work, not only the contracts that were interrupted by their strikes, but also an accumulation of new work, to make the coming summer perhaps the businest in history. No less thn six thousand alteration jobs are expected to follow from the enforcement of the new sanitary regulations for old tenement houses. More than a reasonable allowance of time has been made, since the required alterations should have been done before the first of this year; and now the Tenement House Department is serving peremptory orders, and the Law Department has begun actions at court.

The law to which reference is made is Section 100 of the New Tenement House Act, which requires that in all existing premises, where a connection with a sewer is possible, school sinks and other similar receptacles shall before January 1, 1903, be replaced by individual water-closets, one for every two famllies. Many owners have made the necessary changes, but Commissioner De Forest states that some six thousand have not. Depending on the size and nature of a building, the cost of making an improvement will vary in individual cases, but in none will it be a trivial matter. The Tenement Department has estimated the minimum expense at $500, and the maximum at $1,500. At an average of $1,000, the total amount to be distributed through the building trades by these orders as the work is being done is about six million dollars. Most of it will go to the plumbers and to the dealers in the materials of that trade, but a large remainder will be for carpenters, painters and masons. It has been demonstrated, however, that these changes pay, by reason of the increased rent obtainable from the improved houses.

The law requires that each water-closet shall be put in a compartment completely separated from every other water-closet, and shall contain a window three square feet in area, opening to the outer air. When placed in the yard, long hopper closets may be used; but all traps, flush tanks and pipes must be protected against the action of frost. In such cases the structure must not exceed ten feet in height, and must be provided with a ventilating skylight in the roof, and with means for lighting the interior at night.

Since the enactment of the law, and previous thereto, changes have been made in more than five hundred cases, and in most instances school sinks have been taken out of yards and water-closets put in the houses. Conditions are deplorable in far too many cases; we have seen photographs which are nothing less than shocking. In cases where owners do not finally comply with the department's orders, steps are usually taken to have the buildings vacated. This course protects the public against contagion and brings the owner to a sense of the necessity of keeping his house in a proper and sanitary condition. The probability is that there will be no different experience in the cases now in hand.

The school sink is a survival of the primitive methods employed in New York forty years ago. That the remedial action has been slow, has no doubt been due to the money interest involved, When the Metropolitan Board of Health of 1866 commenced its labors the cities of New York and Brooklyn were filled with nuisanees. The streets were uncleaned, sewers were obstructed, privies were unconnected with the sewers and overflowing, and the city generally was in a very unsanitary condition. There was, therefore, an excuse at first for the school sink, which appeared as a substitute for something worse about this time. In 1870 it had been generally adopted by the public schools; in 1873 the old-fashioned, unconnected privy vault was gradually giving place to the water-closet, and it was during this year (1873) that the ventilation of the soil pipe, by extending it 2 feet above the roof, was adopted, 94 of them being ordered during the year. The Tenement House Commission of 1900, after a careful examination of conditions existing at that time, reported:

The use of privy-vaults in connection with tenement houses has for a number of years been prohibited, the first law upon this subject having been enacted in 1887, and the Board of Health has gradually condemned the great majority of these vaults. There are, however, still in the city a number of school sinks located in the yards, which are the only privy accommodations for the occupants of the tenement house. These school sinks were in nearly every case found by the Commissioner's sanitary inspectors to be in horrible condition.

It is now the intention to cut off the remnant. The "school sink," as constructed, is simply a masonry privy vault, having a drain connecting with the public sewer. The contents of the vault are retained by a plug at one end, until such time as the janitor lifts it out and allows the contents to sluggishly drain away. Conditions that were tolerable forty years ago are to-day recognized as positive dangers. The arguments advanced for retention of the "school sinks" are the same in character as those urged years ago, when the removal of privy vaults and cesspools was demanded.

Under the latest amendment to the Tenement House Law, which became operative on April 14th, the building itself can be sued. The Law Department believes that this provision will enable the Tenement House Law to operate with more certain success than heretofore. Attorneys for some of the property-owners, who number more than 900, announce that the cases will be contested on constitutional grounds.

## For a New West Point.

DESCRIPTION OF THE PLANS WHICH WON THE COMMISSION TO REMODEL THE U. S. MILITARY ACADEMY.

Cram, Goodhue & Ferguson, of Boston, were the successful competitors for the commission to remodel the buildings and grounds of the United States Military Academy. The operation will involve an outlay of $5,500,000, of which $2,000,000 has already been appropriated. The general plan includes a treatment of the whole reservation and of certain existing edifices, together with designs for at least twenty-one new buildings and new water works. There will be a new chapel capable of seating one thousand; a Riding Hall about 700 feet long; new Academic Building, large extension to the Cadet, Barracks, sets of quarters, Officers' Mess Hall, Hospital, Hotel, Administration Building of the corps of cadets, Post Headquarters and Museum, Cadet Store, Post Office, Main Guard House, Post Exchange and Commissary building, Cavalry Barracks, Cavalry Stables, Artillery Barracks, Artillery Stables and Gunshed, Cadet Laundry, Fire-Engine Houses, and heating and lighting plant.

The sort of plan desired was one showing a general arrangement of buildings and treatment of the ground to meet the various requirements of the Academy, together with an indication of the architectural treatment of the separate buildings. In preparing his plan a competitor was at liberty to associate with himself a landseape architect or gardener and to submit the plan in his own name or the joint names, as he preferred. He was furnished with a contour map of West Point drawn to a scale of 1 inch to 150 feet, and on an enlargement of this map the architect was expected to show the general disposition of the essential buildings, as above enumerated, and the treatment proposed for the principal buildings to be retained, which are the old castelated Cadet Barracks, the new Academic Building, the recently remodeled Library, the Cadet Mess Hall, Hospital, Gymnasium, Officers Mess and Memorial Hall of marble, recently reared on the edge of the river bank, and dedicated only last June.

The drawings called for were on a scale of ⅛ of an inch to a foot, with shadows cast at an angle of 45 degrees; light was assumed to fall from the left upper angle, and from front to rear. All were mounted on heavy binder boards with gray border. Competitors could use their discretion in showing change or removal of any building. Textual descriptions accompanied the work and embraced, besides, comments on individual buildings, a discussion of the general scheme, information regarding the material of which it was proposed to erect the building.

The accepted design, which is a very brilliant example of military and collegiate gothic, retains existing gothic buildings of the academy, and is conformed to them in style and treatment, employing the same combination of material, the rock of the highlands, and a very hard brownstone also quarried in the neighborhood. The wall of the great Riding Hall crowns the cliff as a revetment wall, which is continued to the north and modified so as to mediate between the collegiate gothic of the athletic buildings and barracks and the severe classic of Memorial Hall.

The Superintendent's quarters are removed to the north end of the post, near where the hotel now stands, and placed between the existing battle monument and a proposed shaft, counterparting it, and intended to be erected as a memorial of graduates who have fallen in battle since the Civil War. The visitor, upon ascending the cliff by road or elevator, finds himself confronted by an effective vista through the buildings allotted to the cadets and closed by the chapel, which stands at a considerable elevation above the plateau.

This chapel is a massive edifice, vaulted and stone, with a family resemblance to King's College Chapel, in Cambridge. A shelf road at the level of the chapel or nearly so is to extend behind and above the existing row of officers' quarters and afford a site for another similar row overlooking these and the plain. The hotel is at a higher level still, commanding an even more extensive and beautiful prospect than that overlooked by the existing hostelry on Trophy Point.

Among the provisions made by the architect is one for an extensive amphitheatrical athletic field which is sorely needed. Altogether those who have seen the new design, concur in pronouncing it a brilliant success and some of them regard it as the harbinger of a new gothic revival.

The competition was, of course, anonymous, and there were

ten submissions. The other firms submitting plans were Cope & Stewardson, Philadelphia; Helns & La Farge, New York; Carrere & Hastings, New York; Peabody & Sterns, Boston; Eames & Young, St. Louis; Charles C. Haight, New York; D. H. Burnham, Chicago; McKim, Mead & White, New York; and Frost & Granger, Chicago.

The jury to examine the plans convened at West Point May 20, and held sessions daily for more than a week. This committee included George B. Post, Cass Gilbert and Walter Cook, three architects; together with Gen. Schofield and Colonel Mills. Three and a-half per cent. of the cost of the building will go to the Boston architects, and in addition a salary of $5,000 a year will be paid them, together with traveling and office expenses, these expenses not to exceed one and a-half per cent. of the cost of the buildings. The unsuccessful competitors will each receive $2,000 and traveling expenses.

The Hartford and New York Transportation Company is to lease a pier at and near the foot of Peck slip, East River, for $27,500. Prior to the present lease the company occupied Pier, old 24, ever since the organization of the Department. The removal of this pier was ordered in order to prosecute the work of improvement under the new plan.

The Commissioners of the Sinking Fund have approved the establishment by the Commissioner of Docks, of a ferry from the vicinity of Nunley's Pier, South Beach, in the Borough of Richmond, to the vicinity of Captain's Pier, Bensonhurst, in the Borough of Brooklyn. The franchise will be leased.

On Wednesday, June 10th, L. J. Phillips & Co. will sell in partition at the Real Estate Salesroom, 161 Broadway, the 4½-sty building lot 27.6¾x103.9x irregular, at No. 62 University place. Maps, etc., at the office of the auctioneers, No. 158 Broadway.

## Gossip of the Week.

### Block of Fifty-two Lots Offered.

Daniel Seymour, in the Drexel Building, offers for sale as an entirety, the block bounded by 99th st, 100th st, 1st av and 2d av, containing 52 lots. This is one of the few entire vacant blocks procurable on the East Side, and it borders on a large and growing manufacturing district. For further particulars see advertisement.

### The Chelsea Improvement.

The city has taken possession of the property 504, 506 and 508 West 14th st, for the Department of Docks and Ferries. But the parcels will not be of any use to the department until the remainder of the block required for the improvement of the water front is obtained. The block between 12th and 13th sts, to the south, became vested in the city some two years ago under a stipulation by which the city pays interest at the rate of six per cent., amounting to, perhaps, $60,000 per annum, from which it has received no return. Portions of the two blocks between 13th and 14th sts, and between 14th and 15th sts, together with the bulkheads in front, are under condemnation proceedings, and the title will vest on the confirmation of the report of the Commissioners. The testimony in proceedings is all in, and in all probability the reports will be ready for presentation to the court in the early part of July. The condemnation proceedings for the block between Bloomfield st and Little 12th st are so far advanced that the report will also probably be ready to present for confirmation during the month of July. Therefore, the present owners have been notified that the city will take possession on July 15th, and it is expected that the buildings will be sold, and contracts for dredging awarded on the following day.

James L. Libby has sold Mr. Louis Sherry's property at Narragansett Pier. It includes all the Billington property, all the Casino property, and all the bathing pavilion property, about 185 lots, and 4,000 feet water front, with riparian rights, to Edgar B. Moore, proprietor of the Gladstone House, Narragansett, and the Kenilworth Inn., Ashville, N. C., for over $200,000. This is the largest transaction that has ever been made in that portion of the state, and Mr. Sherry has been twenty years securing the property.

## Real Estate Notes.

Joseph P. Day, autioneer, will sell seven parcels on West 32d and 37th sts, on June 24, to partition the Tobin estate.

The Board of Health has granted the application of the New York Butchers' Dressed Meat Company for the erection of an abattoir at 11th av and 39th st.

The Real Estate Board of Brokers has removed from its temporary quarters in the basement of the Boreel Building to its permanent rooms, on the second floor of the same structure.

Allan A. Irvine, formerly a builder and lately a dealer in building material, has been appointed a city marshal by Mayor Low for a term of six years. Mr. Irvine's office is at No. 217 West 125th st.

Daniel & Son are the buyers of the northwest corner of Broadway and 8th st, a Sailors Snug Harbor leasehold, which was sold at auction in March for $44,500. It is said that they will probably improve all their holdings in this block by the erection of a 12-sty building.

The premises No. 10 Franklin st, Manhattan, have been leased for a section station by the Street Cleaning Department, for three years, at $720 annually. Also, for the same purpose No. 747 E. 167th st.

The buyer of Nos. 61 and 63 East 77th st, reported sold a short while ago by Nichols & Lummis, for William G. Park, is The Finch School, now at 733 and 735 Madison av, with a day-school at the corner of 58th st and 5th av.

The engineer detailed by the U. S. Coast and Geodetic Survey to supervise the work of completing the triangulation of the city, has taken quarters at 189 Montague st, Brooklyn, which have been rented for him by the municipality.

Yale's famous football player, John L. de Saulles, has entered the ranks of the realty workers. The firm is Bloodgood, de Saulles & Morrill, of 542 5th av, formerly Bloodgood, Hayes & Morrill. Mr. Hayes has retired to go to California for his health.

The city has again leased for a year the former Central Park Riding Academy, at Nos. 928-934 7th av, Manhattan, from Messrs. Heinemann Bros., for the accommodation of the First Signal Corps, for $2,100, including light, heat and water.

Sonner & Demlin is the name of a new firm of realty workers who are experienced agents and brokers, with a large clientele. Their offices are at 380 Amsterdam av, corner 78th st, and 400 Columbus av, corner 79th st. Emil A. Sonner and Geo. J. Demlin comprise the firm.

The business of Ranald H. Macdonald & Co., real estate agents and brokers, has grown so large that the offices at 41 West 33d st were entirely too small. New, commodious and better arranged offices have been secured at No. 5 West 31st st, where the firm is now doing business. Ranald H. Macdonald and Joseph F. Egan, who comprise the firm, are ably assisted by a large and competent corps of assistants. Telephone 3320 Madison, calls the new office.

Benj. F. Andrews, recently of the firm of Andrews, Bell & Co., now dissolved, continues in the real estate management and brokerage business at 500 Fifth av, corner of 42d st. Mr. Andrews, both during his connection with Andrews, Bell & Co., and for many years before, made a specialty of the management of realty, and the rental and sale of business and residential property in the vicinity of 42d st and 5th av. He will continue the management of the property formerly controlled by Andrews, Bell & Co., as well as a general real estate business.

The Business Men's Realty Co. was recently incorporated with a capital of $150,000, to operate in Manhattan Island real estate. The officers and directors include the following well-known business men: President, Meyer Vesell; 1st vice-president, Harris Cohen; 2d vice-president, David Bloom; treasurer, Nathan Roggen; secretary, Abraham Nelson; directors, besides the officers, Abraham and Joseph H. Cohen, Abraham Collier and Dr. Louis J. Ladinski. The offices of the Business Men's Realty Co. are at 234 Broadway, suite 38-41, and their telephone call is 3787 Cortlandt.

Nearly every day the official filings disclose the purchase of realty adjoining corners and inside plots already held by the buyers, who are securing additional land to protect their holdings. Only last week, the sale to the owners of the Johnston Building of adjoining property was chronicled; a few weeks ago the Astors took title to flat property on 116th and 117th sts, adjoining Graham Court; and this week the owner of the Elmwood, northeast corner of Columbus av and 93d st, bought No. 67, adjoining on the street. Brokers should bear this point in mind and look up owners who might buy adjoining parcels.

It was learned this week that as a result of the legal difficulties which have followed the recent auction sale of the vacant property on the west side of Broadway, between 61st and 62d sts, that no effort will be made by the United States Realty and Construction Co., the purchasers at the auction sale, to get title to the plots in question. William G. Park and Henry E. Coe, who as members of the original syndicate owning the property have questioned the legality of the auction offering, will receive deeds to their respective one-tenth interests, after which a partition suit will be instituted and the property resold under the direction of the court.

John D. Crimmins is heading a movement to rearrange the roadway and sidewalks of 5th av, with the object of giving more room for driving. The street is 100 feet wide between the house lines; the roadway takes 40 feet, the sidewalks 15 feet on each side, and the yards, areaways and stoops 15 more. Mr. Crimmins recommends increasing the drive to a width of 56 feet, by cutting off the encroachments on the sidewalk. In this case the city owns the full 100 feet, and Mr. Crimmins would take it all for public use. The suggestion is that the sidewalks, instead of being limited to 15 feet, should be in all cases of a minimum width of 22 feet, adding about 50 per cent. to the space for pedestrians, the improvement to affect that part of the street south of 46th st.

The effect would be, of course, to commercialize another section of the fashionable boulevard. Once there were stoops on Broadway and on 3d av.

—The hiatus between the elevated cartracks of the Williamsburgh Bridge and those of the Subway, at Delancey st, indicate the desirability of co-ordination between at least some of the departments of the municipal government.

## Building Scheme for Richmond Borough.

The most rapidly growing section of Richmond Borough is the Third Ward, which has been helped by a number of new industries within the past four years, notably the Townsend & Downey shipyard, the Marine Construction Co., the Nordlinger-Charlton Co., the Brewer Dry Dock Co., and the International Gas Engine Co. During the past six months hundreds of skilled workmen from Bath, Me., Camden, Newport News, Philadelphia, and other large centers of employment have come to work in that locality. Eight thousand men in all are employed in the various works.

The advantages of the Third Ward as a great industrial center are apparent. It possesses a fine water front. The back country is level and has excellent roads. The land is cheap and there is room for commodious homes for the thousands who may be employed in the industries along the shore front. The only drawback to the fullest development of the ward has been the lack of homes for workers, and the manufacturing companies have had difficulty in securing their needed complement of men because of this. A company has now been formed to do this work on a large and economical scale, and was incorporated at Albany last week, under the name of Mechanics' Building and Realty Company of Richmond Borough. The capital stock is $110,000, made up of 100 shares common stock at $100 per share, and 2,000 shares preferred stock at $50 per share. The common stock has been taken by the officers of the various industrial enterprises in that section, and will be the controlling or voting stock. The preferred stock will be sold to employees and others and will be a first lien on the company's property.

The company proposes to immediately build houses suitable for the employees of the industrial establishments and sell or lease them. The preferred stock will be accepted at par in payment for any of the company's properties, and houses will be sold on easy terms to reliable parties. There is said to be need of 1,000 houses in Mariners Harbor alone. The officers of the company are: Wallace Downey (president Townsend & Downey Shipbuilding Company), president; William J. Burlee (president Burlee Dry Dock Company), 1st vice-president; H. Newton Whittelsey (president Marine Construction Company), treasurer; Edward P. Doyle (treasurer Richmond Borough Realty Company), secretary.

## Repaving of West 72d Street.

The resolution of the Board of Estimate and Apportionment to pave 72d st with asphalt block from the Park to Riverside Drive, is a pleasant triumph for Bryan Kennelly. He took hold of this matter single-handed some months ago, and through the kindness of Comptroller Grout, and with the assistance of Commissioner Wilcox, he has been able to bring the matter about, the Board being assured that the improvement was an absolute necessity, as the street in rainy weather is a puddle, and in dry weather a dust bath to such an extent that housekeepers cannot keep their carpets and furniture clean. Asphalt block is a particularly nice pavement; it has been observed to keep an unwrinkled surface for a considerable term of years. Any such improvement to a street of the importance of 72d cannot fail of adding to the marketable value of property.

# The World of Building

## Building Operations.

### For the Gorham Manufacturing Co.

5TH AV.—George W. Jump & Co., 154 West 26th st, is demolishing the Lenox, southwest corner of 5th av and 36th st, on which site C. T. Wills, 156 5th av, will erect the new building for the Gorham Manufacturing Co. from the plans of McKim, Mead & White.

### Columbia Dormitory.

BROADWAY.—John P. Leo, 770 St. Nicholas av (The Purling Apartments), is the architect of Knowlton Hall, northeast corner of Broadway and 124th st, a 7-sty building now being adapted to dormitory purposes for the students of Columbia University. It will be elaborately furnished and equipped and contain rathskeller, squash court, barber shop, library, reading room, dining hall, grill room, billiard room, and the six upper floors devoted to the students' apartments arranged in suites. The enterprise is under the management of the Knowlton Hall Co., recently incorporated for $250,000 by Chas. P. Northrop, 31 Nassau st, and others.

### Carnegie Libraries in Queens.

BOROUGH OF QUEENS.—The committee of the Queens Borough Library Trustees who will superintend the erection of the Carnegie Libraries in Queens Borough, have decided that each library shall cost $30,000, and that one set of plans shall be drawn for all of the buildings, which will be almost devoid of ornamentation. It was originally intended to erect but three libraries, each to cost $80,000, the committee having at its disposal $240,000, but the trustees later decided that three buildings would not fill the needs of the community, as they would be too far apart. So it has been definitely decided that eight libraries, uniform in style, size and cost, shall be erected in the near future.

### Addition to Building of the General Society of Mechanics and Tradesmen.

44TH ST.—According to the plans of Ralph S. Townsend, 29 East 19th st, which were filed last week with the building department, extensive additions will be made to the building of the General Society of Mechanics and Tradesmen at 16 to 24 West 44th st. The building is a 5-sty and basement, school and library, on a plot 100x100. The plans call for two 6-sty and basement extensions, each 32.4x53.5, to cost $175,000, and the addition of two stories to the main building. The added stories will be of brick and terra cotta, with steel skeleton, fireproof, to contain class-rooms, lecture-rooms and library. It will be finished in oak. No contracts have yet been issued either for constructing or equipping the new parts. Frank Conover is chairman of the building committee.

### New York Central Plans.

Plans which were submitted to a committee of the Board of Estimate this week provide for the New York Central terminal improvements, which consist in the depression of tracks, the building of viaducts, the excavating of tunnels, and similar engineering details. Estimated cost, $5,000,000. The plans provide for the excavation of the sides of Park av between 56th and 45th sts, the space to be used for additional tracks. There is to be a viaduct down the middle of Park av from 56th to 45th st, and these streets are to be carried across the track by means of bridges. The yard is to be double-decked. This will be accomplished by excavating underneath the present tracks. By this means there will be provided eleven tracks, with room enough to store 200 coaches. The committee referred all the plans to Chief Engineer Lewis, of the Board of Estimate, for a report. When he reports the full board will consider the plans and a public hearing will be announced.

In regard to the hotel, to which reference has heretofore been made by the Record and Guide, an officer of the company confirmed the report that it is to be erected on the vacant lot directly opposite the station, bounded by Madison and Vanderbilt avs, 43d and 44th sts, with the main entrance on Madison av. In height it will be twenty stories, and the present station will be carried up to the same height, the new stories to be used for offices.

### Alterations to Metropolitan Opera House.

BROADWAY.—Stein, Cohen & Roth, 92 5th av, have filed plans for alterations to the Metropolitan Opera House, Broadway, 7th av, 39th and 40th sts. The plans call for the redecoration of the building, the cutting away of the front of the stage, enlarging the orchestra to accommodate one hundred instead of sixty musicians, the scenery room to be enlarged, and the stage and scenery slides to be reconstructed. The whole floor of the stage, or any section of it, will, by a sliding arrangement, be removable. The scenery will be stored below on running cars and be raised into place on the stage instead of being dropped from the fly-gallery as hitherto. There will be five pairs of scenery rollers in the wings, and these will be run by clockworks with varying speed, increasing as they recede from the footlights. These extensive changes are to be made to enable the managemnt to produce the Wagnerian operas more realistically, the Flying Dutchman, for instance, and Parsifal, which will be given next season for the first time in this country. The work will proceed during the summer months. It will all be done by day work. The Metropolitan Opera House Realty Co., on the premises, are the owners. Mr. Roth will superintend the work. The alterations to the stage are estimated to cost $30,000. Patrick Gallagher, contractor and builder, 11 East 59th st, will do the masonry work, and Lewinson & Just, 128 West 42d st, have the contract for structural ironwork. No other contracts have been let.

### New Apartments, Flats and Tenements.

99TH ST.—G. F. Pelham, 503 5th av, has drawn plans for a 6-sty apartment house, 50x87, to be erected on 99th st, 100 feet east of Madison av. Cost, $45,000. Lashkowitz & Cohen, 14 West 118th st, are the owners and builders.

98TH ST.—G. F. Pelham, 503 5th av, has plans under preparation for a 6-sty apartment house, 50x87, to be built on the north side of 98th st, 100 feet east of Madison av. Cost, $45,000. Owners and builders are Lashkowitz & Cohen, 14 West 118th st.

118TH ST.—G. F. Pelham, 503 5th av, will prepare the plans for a 6-sty apartment house, 50x87, to be erected on north side of 118th st, 150 feet west of Park av, for Lashkowitz & Cohen, 14 West 118th st, owners and builders.

107TH ST.—G. F. Pelham, 503 5th av, will complete the plans for the erection of two 6-sty elevator apartment houses, 50x87, on north side of 107th st, 199 east of Broadway. Cost, $120,000. Owners and builders, Gross & Sarber, 161 West 51st st.

BLEECKER ST.—Bernstein & Bernstein, 72 Trinity pl, will complete plans for a 6-sty tenement, 25x125, four families on a floor, to be built at 148 Bleecker st, and cost $35,000, for Jacob Weinstein, owner.

5TH ST, EAST.—Bernstein & Bernstein, 72 Trinity pl, are making plans for two 6-sty brick tenements, 40x84 and 42.6¾x84.0⅝, to be built at 705-711 East 5th st, for Max Kotzen, 52 Broadway, at a total cost of $75,000.

HOUSTON ST, s. w. cor. Lewis.—Bernstein & Bernstein, 72 Trinity pl, are making plans for two 6-sty brick tenements, 43x37.6 and 50x45.6, to be built on the southwest corner of Houston and Lewis sts for Jacob Weinstein, 72 Trinity pl, at a total cost of $60,000.

3D AV, 4143-4145.—R. Roeller, 741 Tremont av, is making plans for two 4-sty brick and stone tenements, 27.0¼x85.4, to be built at 4143-4145 3d av, for Stephen M. Anderson, 750 East 176th st, at a total cost of $36,000.

HOUSTON ST, East.—Louis C. Maurer, 603 W. 26th st, is making plans for a 6-sty brick tenement, 45.5x57, to be built at 430-432 East Houston st for Michael Garlick, 52 Pike st, at a cost of $28,000.

107TH ST, n. s., 175 e. of Columbus av.—A. Victor Donnelan, 87 Hamilton pl, will build a 5-sty brick tenement, 37.6x88.11, on the north side of 107th st, 175 feet east of Columbus av, at a cost of $40,000, from plans by Thomas Graham, 1421 Madison av.

107TH ST, n. s., 212.6 e. of Columbus av.—Thomas Graham, 1421 Madison av, also has in preparation plans for a 5-sty brick tenement, 37.6x88.11, to be built for Joseph C. Hesse, 251 W. 111th st, at a cost of $40,000, on the north side of 107th st, 212.6 east of Columbus av.

DIVISION ST, n. w. cor. Ridge st.—Jacob Weinstein, 72 Trinity pl, will build from plans of Bernstein & Bernstein, 72 Trinity pl, a 6-sty brick tenement, 44.5⅝x76.5½, on the northwest corner of Division and Ridge sts at a cost of $40,000.

PRINCE ST, s. w. cor. Thompson st.—Bernstein & Bernstein, 72 Trinity pl, are making plans for C. & H. Friedman, 123 E. 112th st, who will build a 6-sty brick tenement, 53.½x67, on the southwest corner of Prince and Thompson sts, at a cost of $45,000.

141ST ST, n. s., 200.4 e. of 8th av.—Neville & Bagge, 217 West 125th st, are making plans for a 6-sty brick tenement, 49 8x86.10, north side of 141st st, 200.4 east of 8th av, for Hoffmann & Ellender, 24 East 99th st, at a cost of $75,000.

For plans filed see pages 1146 and 1168.

### Estimates Receivable.

86TH ST.—Schwartz & Gross, 160 5th av, have completed plans for an extension to 149 West 86th st; Bernard Ulman is the owner. The architects are taking estimates.

5TH AV.—McKim, Mead & White, 160 5th av, are taking estimates for the new 6-sty building to be erected at the southeast corner of 5th av and 37th st, on a plot 160x150. Tiffany & Company are the owners.

35TH ST.—Harry T. Howell, architect, of southwest corner of 138th st and 3d av, will receive bids for the alteration of Dr. Carter's sanitarium, 148 and 150 East 35th st; alteration to consist of 5-sty extension in rear, toilet and lavatory rooms, electric elevator and electric dumb-waiter, new plumbing, new roof, clothes drying rooms, laundry rooms, and new entrance doorways. Cost, $20,000.

FIRST AV.—Copeland & Dole, 51 Exchange pl, have filed plans for a 6-sty and basement brick abattoir, 90x106, to be built on the northeast corner of 1st av and 45th st. The owner, W. H. Noyes, 80th st and Columbus av, will receive estimates in a couple of weeks, when drawings and specifications will be completed. The estimated cost is $90,000.

By Treasury Department, Washington, D. C., until June 24, at 3 p. m., for the construction of a gallery and cases for plates and dies in the new vault at the Bureau of Engraving and Printing, Washington, D. C.; until July 8, at 3 p. m., for the construction (including plumbing, heating apparatus, electric conduits, and wiring) of the extension of the U. S. Court House, Post-Office, etc., at Waco, Texas, in accordance with the drawings and specification, which may be had of James Knox Taylor, Supervising Architect.

### Contracts Awarded.

114TH ST.—Tolmie & Kerr, 205 W. 30th st, have obtained the contract for erecting the building for Hook and Ladder Co. 26, on 114th st, near Madison av, at a figure of $53,289. Other bidders were: Alfred Nugent & Sons, $54,799; Murphy Bros., $56,660; L. J. Rice, $58,635; James McFerran, $57,987; Geo. Hildebrand, $59,390; J. E. Butterworth, $59,946; M. J. Leahy, $57,000.

31ST ST.—Ward Wellington Ward, architect, 156 5th av, has awarded to Robert E. Kelly, 121 East 41st st, the general contract for the extensive alterations to be made for Ames & Co., 122 West 34th st, to the 7-sty residence, 26 West 31st st. A 4-sty and basement extension will be made, new floors and new plumbing installed, converting the dwelling into stores and studios. The cost is estimated at $15,000. Mr. Ward has plans for other similar alterations in preparation.

For installing heating and ventilating apparatus in new Public School No. 24, Manhattan: William N. Tobin, $20,111. For installing heating and ventilating apparatus in addition to and alterations in Public School No. 123, Brooklyn: William N. Tobin, $18,374. For sanitary work at new Public School No. 24, Manhattan: Jere. J. Deady, $9,254. For installing heating and ventilating apparatus in new Public School No. 34 (176), Bronx: William N. Tobin, $14,121. For improving new lots, etc., at Public School No. 112, Manhattan: (1) Chester D. Coram, $6,700; (2) Frank J. Fee, $1,619. For alterations, repairs, etc., in public schools, Brooklyn: William Flanagan & Co., No. 54, $2,849, and No. 79, $1,343; Joseph Ryan, No. 25, $1,575; No. 72, $1,475, and Boys' H. S., $1,125; Joseph Ohlhausen, No. 12, $945, and No. 26, $1,579; Frank Brown, No. 42, $2,272.

SANDY HOOK.—The United States Government has awarded to Joseph Finn & Co., of Long Branch, the contract for erecting a $25,000 building at Sandy Hook, to be used for testing chemicals and experimental work. The new building will be of brick, with brownstone trimmings. The interior will be finished with tile. The dimensions are to be 40x80 feet, one-story, with a 15-foot ceiling.

### Miscellaneous.

36TH ST.—Christ Presbyterian Church, now in West 35th st, will erect a new church edifice and church house on a plot 125x100 at 334-344 West 36th st, as a memorial to the Rev. Dr. Malbie D. Babcock, the late pastor of the Brick Presbyterian Church with which Christ Church is affiliated. Plans have not yet been considered.

89TH ST.—Zion African M. E. Church will build a new church on a plot 75x100, 325 feet east of Amsterdam av.

77TH ST.—The Finch School, now located at 733 and 735 Madison av, have purchased 61 and 63 East 77th st, a plot 37.6x102.2, upon which a 7-sty modern school building will be erected from plans by Charles A. Rich, 35 Nassau st.

### Brooklyn.

NEW ARMORY.—In accordance with the recommendation of the Advisory Architects, the plans of Messrs. Lord & Hewlett for an armory for the Second Battalion, Naval Militia, on the west side of 1st av, between 51st and 52d sts, in the Borough of Brooklyn, have been accepted, and $60,000 has been appropriated, in addition to $250,000, previously available. The armory will consist of the Administration Building, 87 ft. 6 ins. by 190 ft. 6 ins., and the drill shed, 220 ft. by 190 ft. 6 ins. The Administration Building will be standard fireproof construction, and will be separated from the drill shed with fireproof doors. The walls and foundation below grade will be built of brick and Portland cement; the walls above grade not exposed will be of brick; the exposed walls to be of selected common brick laid in Flemish bond and with black headers and bonded with Portland cement. There will be a small course of granite, Medina sand or bluestone, but there will be no cut stone above this point except for steps at entrance and platforms, which will be of granite. All of the decorative features of the masonry work of the building, not formed in brick, will be terra cotta. The roof of the Administration Building will be tar and gravel over concrete construction; the walls of first and second stories to be plastered; the trim in Administration Building to be cypress and will be reduced to a minimum, and in the drill shed the trim will be yellow pine.

BROOKLYN.—R. L. Daus, 130 Fulton st, Manhattan, has filed plans for a Carnegie Library to be erected on the northeast corner of Norman av and Leonard st, Brookiyn. It will be a 1 and 2-sty brick building, 73.4x74.2, with gravel roof and will be heated by steam. The estimated cost is $75,000. No contracts have as yet been given out. F. P. Hill, librarian of the Brooklyn Public Library, 26 Brevoort pl, is chairman of the Carnegie committee. Other architects who are preparing plans for Carnegie libraries are: J. M. Hewlett, Wm. B. Tubby, R. A. Walker and R. F. Aimirall.

### Richmond Plans.

The following are the plans filed for the Borough of Richmond: West New Brighton—E s Bement av, 246 ft. n Castleton av, 2-sty frame dwelling, 32x30, cost $4,400, Frank Bale, owner; e s Brooks st, 135 ft. s Prospect st, 2-sty frame dwelling, 44x49, cost $5,500, William J. Grimshaw, owner.

Port Richmond—E s Union av, 189 ft. n Washington av, 2-sty frame dwelling, 16x26; cost, $2,500; Gertrude L. Decker, owner.

Woodlock—S s Boulevard and Wood Arden av, 2-sty frame dwelling, size 24x37; cost, $5,600; Sea Side Estate Co., owners.

### Suburban.

BAYONNE, N. J.—Estimates are receivable by the Board of Education until June 16th, for consructing school building No. 8, on Av C, Bayonne, from plans by R. Sailer, 76 Montgomery st, Jersey City. R. T. Hewitt, secretary.

JAMAICA, L. I.—Secretary David Ketcham, of the Jamaica School Board, has been informed that the property selected by the Local Board for a new school house, on Kaplan av, Jamaica, has been accepted and will at once be secured. Work on the new school building will proceed immediately.

FIRE ISLAND.—Sire Bros. will rebuild their hotel, destroyed by fire last week, at a loss of $150,000.

### In Other Cities.

PATERSON, N. J.—Crosby & Warren, architects, Paterson, N. J., are preparing plans for a $6,500 Elizabethan residence to be erected in Plainfield, N. J.; a $90,000 distillery at South Winston-Salem, N. C.; a summer hotel in North Carolina, and several cottages at Winston-Salem. Local contractors will be asked to submit estimates.

PRINCETON, N. J.—E. E. Paul, 289 4th av, New York, has obtained the contract for erecting the 2-sty brick and stone dormitory building, 36x280, for Princeton University, from the plans of Benjamin W. Morris, Jr., 5 West 31st st, at a figure of about $110,000.

NASHVILLE, TENN.—J. E. R. Carpenter, Windsor Arcade, New York, will shortly complete the plans for a 12-sty, 63x145, bank and office building, which will be built at Nashville, Tenn. E. B. Stahlman and associates are the owners. After June 25, 1903, the architect will receive estimates.

SAYRE, PA.—The Lehigh Valley Railroad has adopted a plan for an extension of its principal locomotive and car repair shops at Sayre, Pa. The present intention is to construct during the next two years only additional facilities for locomotive repairs. The work during the first year will consist of preparing the site and erecting the principal buildings at a cost of about $1,000,000; the installation of the heavy work, such as the power plant, machinery, yard work, etc., will commence about a year hence.

LYNN, MASS.—The General Electric Company are planning the erection of another large machine shop to be built as an addition to their Lynn, Mass., plant. The building will be 350 ft. wide by 650 ft. long. Nothing has been done as yet concerning the purchase of equipment for this building.

NEW LONDON, CT.—Purchases of shop equipment are being made by the U. S. Steam Turbine Company, of New London, Conn., who have prepared plans for a new plant. The company intend building steam turbines from 10 to 5,000 horse-power ca-

pacity. The buildings now about to be erected will but form a nucleus of a much larger plant.

PATERSON, N. J.—The new home of the First National Bank of Paterson, N. J., is now nearing completion, and it promises to be a fine structure. The architecture is of the Italian Renaissance type; very substantial, and elegant in appearance. The structure is fireproof, being built of solid Indiana limestone and iron, and therefore not likely to meet the fate of the other handsome building destroyed in Paterson's disastrous fire.

BAR HARBOR, ME.—Adams & Warren, of Astor Court, 20 W. 34th st, New York, are preparing plans for a large country residence to be erected at Frenchman's Bay, Bar Harbor, Maine, for Henry Lane Eno.

ITHACA, N. Y.—The members of the Ithaca Lodge of Odd Fellows have secured options on two choice sites on which to erect a grand temple. No plans have been made, though it is practically decided to carry through the enterprise. It is estimated that five years will be required to complete the work.

SCHENECTADAY, N. Y.—H. C. Grieme has the contract for erecting a 4-sty brick storehouse, 220 ft. in length, for S. Sanford & Sons, on Willow st, Schenectady.

ATLANTIC CITY, N. J.—Contractor E. F. Hann has received the contract for building the new residence for Dr. William Pollard, on South Carolina av, near Pacific.

PLAINFIELD, N. J.—Walter Cook, architect, 3-7 West 29th st, New York, has prepared the programme for the competition for the new Plainfield High School Building. Fifteen architects will be selected from those wishing to compete and about two months' time allowed in which to prepare plans.

WATERBURY, CONN.—Rankin, Kellogg & Crane, Philadelphia Pa., have completed the drawings and specifications for the proposed government building at Waterbury, Conn. The work will be advertised for bids before long, as work is expected to begin July 15th.

SOUTH MANCHESTER, CONN.—Watson, Tryon & Son, of Hartford, have received the general contract for erecting the extensive additions to the plant of Cheney Bros., at South Manchester. Architect Hill, of Boston, drew the plans, he being the company's mill architect.

NEWARK, N. J.—A. D. Heyne, Newark, is preparing plans for a 4-sty store and flat building, 100x70, on the northwest corner of Broad and Wright sts, for Gustave Lachenauer, at a cost of $10,000. Building permits have been granted for the following: 4-sty brick residence at 10 Burnet st, for D. Goldsmith, to cost $15,000, H. Baechlin, architect; 6-sty brick warehouse at 354 Plane st, for William M. Clark, to cost $40,000; 1-sty brick power-house on Bruen st, for Blanchard Bros. & Lane, to cost $30,000, Walter Pendelton & Co., architects; 4-sty brick apartments on 15th av, near Bruce st, for H. Buerman, to cost $22,000, Alfred Peters, architect.

SYRACUSE, N. Y.—The Dey Time Register Co., of Syracuse, will build a 5-sty factory of mill construction at South West and Tully sts, Syracuse, 50x171 feet, together with a power-house, 32x50, adjoining.

MILFORD, CONN.—Brown & Von Beren, of New Haven, are making plans for a 3-sty hotel, to be built at Milford, Conn., for J. McLaughlin. The same architects have nearly finished the plans for the $65,000 addition to the Home of the Little Sisters of the Poor, on Winthrope av, New Haven.

NEW HAVEN, CONN.—The National Wire Corporation will erect two new foundry buildings, each 410x60 ft., of steel construction, trussed roof, brick walls, in New Haven. Plans are being made by Chief Engineer C. J. Daly.

PLAINFIELD, N. J.—The Aluminum Press Co., North av and Berckman st, Plainfield, will erect five buildings at Dewey Park to cost $100,000.

NEW BRITAIN, CONN.—Rackliffe Bros. Co. will build a 3-sty brick storehouse and workshop, 46x60, on Park st, New Britain.

WOLCOTT, N. Y.—The Episcopal Society will build a new church on a rise of ground at the head of West Main st, which they have just purchased.

NEWARK, N. Y.—The Dutch Reformed congregation will build a new church on a plot on East av, through to East Miller st.

LYONS, N. Y.—The Baptist Society will erect a new $10,000 church on the site of the old one.

## Of Interest to the Building Trades.

Edward Corning, general builder, has moved his office from 11 John st to 621 Broadway.

The Union Exchange Bank of this city, whose offices at 135 5th av are now being fitted up, expects to begin business about June 15.

E. M. Price, of Price & Hart, 18 Broadway, city, returned last week from an extended trip through the southern hardwood district.

Norris H. Norden, president Norden & Sax Lumber Company, city, is expected back this week from an extended stay at the southern operations of his company.

Schmeidler & Bachrach, real estate operators, 35 Nassau st, have their new lists of property ready and will mail same on application; they would also ask brokers to submit to them any property they have for sale, and the same will be given prompt attention.

Professor William R. Ware, for twenty-two years professor of architecture at Columbia University, will retire from active service and become professor emeritus at the close of the academic year.

Following their usual custom, W. & J. Sloane, Broadway and 19th st, will close their establishment every evening at 5 o'clock, and on Saturday at 12, noon, during the months of June, July and August.

During the month of May the Lehigh Portland Cement Company, of which Hiram Snyder & Co., 229 Broadway, are agents, sold 30,000 more barrels than the mills produced. How is that for an off month?

Another move in regard to a new Bellevue was made this week when the Board of Estimate was asked to purchase the block lying between 28th and 29th sts, 1st av and the East River, for the new Hospital.

The New York terminal of the Manhattan and Hudson tunnel will front on Church st, between Cortlandt and Fulton, directly over the rapid transit tunnel extension. A very interesting quarter of the city that will be.

A large contract for washing and similar machinery, to be installed in Colonel John Jacob Astor's new St. Regis Hotel, on 5th av, has just been awarded to the Watkins Laundry Machinery Company, of Cincinnati.

The master builders and material dealers constitute a great power in the community. Their manner of conducting the present campaign has given them the highest position in the public regard. And their money is as clean as any.

On June 26 a public hearing will be given by a committee of the Board of Aldermen upon the proposed franchise of the Union Railway Company to cross Macomb's Dam Bridge. The Board of Estimate recommended this grant a long time ago.

George W. Jump & Co., new and second-hand building material dealers, have incorporated under the style of the George W. Jump Company, with a capital of $25,000. The incorporators are George W. Jump, C. F. Agler and J. R. Potter.

Secretary John P. Gustaveson, of the Armory Board, has been suspended from his official position pending the investigation of charges preferred against him by Comptroller Grout. It is alleged that the secretary took advantage of his official position to favor certain contractors.

J. G. White & Co., 29 Broadway, who are the contracting engineers for a portion of the equipment for the New York & New Jersey Railroad Company's plant, will soon have their specifications ready for the electric equipment, heating and ventilating apparatus, track equipment, etc.

The A. B. See Electric Elevator Company of Brooklyn, and St. Paul Building, Manhattan, which is building a new plant in Jersey City, is now considering the equipment end. U. S. Barstow, electrical engineer, 11 Broadway, has been retained in a consulting capacity in this connection.

No work of importance has been done on the new U. S. Custom House for seven weeks, on account of strikes and lockouts.

The new building "Number Forty-Six Broadway," is up to the eighth tier with the ironwork, and the front wall is up two stories. The facade will evidently be very handsome.

The National Bank of North America has moved into its new home on the ground floor of 41 and 43 Wall st, and 43 to 49 Exchange place. The banking rooms are very attractive, being finished in mahogany and white. Modern safe deposit vaults have been established immediately under the bank.

The Continental Trust Company has moved into its new offices in the Blair Building, on the same block with the Stock Exchange. Finished in marble and bronze, there are no handsomer offices in the city. They occupy the entire floor and have a separate entrance on the corner of Broad st and Exchange pl.

An open competitive examination was held for the position of clerk in the Tenement House Department on Thursday. The lists now in force for clerk are exhausted for the Tenement House Department, but are adequate for the future needs of the Bureau of Buildings. The salary is $1,050 per annum.

The last meeting of the season of the Architectural League was held at the Hermitage, at Williamsbridge, on Tuesday night, and was attended by about fifty members. The following officers, elected for the coming year, were formally installed: Arnold W. Brunner, president; William Laurel Harris, first vice-president; Augustus Lukeman, second vice-president; Frank E. Wallis, secretary; Edward Pearce Casey, treasurer.

The "Arcade," just completed, at Broadway and 65th st, is a novelty on the West Side. The plan called for clever work in several lines, notably in the construction of skylights and cornices, which was largely ornamental, and was cleverly executed by Anderson & O'Brien, of 512 West 48th st. The skylight through the "Arcade" measures 22x145 feet, and 22 studio lights averaged 15x8 feet each. Their telephone call is 676 38th st.

The Halsey Electric Generator Company, 129 W. 17th st, is having plans prepared for a large plant which will be erected in the vicinity of New York for the manufacture of electric batteries in all sizes. To provide for these improvements the capital stock has been increased to $10,000,000. The company is owned by the Guaranty Trust Company of New York, the president, Walter G. Oakman, being one of the directors of the Halsey Company.

The counsel for the Pennsylvania Road, in some proceedings before the Local Board at Long Island City, said that the railroad he represented had purchased all the land from Thompson av, near the Court House in Long Island City, to Woodside, and that plans to convert this into the greatest terminal in the world were under way. The Pennsylvania is keeping its detail plans out of public view. Nothing visible has transpired for several months, except the test borings.

The credit of originating and leading the new movement among builders and dealers in materials is given to Mr. Charles L. Eidlitz, First Vice-President of the Building Trades' Association. Mr. Eidlitz is an electrical contractor, and is a member of the Executive Committee of the Electrical Contractors' Association.

Superintendent of Buildings Henry S. Thompson has appointed as Chief Inspector of the Bureau Walter T. Smith, at a salary of $3,000 a year. The new Chief Inspector has had more than ten years' experience as an architect, and was the Superintendent of Buildings at the Pan-American Exposition at Buffalo. He takes the place formerly occupied by Thomas O. McGill. It is said that the appointment of Mr. Smith was recommended by a conference of leading architects, whom Mr. Thompson called together and asked to name the best available man for the place.

F. A. Emerick has leased for a term of years the entire store No. 449 West 125th st, extending through to No. 40 Manhattan st, where he has on display the latest designs in mantels, fireplace fittings, etc. Mr. Emerick also makes a specialty of ceramic and mosaic tiling for large apartment houses and has recently closed the following contracts: Clermont Hall, Broadway and 112th st, for Max Vogel; Meteor apartments, 89th st and Park av, for Herman Straus; Gallatin apartment, on 46th st, east of 6th av, for Municipal Construction Co., and the new apartment hotel on 49th st, east of 7th av, for Hallahan & Ahearn.

## The Labor Situation.

The trend of circumstances is toward a successful and early conclusion of the matters that have caused a general suspension of building operations in New York. On Wednesday the United Board of Building Trades adopted a resolution requesting the Building Material Handlers and the Building Material Drivers' unions to withdraw from connection with them, and at the present moment the building world is waiting for the decision of these two disquieting elements.

Without the support of the building trades the drivers and handlers are not expected to go far. In spite of anything that might be done to prevent it, the dealers could resume business and yet ignore these unions completely. The answer will be due on Monday, if it does not come before; then, if it be a refusal to withdraw, a resolution of expulsion, which was voted down on Wednesday, will be in order.

Until this week there had been no communication between the parties to the issue, but the action of the executive committee of the Association of Dealers in Building Materials, which was echoed by the Lumber Dealers, in deciding to continue the shutdown until the Drivers' and Handlers' unions should discontinue their efforts to unionize the yards, brought the walking delegates to their senses. On Tuesday the Dealers were waited on by a committee of five delegates and the conference which ensued lasted four hours. As between these committees an agreement entirely satisfactory to the Dealers was reached, the understanding being that the Building Trades would sever all connection with the drivers and handlers.

One of the obstacles in the way of swift action is a rule of the United Board of Delegates that no union shall be expelled except for treason to that body; and the majority (22 to 13) were not of the opinion that the act of the Handlers and Drivers, in attempting to open negotiations with the Dealers, constituted that crime. However, the main point is to get the unskilled men out, and the "wiser heads" will doubtless find a way of doing that.

The end of the Dealers' lockout being evidently near at hand, the question arises, how near ready are the building trades to resume work? Inquiries disclose that the Bricklayers have not insisted on the requests which they made previous to the first of May; that they have made no formal demand that foremen shall be members of their unions, nor that their wages shall be increased. The internecine strife among the Carpenters has been fought to a finish, to the discomfiture of the Brotherhood, and all are anxious to go to work. By an agreement made last fall the Plasterers are to have an increase of wages on the first of July, but their helpers are now striking for a raise. Not satisfied with $3.25 a day for mere laboring work, they demand $3.50. Even this the bosses were willing to give if the men would execute an agreement for a specified time; but the gentlemen of the hod would make no covenant that would prevent them from striking as often as they wished. Among the Ironworkers conditions are far from satisfactory, either as relates to outside or inside men. On Tuesday of this week three hundred men at work on the new 12-sty hotel at 5th av and 55th st, went on strike because some structural iron for use in the building had be brought by non-union drivers. Samuel Parks, the walking delegate of the Housesmiths' and Bridgemen's Union, ordered the strike, on the demand of Michael J. Rogan, walking delegate of the United Building Material Drivers' Union. Work on the building was stopped completely. The contractors thereupon issued a statement setting forth that the strike was a purely sympathetic one, and was in violation of the agreement entered into by the Housesmiths' and Bridgemen's Union on May 1. The statement continued:

This agreement provided among other things that there should be no sympathetic strikes nor any discrimination on the part of the workmen as to the handling of any materials.

In view of this action in repudiating an agreement entered into so recently, and by virtue of which the men received an advance of 12½ per cent. in their wages, it is uncertain what action will be taken by the National Association of Employers.

After having been shut down for more than three weeks, as the result of a strike followed by lockout, the Hecla Iron Works, at North 11th and Berry sts, Williamsburg, were reopened on Monday morning, and a great many men have taken advantage of the opportunity to return to work. At the time of the lockout nearly a thousand men were affected, and other men who did what is known as the outside work for the company. As a result of the lockout and strike the company withdrew its co-operative profit-sharing system with the employes, in vogue many years. The company under no circumstances will recognize the union with which the strikers are connected, and a walking delegate will not be permitted to enter the works.

Thus far the Emergency Committee of the Building Trades' Employers' Association have not been active in the fight, except in so far as the co-operation of the Master Masons and Master Carpenters have aided by their resolve not to purchase from any firm not members of the Dealers' associations. But on Monday the governors met and discussed the aspects of the labor war and took action in the direction of strengthening the campaign against "union tyranny." Among other things they formulated and adopted the following platform, which sets forth the principles upon which the organization is built, and indicates the lines upon which it will meet all differences with labor unions:

"Whereas, during the last few years the demands of organized labor have become unreasonable and the actions of its representatives have often been unfair and unjust, we, the Board of Governors of the Building Trades' Employers' Association of the City of New York, in meeting assembled, declare,

"That in many instances the present condition of affairs in the building industry of this city is unbearable and will no longer be tolerated; that it shall be our duty to avert sympathetic strikes, including the attack upon individual firms or corporations, as well as the arbitrary attitude of the business agent; to eliminate the opportunity for extortion and bribery; to settle all questions as to jurisdiction of trade; to obtain proper relations between skilled and unskilled labor; to establish proper courts of arbitration in order to accomplish the above result and in general to provide ways and means to enable the members of this association and those employed by them to unlawfully prosecute their business without unnecessary interruption, financial loss or humiliation; that in doing this we have at heart the best interests of all concerned, including the investor, our own membership and our employes."

"When the bosses shall have a good, solid organization," said Mr. Egan, of Watson & Egan, this week, "labor conditions in this city will be a great deal better. They would have more confidence, and investors would have more confidence. If the agreement principle could be worked out, it would be an excellent thing."

James Sherlock Davis, Chairman of the Joint Labor Committee of the Dealers' Associations, said:

"The whole matter is now in abeyance. There is nothing for us to do but wait. It should be understood, however, that we have no idea of unionizing our yards on any conditions."

The general public will rejoice with the dealers and builders in the prospects of peace. Many important improvements have been seriously delayed. Perhaps few people not connected with real estate interests have an adequate idea of this. Some large operations that have been stopped in whole or in part may be thus given:

It is hoped for the sake of real estate interests that a lasting peace will be concluded, and that masons, hod-carriers, team drivers, et hoc genus omne, will be brought to a knowledge of those limitations within which they can retain the respect of right-minded people. Too often the sympathetic strike is unjust and absurd, and too often the mechanic's aim is to perform the smaller amount of work for the highest wage that can be exacted.

## Owners Must Not Use Their Neighbor's Light and Ventilation.

A decision of the highest importance to builders and property-owners has just been rendered by Justice McLean, having to do with the right of an owner to the light and ventilation he has provided, through an inner court. The owner of an adjoining tenement house has recently cut through his independent wall and made windows opening out of bathrooms and hallways into small inner courts, entirely upon the premises of the petitioner, who, because of the odors and dust, desires to place in front of the windows iron shutters fastened to framework attached to his own building, making the whole structure solely upon his own property. Plans filed for such alterations the Tenement House Commissioner refused to approve, "on the ground that to approve them would violate the entire spirit and intention of the Tenement House Act."

An action was brought against the Commissioner for a mandamus. The opinion of the court reads: Aggravations appear in the papers of the petitioner, who exhibits in the official replies the procacity which may be meted out to a householder simply seeking with his own, upon his own and at his own cost to protect his property and his tenants from the noisome smells and dust and impertinent gaze of the neighbors. Still, the presentation in the "memorandum in opposition" will suffice for the petitioner. It also takes up the part of the owner of the adjoining tenement who has also benefited her property by injuring the petitioner's. In fact the argument to sustain the commissioner is that to let the petitioner help himself would be to take away from the adjoining house-owner the benefits she has gained at his expense. "Light and ventilation," continues the exposition of the law and facts, "and sanitary conditions of tenement houses constitute important subjects of the Tenement House Act. The ventilation and sanitary conditions of the tenement house adjoining that of the petitioner will be seriously affected if the petitioner is permitted to erect the proposed iron shutters over the bathrooms and hall windows. Light and air will be cut off. The principal object of the act is to control such situations as these, and this particular one must be governed by the Tenement House Act. * * * The tenement house adjoining that of the petitioner was erected before the passage of the Tenement House Act, but the structure has been altered by cutting window openings into the bathroom, so in that respect the premises are in a condition that the requirements of the Tenement House Act demand in cases of tenement houses erected after the passage of the law. Many other provisions of the act show that its intention is to have sufficient air, light and ventilation provided for water-closets. * * * The particular means of preventing ventilation by erecting shutters was not foreseen, and no express provision was furnished to prohibit such action; but a fair construction of the whole act shows that the erection of the shutters would be directly opposed to the intendment of the act, and such a construction warrants the stand that has been taken by the tenement house commissioner." Thus the statute and the officials acting under it were not turned to hinder the offending neighbor—mayhap she was abetted—when ridding her house of noisome odors and unsanitary exhalations by turning them into the apartments of the petitioner, but the same statute and officials are to deter him from keeping them out. Altruism, stimulated by statute and furthered by flat! Were the construction put upon a fair construction of the law, and were such an indiscreet exercise of discretion permissible, the constitutional guarantees of enjoyment of property would be less practical than they are. Application granted, with costs.

## Questions and Answers.

ACCEPTANCE.

*To the Editor of* THE RECORD AND GUIDE:

A is the first owner, B the second owner, C the tenant. C rents house from A, but has no lease. A sells property to B, who accepts first month's rent from C at the old rate. Then B gives notice that rent is to be raised July 1. Question: Can B, having accepted one month's rent from C at former rate, increase rate during the coming year?

Answer.—Unless distinctly a monthly letting, acceptance of rent after May first continues the lease for another year at the same rent.—Law Editor.

BROUGHT A BUYER.

*To the Editor of* THE RECORD AND GUIDE:

An owner of a certain house asked me to sell his property for him for a certain sum. I procured a buyer and now he refuses to sell same. Can I sue him for my commission, and may I recover?

Answer.—As a general proposition, yes.—Law Editor.

HIS AREA.

*To the Editor of* THE RECORD AND GUIDE:

At my place of business there is an area about 100 feet long and 10 feet deep, and the boys throw down all kinds of rubbish, which makes it very inconvenient for me. I would like to know if I could cover up the top by putting in sash without going to the building department for a permit?

Answer.—If you lease your place of business, better see your landlord.—Law Editor.

## Bridge Work.

Bids were opened on May 28, by Commissioner of Bridges Lindenthal, for furnishing material and plant necessary to construct the steel underflooring for the roadways of the Williamsburgh Bridge, the following being noted: R. H. Hood Company, $168,746; Pennsylvania Steel Company, $271,560; John Kenny, Jr., $212,000. At the same time and place bids were opened by Commissioner Lindenthal for furnishing the material, labor and plant for constructing the creoresinate wood block pavement for the roadway of the same bridge, the following offers being noted: U. S. Wood Preserving Co., $31,989; R. H. Hood Co., $48,350; Eppinger & Russell Co., $34,270.

About seventy-five per cent. being now finished, the structure is almost ready for the roadways. At the present time the riveting section of the contract engages attention, a stupendous task. A few weeks will find all the cable work finished, as well as all the steel work on the Manhattan side; the Brooklyn approach is described as finished.

The Fordham Heights bridge proposition having reached the Bridge Department from the Board of Estimate, Commissioner Lindenthal has ordered plans to be prepared. As heretofore stated in these columns, this bridge will extend between 9th av and 207th st, Manhattan, and Harlem River Terrace and Cammann place, Bronx, 1,300 ft. long, 60 wide, and 24 clearance. For the passage of boats there will be a lift span in two folding sections.

Plans have also been ordered for the proposed new and larger Madison Avenue Bridge, which will be 80 ft. wide, with easier grades for the approaches, of which there will be two on the Manhattan side, one approach to begin at Madison av and 136th st, one block south of the present single approach. The other approach will extend west from the river along the north side of 138th st to 5th av.

—No modern inventions in the nature of appliances for lighting, heating, cooking and water pumping approach in effective character of work those incorporated in the Tirrill Equalizing Gas Machine and Hartig Gas Pumping Engine for water. Their acknowledged superiority is being daily attested by the increasing demand for them in factories and institutions of all kinds, as well as by the many hundreds now in use in suburban residences throughout the country. This gas plant is especially adapted for manufacturing purposes of all kinds, and is invaluable in laboratories, etc. Manufacturers, builders, architects, and home-owners generally cannot but profit greatly by a visit of inspection to the showrooms of the Tirrill Gas Machine Lighting Company, at 441 Broadway, between Howard and Grand sts, New York, where both of the above machines are upon exhibition and where the many features of merit which recommend them highly to modern property-owners can be explained in detail.

—As concerns the new report that the Comptroller is thinking of shutting off the pay of the new Superintendent of Buildings, the public disposition is to await final results. In the meantime Mr. Thompson continues in the performance of his duties unperturbed.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, whereln, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existin gones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.
